*This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought!*

*This compelling and timely book explores the relationship between classical Islamic theology and the contemporary radicalization of Islam.*

*AN INDEPENDENT BEST BOOKS ON RELIGION 2014 PICK Few things provoke controversy in the modern world like the religion brought by Prophet Muhammad. Modern media are replete with alarm over jihad, underage marriage and the threat of amputation or stoning under Shariah law. Sometimes rumor, sometimes based on fact and often misunderstood, the tenets of Islamic law and dogma were not set in the religion's founding moments. They were developed, like in other world religions, over centuries by the clerical class of Muslim scholars. Misquoting Muhammad takes the reader back in time through Islamic civilization and traces how and why such controversies developed, offering an inside view into how key and controversial aspects of Islam took shape. From the protests of the Arab Spring to Istanbul at the fall of the Ottoman Empire, and from the ochre red walls of Delhi's great mosques to the trade routes of the Indian Ocean world, Misquoting Muhammad lays out how Muslim intellectuals have sought to balance reason and revelation, weigh science and religion, and negotiate the eternal truths of scripture amid shifting values. Salafism has received scrutiny as the one of the main ideological sources for extremist violence perpetrated by jihadi groups. There is a significant corpus of literature discussing transnational jihadi networks, especially after the 9/11 attacks in the United States. These discussions include the radicalization of Salafi thought by jihadi theoreticians and 'ulama. However, Salafism is not monolithic. It contains numerous streams, and an examination of these streams is crucial to understanding its influence on Muslim societies. Besides Salafi jihadist those who sanction violence there are two other broad trends in Salafism: quietist and activist. Quietist Salafis endorse an apolitical tradition and find political activism in any form unacceptable. Activist Salafis advocate peaceful political change. Each stream is led by 'ulama, seen as the preservers of Salafi traditions. The quietist and activist 'ulama are active participants in their communities. Studies of such clerics have tended to be country-specific, focusing on the influence and nature of Salafism and its dynamics in those countries. In Rethinking Salafism Raihan Ismail assesses the origins, interactions, and dynamics of the transnational networks of Salafi 'ulama in the region comprising Saudi Arabia, Egypt, and Kuwait, showing how quietist and activist 'ulama work across borders to preserve and promote what they see as "authentic" Salafism while taking domestic circumstances of the 'ulama into consideration. The book offers a reassessment of the quietist/activist dichotomy, arguing that this dichotomy does not apply to such aspects of Salafi thought as attitudes towards the Shi'a and social matters in Muslim societies.*

In this series, Maulana Wahiduddin Khan has presented the fundamental teachings of Islam in a simple way.

This book deals with sickness, which continues to afflict human beings from birth until death. Sickness strikes as light as a simple cold or allergy, and as hard as a plague or cancer. It keeps the human being under check, reminding him of his weakness and giving him a chance to turn to the One who possesses to afflict and cure. This book deals with sickness, its regulations, and lessons associated with it.

Downshifting. Downsizing. Seachange. These trends are emerging as the issues of the new millennium. As a society we are now challenging the 24/7 drive to pursue wealth and so-called success. Daniel Petre is the one author on this subject who can claim to walk the talk. One of Australia's most successful technology and media executives, Daniel is also the author of 'Father Time', founder of the father's canteen roster at his daughter's school and one of the country's major philanthropists. This is the handbook to help you live the life you want – now and forever. 'What Matters' has arrived.

"First published in 2005, Understanding Jihad unraveled the tangled historical, intellectual, and political meanings of jihad within the context of Islamic life. In this revised and expanded second edition, author David Cook has included new material in light of pivotal events over of the past ten years, such as the revolutionizing events of the Arab Spring, the death of Osama bin Laden, and the rise of new Islamic factions such as ISIL. Jihad is one of the most loaded and misunderstood terms in the news today. Contrary to popular understanding, the term does not mean "holy war." This judiciously balanced, accessibly written, and highly relevant book looks closely at a range of sources from sacred Islamic texts to modern interpretations of the term, opening a critically important perspective on the role of Islam in the contemporary world. As David Cook traces the practical and theoretical meanings of jihad, he cites from scriptural, legal, and newly translated texts to give readers a taste of the often ambiguous information that is used to construct Islamic doctrine. He looks closely at the life and teaching of the Prophet Muhammad and at the ramifications of the great Islamic conquests in 634 to 732 A.D. He sheds light on legal developments relevant to fighting and warfare, and places the internal, spiritual jihad within the larger context of Islamic religion. He describes some of the conflicts that occur in radical groups and shows how the more mainstream supporters of these groups have come to understand and justify violence. He has also included a special appendix of relevant documents including materials related to the September 11 attacks and published manifestos issued by Osama bin Laden and Palestinian suicide-martyrs"--Provided by publisher.

