on her lips. As more butchered adolescent corpses turn up—the victims of a serial killer whose signature is the communion wafer left in each one's mouth—the evidence leads NYPD lieutenant Vince Cardozo into the sacred and moneyed world of Manhattan's exclusive parishes. Desperate to find the monster who preys on vulnerable runaways, Cardozo uncovers a conspiracy that reaches to the city's highest levels of power.

new technologies if they are to remain competitive. This innovative, practical manual is specifically designed to cater to these training demands.

Written by an expert in the field, the Handbook is unique in covering the entire spectrum of modern print media production. Despite its comprehensive treatment, it remains an easy-to-use, single-volume reference, with all the information clearly structured and readily retrievable. The author covers both traditional as well as computer-aided technologies in all stages of production, as well as electronic media and multimedia. He also deals with training, research, strategies and trends, showing readers how to implement the latest methods. With 1,200 pages, containing 1,500 illustrations - over half in colour - the Handbook conveys the current state of

beneficial. One way to create innovations is to increase the innovation capability of companies in order to enhance the knowledge base in that company. In plenty of innovation-related research, it turned out that customers can be one important source of new knowledge. Thus, they can also be a driver for increasing innovation capability and hence ultimately help to foster the creation of innovations. Due to potential effects of customers on innovation capability, companies could strive to generally integrate customers into their innovation activities. However, companies should consider differences of customers in order to identify the most promising

customers for their innovation activities. Therefore, the idea of competences of an individual is applied, since competences integrate abilities, skills, and knowledge and are thus a wide construct respecting different facets of a customer. With the concept of customer competences, companies might be enabled to identify the most beneficial customers for their innovation activities in order to increase their innovation capability. Accordingly, in order to explain interrelations between particular customer competences and the innovation capability of a company, this research delivers a well-founded basis by investigating the general existence of interrelations
