Their Eyes Were Watching God is a 1937 novel by African-American writer Zora Neale Hurston. It is considered a classic of the Harlem Renaissance of the 1920s, and it is likely Hurston's best known work.

The Publication Manual of the American Psychological Association is the style manual of choice for writers, editors, students, and educators in the social and behavioral sciences, nursing, education, business, and related disciplines.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use

and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to

prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconus, a dragon, befriends the boy,

training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon

this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees."

And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

The revolutionary literary vision that sowed the seeds of Objectivism, Ayn Rand's groundbreaking philosophy, and brought her immediate worldwide acclaim. This modern classic is the story of intransigent young architect Howard Roark, whose integrity was as unyielding as granite...of Dominique Francon, the exquisitely beautiful woman who loved Roark passionately, but married his worst enemy...and of the fanatic denunciation unleashed by an enraged society against a great creator. As fresh today as it was then, Rand’s provocative novel presents one of the most challenging ideas in all of fiction—that man’s ego is the fountainhead of human progress... “A writer of great power. She has a subtle and ingenious mind and the capacity of writing brilliantly, beautifully, bitterly...”—The

"Let's start with a simple question: what do scientists actually do? In most cases, they do research, the goal of which is to learn more about the world in all its aspects, whether the topic is our own bodies, the smallest particles which make up matter, or the vastest reaches of the universe. Their research goal may be to fight disease, feed the world, create new technologies, understand our climate, or any of a million other objectives specific to different areas and disciplines. The point of all this research then is to add to our storehouse of human knowledge, whether with practical consequences in mind or sometimes for the goal of simply 'understanding more'. We see the outputs and benefits of this research all around us every day, in medicine, technology, food, communications and countless other facets of our science-filled lives, and can read about our state of knowledge in books, websites and articles. However, behind every achievement, benefit, fact, theory or argument, seldom seen or appreciated, there are the scientists whose work has given rise to it. Science is a fundamentally human endeavour, driven by the hard work, curiosity, commitment and ambition of researchers, and sometimes complicated by human factors like jealousy, competitiveness, insecurity and (rarely, we hope) dishonesty"--

Ed Sikov builds a step-by-step curriculum for the appreciation of all types of narrative cinema, detailing the essential elements of film form and systematically training the spectator to be an active reader and critic. Sikov primes the eye and mind in the special techniques of film analysis. His description of mise-en-scene helps readers grasp the significance of montage, which in turn reveals the importance of a director's use of camera movement. He treats a number of fundamental factors in filmmaking, including editing, composition, lighting, the use of color and sound, and narrative. Film Studies works with any screening list and can be used within courses on film history, film theory, or popular culture. Straightforward explanations of core critical concepts, practical advice, and suggested assignments on particular technical, visual, and aesthetic aspects further anchor the reader's understanding of the formal language and anatomy of film.

Roger Ebert has been writing film reviews for the Chicago Sun-Times for over four decades now and his biweekly essays on great movies have been appearing there since 1996. As Ebert noted in the introduction to the first collection of those pieces, “They are not the greatest films of all time, because all lists of great movies are a foolish attempt to codify works which must stand alone. But it’s fair to say: If you want to take a tour of the landmarks of the first century of cinema, start here. Enter The Great Movies III, Ebert’s third collection of essays on the crème de la crème of the silver screen, each one a model of critical appreciation and a blend of love and analysis that will send readers back to the films with a fresh set of eyes and renewed enthusiasm—or maybe even lead to a first-time viewing. From The Godfather: Part II to Groundhog Day, from The Last Picture Show to Last Tango in Paris, the hundred pieces gathered here display a welcome balance between the familiar and the esoteric, spanning Hollywood blockbusters and hidden gems, independent works and foreign language films alike. Each essay draws on Ebert’s vast knowledge of the cinema, its fascinating history, and its breadth of techniques, introducing newcomers to some of the most exceptional movies ever made, while revealing new insights to connoisseurs as well. Named the most powerful pundit in America by Forbes magazine, and a winner of the Pulitzer Prize, Roger Ebert is inarguably the most prominent and influential authority on the cinema today. The Great Movies III is sure to please his many fans and further enhance his reputation as America’s most respected—and trusted—film critic.

Retreats: Deepening the Spirituality of Girls presents two one-day retreats on the themes of childhood myths and sexuality; three overnight retreats on the themes of media, conversion, and friendship; a fourth overnight retreat for mothers and daughters; and a weekend retreat on the spiritual journey.

Standing but a stone's throw from the continent's western shoreline, Samuel Hill, a Quaker devoted to peace and a road builder rolling in wealth, addressed 4,000 celebrants gathered at the United States-Canada border on the Fourth of July, 1915. There, they celebrated a century of international peace and the opening of the Pacific Highway, now known simply as the I-5. As the ceremony closed, one member of the crowd stood and proposed construction of an international arch of peace at the site whereon they stood. Hill agreed and acted upon the proposal. Six years later, on September 6, 1921, Samuel Hill stood before a crowd estimated at 10,000 or more, and dedicated the International Peace Arch to the cause of world peace. "War satisfies neither the victors nor the vanquished," he said, opening his dedicatory address. "Perfect peace alone satisfies." For more than 80 years the Peace Arch has stood between freeway lanes where millions of travelers, heading south into Washington state or north into British Columbia, have seen it as a symbol of peace. Curiously, little historical investigation occurred until Richard Clark, a resident of Blaine, Washington, whose home is but one block from Peace Arch State Park, completed an exhaustive manuscript after fifteen years of research. The Peace Arch, standing on beautiful international parkland, has also been enshrouded with myths and mysteries that Clark has uncovered in the course of his research.Peace Arch devotees, long forgotten, have been restored to remembrances they have long deserved. Vital facts, long lost, have been recovered and given merited recognition. The Peace Arch has been the setting of devotion and demonstrations, queens andquarrels, marriages and marching bands. But in its history, so notably marked by variation ranging from violence to indifference, peace has remained its ongoing theme Popular Mechanics inspires, instructs and influences readers to help them master the modern world. In a world without political freedom, personal freedom and precious little faith in anything comes a mysterious man in a white porcelain mask who fights political oppressors through terrorism and seemingly absurd acts. It's a gripping tale of the blurred lines between ideological good and evil. The inspiration for the hit 2005 movie starring Natalie Portman and Hugo Weaving, this amazing graphic novel is packaged with a collectable reproduction of the iconic "V" mask.

Writing Matters unites research, reasoning, documentation, grammar and style in a cohesive whole, helping students see the conventions of writing as a network of responsibilities writers have... ..to other writers. Writing Matters clarifies the responsibility writers have to one another--whether they are collaborating in an online peer review or drawing on digital and print sources in a research project--to treat information fairly and accurately and to craft writing that is fresh and original--their own! ..to the audience. Writing Matters stresses the importance of using conventions appropriate to the audience, to write clearly, and to provide readers with the information and interpretation they need to make sense of a topic. ..to the topic. Writing Matters emphasizes the writer's responsibility to explore a topic thoroughly and creatively, to assess sources carefully, and to provide reliable information at a depth that does the topic justice. ...to themselves. Writing Matters encourages writers to take their writing seriously and to approach writing tasks as an opportunity to learn about a topic and to expand their scope as writers. Students are more likely to learn about a topic and to expand their scope as writers. Students are more likely to write well when they think of themselves as writers rather than as error-makers. By explaining rules in the context of responsibility, Writing Matters addresses composition students respectfully as mature and capable fellow participants in the research and writing process.