*While Syria has been dominated since the 1960s by a determinedly secular regime, the 2011 uprising has raised many questions about the role of Islam in the country's politics. This book demonstrates that with the eradication of the Muslim Brothers after the failed insurrection of 1982, Sunni men of religion became the only voice of the Islamic trend in the country. Through educational programs, charitable foundations and their deft handling of tribal and merchant networks, they took advantage of popular disaffection with secular ideologies to increase their influence over society. In recent years, with the Islamic resurgence, the Alawi-dominated Ba'thist regime was compelled to bring the clergy into the political fold. This relationship was exposed in 2011 by the division of the Sunni clergy between regime supporters, bystanders and opponents. This book affords a new perspective on Syrian society as it stands at the crossroads of political and social fragmentation.*

*With unprecedented access to a closed culture, Lacroix offers an account of Islamism in Saudi Arabia. Tracing the last half-century of the Sahwa, or "Islamic Awakening," he explains the brand of Islam that gave birth to Osama bin Laden—one that has been exported, and dangerously misunderstood, around the world.*

*Nasir al-Din Tusi, the renowned Shi'i scholar of the 13th century, produced a range of writings in different fields of learning under Ismaili patronage and later under the Mongols. This is a new English translation of his Rawda-yi taslim - the single most important Ismaili text from the Alamut period. Here the Persian and English texts are published together for the first time to produce a work of enormous value to students of Islamic theology and philosophy. The book contains an introduction by Professor Hermann Landolt and philosophical commentary by Professor Christian Jambet, who has produced a French translation of this text.*

*It is very important for anyone who wants to spread the message of Islam to study the life of the Prophet (blessings and peace of Allah be upon him) and discover how he undertook the mission of da'wah, or calling to Islam. This book is a blueprint for da'wah. From studying his biography we learn the lessons of patience and perseverance in the face of adversity and opposition, and the readiness to sacrifice everything for the cause of Islam. In this book, Dr. as-Sibâ'ie shows us how the Prophet's approach was gentle yet determined and clear-cut, with no compromise on basic issues. The author takes the most important events of the Messenger's life, summarizes them in order to offer a brief overview, then outlines the lessons that we learn from these events. This is an excellent introduction both to the principles of da'wah and to the seerah, the study of the life of the Prophet (blessings and peace be upon him). It should be on the bookshelf of every Muslim who wants to call others to Allah.*

Arguably more than any other region, the area known as Eastern Europe has been defined by its location on the map. Yet its inhabitants, from statesmen to literati and from cultural-economic elites to the poorest emigrants, have consistently forged or fathomed links to distant lands, populations, and intellectual traditions. Through a series of inventive cultural and historical explorations, Eastern Europe Unmapped dispenses with scholars' long-time preoccupation with national and regional borders, instead raising provocative questions about the area's non-contiguous—and frequently global or extraterritorial—entanglements.

Provides a detailed reconstruction of the heated debates between Salafis and Traditionalist over the contested role of Islamic scholarly authority.

The Tadmuriyyah is a treatise written by Ibn Taymiyyah. The famous scholar of Islam, who strives always against the Bid'ah (innovation) until the end of his life, yet he did not stop his journey to the truth. So it is not strange that he said "What could my enemies possibly do to me? My paradise is in my heart; wherever I go it goes with me, inseparable from me. For me, prison is a place of (religious) retreat; execution is my opportunity for martyrdom; and exile from my town is but a chance to travel." He has many books written in different fields of knowledge. This treatise discussed the Aqeedah; which included names and its attributes of Allah (ﷻ); Shari'ah and Al-Qadar, which considers the vital part of Islamic religion. It is also one of the most important books use in Salafi to shape the Aqeedah. This treatise is about some answers related to Aqeedah given to the students of Tadmur. Here Ibn

Taymiyyah indicates that it is obligatory for the seeker of Tawhid to firm believe on whatever Allah says about Himself and to deny whatever Allah denies about Himself; the duty of 'Ibad towards command is to obey, towards prohibition is to avoid, after that he should seek forgiveness from Allah(ﷻ). This treatise has many explanations but Taqrib Tadmuriyyah is considered as one of the best among these explanations; given by Shaykh al-Uthaymeen.

