A profound exploration of the Bible's most controversial book—from the author of *Beyond Belief* and *The Gnostic Gospels* The strangest book of the New Testament, filled with visions of the Rapture, the whore of Babylon, and apocalyptic writing of the end of times, the Book of Revelation has fascinated readers for more than two thousand years, but where did it come from? And what are the meanings of its surreal images of dragons, monsters, angels, and cosmic war? Elaine Pagels, New York Times bestselling author and "the preeminent voice of biblical scholarship to the American public" (*The Philadelphia Inquirer*), elucidates the true history of this controversial book, uncovering its origins and the roots of dissent, violence, and division in the world's religions. Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her fiery determination to carve out a successful life. -- From publisher description.

Pinson Mounds: Middle Woodland Ceremonialism in the Midsouth is a comprehensive overview and reinterpretation of the largest Middle Woodland mound complex in the Southeast. Located in west Tennessee about ten miles south of Jackson, the Pinson Mound complex includes at least thirteen mounds, a geometric earthen embankment, and contemporary short-term occupation areas within an area of about four hundred acres. A unique feature of Pinson Mounds is the presence of five large, rectangular platform mounds from eight to seventy-two feet in height. Around A.D. 100, Pinson Mounds was a pilgrimage center that drew visitors from well beyond the local population and accommodated many distinct cultural groups and people of varied social stations. Stylistically nonlocal ceramics have been found in virtually every excavated locality, all together representing a large portion of the Southeast. Along with an overview of this important and unique mound complex, Pinson Mounds also provides a reassessment of other roughly contemporary centers in the greater Midsouth and Lower Mississippi Valley and challenges past interpretations of the Hopewell phenomenon in the region.

_____ A Jeeves and Wooster novel 'It's hard to single out one book as the entire Jeeves and Wooster collection is Bach Rescue Remedy in literary form, but this tale of romantic imbroglio is a priceless hoot... Every sentence is a perfectly wrought delight.' Independent At Deverill Hall, an idyllic Tudor manor in the picture-perfect village of King's Deverill, impostors are in the air. The prime example is man-about-town Bertie Wooster, doing a good turn to Gussie Fink-Nottle by impersonating him while he enjoys fourteen days away from society after being caught taking an unscheduled dip in the fountains of Trafalgar Square. Bertie is of course one of nature's gentlemen, but the stakes are high: if all is revealed, there's a danger that Gussie's simpering fiancé Madeline may turn her wide eyes on Bertie instead. It's a brilliant plan - until Gussie himself turns up, imitating Bertram Wooster. After that, only the massive brain of Jeeves (himself in disguise) can set things right.

Snake's Addiction

From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Marie Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters?* The Periodic Table is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. THE DISAPPEARING SPOON masterfully fuses science with the classic lore of invention, investigation, and discovery--from the Big Bang through the end of

time. *Though solid at room temperature, gallium is a moldable metal that melts at 84 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve them with tea, and watch guests recoil as their utensils disappear.

When the time is right, I'll come back for her and claim her. We were supposed to be together through thick and thin, along with all the bad times and good. The bad times are now, so as long as we wait, it should be good again. We hope.

No one screws with the Chaos Bleeds crew! Devil is on the hunt for the whore who stole his kid. She may have given birth to his child, but she'll never be the baby's mother. When her sister, Kayla, knocks on her apartment door with a baby, Lexie has no choice to take him in. She loves the boy instantly, and there is no way she'll give him up. When she loses her job, Lexie has no choice but to work in a strip club to help support the baby she's been given. Devil wants Lexie the moment he sees her dancing. He doesn't know at first that she's the sister of the girl he's been looking for, but when he does, everything falls into place. He'll have his son and Lexie both all for his own, but when Kayla comes back to town, all bets are off. There is nothing Lexie can do to save her sister. A scientific response to the best-selling *The Bell Curve* which set off a hailstorm of controversy upon its publication in 1994. Why We Sleep

"The Luckiest Guerrilla" tells the remarkable, enchanting story of Philippines survivor Colonel Arthur Philip Murphy. Relying extensively on letters from Arthur and his wife Lillian, their daughter Patricia has penned an engrossing World War II narrative that is both a historical treasure chest and captivating on a personal level. Only ten hours after the Japanese bombed Pearl Harbor, they also bombed Luzon, Philippines. Ten days later enemy troops swarmed ashore, bent on swiftly annihilating General MacArthur's ill-prepared defenses, commandeering the country's natural resources, and subjugating its people. By pure happenstance, Murphy avoided the pitiful surrender to the Japanese of 70,000-plus Fil-American troops there in April 1942, and he avoided the infamous Bataan Death March that resulted in the deaths of thousands. Instead, he opted to defy the surrender order and, with three companions, take his chances in the Igorot mountain country. An obstinate, outspoken rebel, incurable romantic, amateur philosopher, and stoic executioner, Murphy was never captured, never wounded. He not only survived for three years behind enemy lines, he helped create a 22,000-man guerrilla army that harassed the Japanese, provided invaluable intelligence to MacArthur's island-hopping army, and played a significant role in the battles fought during the waning months of the war, all while cultivating and maintaining, by whatever means necessary, continued support and loyalty among the Igorot headhunters of North Luzon.