**The Salafi Da'wah: its aims and stance towards its opposers is a collection of questions and answers by Shaykh Muhammad Nāsir-ud-Dīn al-Albāni compiled by his student 'Iṣām Mūsā Hādī. Shaykh Al Albani answers a series of questions pertaining to the aims and objectives of the Salafi Da'wah, islamic groups, the Madhhabs, current issues, takfir (declaring another Muslim as a non-believer) and other relevant issues. Shaykh Al Albani was well known to be at the fore front of the call to adopt the methodology of the early generations of Islam as the path towards salvation.**

**Abdul-Rahman Mustafa offers a deft new translation of a large extract from the book I'lam al Muwaqqi'in 'An Rabb al 'Alamin, by the thirteenth-century Islamic scholar, Ibn Qayyim al Jawziyya. The I'lam comprises an extensive discussion of the subject of taqlid, or legal imitation. It is one of the most comprehensive treatments of Islamic legal theory and even today serves as a manual for mujtahids and muftis. In the portion of the I'lam Mustafa has translated, Ibn Qayyim introduces the nature of taqlid and divides it into several categories. He then provides an account of a debate between a critic of the view that taqlid of a particular school or a scholar is a religious duty and this critic's interlocutor. Among the topics discussed are the different kinds of taqlid, the differences between taqlid and ittibi', the infallibility of religious scholars, the grounds on which one legal opinion might be preferred over another, and whether or not laymen can be expected to perform ijtiḥad. Ibn Qayyim's legal theory is a formidable reformulation of traditionalist Hanbalism, a legal-theological tradition that has always maintained a distinctive**

character in Islamic history and that is now growing more influential due to modern interest in the Wahhabi movement and in Ibn Taymiyya, whose legal and theological thought was edited and refined by his student, Ibn Qayyim. In his introduction to the translation, Mustafa critically reviews the scholarship on taqlid and outlines Ibn Qayyim's legal theory and the importance of taqlid within it. Taqlid continues to generate controversy amongst educated Muslims and particularly academics, as Salafi interpretations of Islam, which are generally 'anti-taqlid,' come into conflict with the generally 'pro-taqlid' stance of traditional schools such as the Hanafis. Mustafa's translation of a classic account of Islamic legal theory and strong critique of the dominant legal culture are timely contributions to an increasingly heated debate. Since the events of 9/11, Salafism in the Middle East has often been perceived as fixed, rigid and even violent, but this assumption overlooks the quietist ideology that characterises many Salafi movements. Through an exploration of Salafism in Jordan, Joas Wagemakers presents the diversity among quietist Salafis on a range of ideological and political issues, particularly their relationship with the state. He expounds a detailed analysis of Salafism as a whole, whilst also showing how and why quietist Salafism in Jordan - through ideological tendencies, foreign developments, internal conflicts, regime involvement, theological challenges and regional turmoil - transformed from an independent movement into a politically domesticated one. Essential for graduate students and academic researchers interested in Middle Eastern politics and Salafism, this major contribution to the study of Salafism debunks stereotypes and offers insight into the development of a trend that still remains a mystery to many. Some Islamic scholars hold that Salafism is an innovative and rationalist effort at Islamic reform that emerged in the late nineteenth century but gradually disappeared in the mid twentieth. Others argue Salafism is an anti-innovative and antirationalist movement of Islamic purism that dates back to the medieval period yet persists today. Though they contradict each other, both narratives are considered authoritative, making it hard for outsiders to grasp the history of the ideology and its core beliefs. Introducing a third, empirically based genealogy, *The Making of Salafism* understands the concept as a recent phenomenon projected back onto the past, and it sees its purist evolution as a direct result of decolonization. Henri

**Lauzière builds his history on the transnational networks of Taqi al-Din al-Hilali (1894-1987), a Moroccan Salafi who, with his associates, participated in the development of Salafism as both a term and a movement. Traveling from Rabat to Mecca, from Calcutta to Berlin, al-Hilali interacted with high-profile Salafi scholars and activists who eventually abandoned Islamic modernism in favor of a more purist approach to Islam. Today, Salafis tend to claim a monopoly on religious truth and freely confront other Muslims on theological and legal issues.**

**Lauzière's pathbreaking history recognizes the social forces behind this purist turn, uncovering the popular origins of what has become a global phenomenon.**

**The spread of Salafism - often called "Wahhabism" - in the West has intrigued and alarmed observers since 9/11. Many see it as a fundamentalist interpretation of Islam that subjugates women and fuels Jihadist extremism. According to this view, Salafi women are the unwilling victims of a patriarchal, fanatical version of Islam. Yet, in Britain, growing numbers of educated women - often converts or from less conservative Muslim backgrounds - are actively choosing to embrace Salafism's literalist beliefs and strict guidelines, including full veiling, wifely obedience, and seclusion from non-related men. How do these young women reconcile these demands with their desire for fulfilling careers, university degrees and suitable husbands? How do their beliefs affect their love lives and other relationships? And why do they become Salafis in the first place? Anabel Inge has gained unprecedented access to Salafi women's groups in the UK to provide the first in-depth and vivid account of their lives. Drawing on more than two years of ethnographic fieldwork and interviews in London, she probes the reasons for Salafism's appeal among young Somalis, Afro-Caribbean converts, and women from other backgrounds. She also reveals how the women's lives are fraught with personal dilemmas. This ground-breaking, lucid, and richly detailed contribution will be of interest to policy-makers, journalists, scholars, and general readers. The Ideal Muslimah This an incredibly sane book, which can help a woman (who is truly female), keep her head on straight and not get lost in a very dangerous game where she only stands to lose. Satan will try to convince women that they have the right to challenge the boundaries of their existence. This book more than anything can help a woman become a decent, loving, compassionate and honest person, which is a huge challenge for most people. This is an excellent book to not only have as a reference book, but to read many times. The book covers everything from the relationship to Allah (God), hospitality to Marriage and family.**

Detailing the events that would set in motion numerous attacks on the U.S. embassy in Pakistan and Shia uprisings in oil-rich areas of Saudi Arabia, this record offers insight into the religious inspiration behind the rebel leader's message and acknowledges many unanswered questions: Who were the rebels and what did they want? Why and how did Juhayman's group come into existence? What was Juhayman al-'Utaybi's ideological legacy and how have his writings influenced contemporary Islamist strains?**

**How do Muslims in Europe acquire discursive and practical knowledge of Islam? How are conceptions of Islamic beliefs, values and practices transmitted and how do they change? Who are the authorities on these issues that Muslims listen to? How do new Muslim discourses emerge in response to the European context? This book addresses the broader question of how Islamic knowledge (defined as what Muslims hold to be correct Islamic beliefs and practices) is being produced and reproduced in West European contexts by looking at specific settings, institutions and religious authorities. Chapters examine in depth four key areas relating to the production and reproduction of Islamic knowledge: authoritative answers in response to explicit questions in the form of fatwas. the mosque and mosque association as the setting of much formal and informal transmission of Islamic knowledge. the role of Muslim intellectuals in articulating alternative Muslim discourses. higher Islamic education in Europe and the training of imams and other religious functionaries. Featuring contributions from leading sociologists and anthropologists, the book presents the findings of empirical research in these issues from a range of European countries such as France, Italy, the Netherlands and Great Britain. As such it has a broad appeal, and will be of great interest to students and scholars of Islamic studies, anthropology, sociology and religion.**

The Nasirean Ethics is the best known ethical digest to be composed in medieval Persia, if not in all mediaeval Islam. It appeared initially in 633/1235 when Tūsī was already a celebrated scholar, scientist, politico-religious propagandist. The work has a special significance as being composed by an outstanding figure at a crucial time in the history he was himself helping to shape: some twenty years later Tūsī was to cross the greatest psychological watershed in Islamic civilization, playing a leading part in the capture of Baghdad and the extinction of the generally acknowledged Caliphate there. In this work the author is primarily concerned with the criteria of human behaviour: first in terms of space and priority allotted, at the individual level, secondly, at the economic level and

thirdly at the political level.

Marriage holds a position of perpetual significance because of the central role it plays in human life. It is not surprising, therefore, that the scholars of Islam have discussed it extensively through the ages. Under the contemporary influence of non-Islamic cultures, however, misconceptions have crept into various areas of Islam - spilling into marriage, divorce, and other family-related matters. Viewing the needs of the Muslims who live in non-Islamic environments, and realizing that most Islamic writings on marriage are restricted in scope, we find quite a large gap that needs to be filled for the benefit of the English-speaking Muslims - which is what we attempt to accomplish over the span of this 4-book set that covers various aspects of marriage according to the authentic Sunnah. This book covers the obligations of the two spouses, the wife's rights, and the husband's rights. It contains biographies of the Mothers of the Believers, paints very realistic pictures from the life of the Prophet Mohammed with his wives and the interpretation of the hadith of Umm Zar.

It is not possible for us to perform the Salah (Prayer) as it should be performed unless we know the detailed description of the Prayers as shown by Prophet Muhammad (SAW), such as its essentials, manners, forms, supplications, and remembrances. However, detailed familiarity with these aspects of the Prayer is difficult to be achieved by most people nowadays because of their limiting themselves to a particular madhhab (school of thought). In every madhhab, there are traditions and sunnahs (Prophetic examples which are not found in other madhhabs and in every madhhab there are sayings and actions which cannot be authentically traced back to the Prophet but most are by later scholars that cater for a particular madhhab (school of thought)). This famous work translated from the original Arabic

Sifah Salah al-Nabi, brings to together as many features of the Prophet's Prayer from the beginning to the end, so that Muslims can fulfill the Prophet's command to "pray as you see me pray". This work is the result of an extensive research by the author on various traditions (hadiths) and their relevance, judged according to the strict rules of the science of Hadith.
