Learning to recognize the notes on a music staff can be challenging. 'A Note in Time' simplifies this process by learning just five notes at a time. If you are learning to read notes for the first time or reviewing them to strengthen your sight reading skills, "A Note in Time" keeps it simple. The exercises start with Middle C-G five finger hand position, then moves to Bass C-G, Treble C-G, Low G-D, Bass G-D, Treble G-D, Bass F-C, Treble F-C, and ends with All Treble and All Bass Notes. You don't have to go in order. Work with the group that is the most challenging for you as you learn or refreshen your memory of note recognition. Included with each group of five notes are timed note reading exercises, followed by melodic five-note pieces. As you complete each section, sight reading skills are greatly strengthened. By recognizing notes on the staff, learning new pieces will become easier and overall more fun to play!

In this remarkable memoir, Anna Goldsworthy recalls her first steps towards a life in music, from childhood piano lessons with a local jazz muso to international success as a concert pianist. As she discovers passion and ambition, and confronts doubt and disappointment, she learns about much more than tone and technique. This is a story of the getting of wisdom, tender and bittersweet. With wit and affection, Goldsworthy captures the hopes and uncertainties of youth, the fear and exhilaration of performing, and the complex bonds between teacher and student. An unforgettable cast of

characters joins her: her family; her friends and rivals; and her teacher, Mrs Sivan, who inspires and challenges her in equal measure, and who transforms what seems an impossible dream into something real and sustaining.

(Music First Express). Like the Hal Leonard Rhythm Flashcard Kit, this innovative kit by master teacher Cheryl Lavender extends the learning into melody patterns and likewise provides motivation, stimulation, and practice for your students in a fun whole-class or cooperative learning situation. The melodic patterns are sequenced by difficulty (S-M and S-M-L, the pentatonic scale and the diatonic scale) and each of the 48 cards features a common melodic pattern. But the greatest benefit of this fun and practical approach to learning is that both sides of the cards are laminated for durability and for use with wipe-away dry erase markers. Side 2 of each card features a blank staff, so that you can create your own melodic patterns

for students to read, or for the students to use in learning to write notes and intervals, melodic dictation, and even their own songs. This classroom-tested kit comes complete with a wealth of ideas in the easy-to-use instruction booklet all enclosed in the handy cover wrap. Whether you use the ideas suggested or let it be a springboard to your own creativity, you may never have to cut up poster board again! For Grades 3-8.

(Educational Piano Library). For generations of music students, notespellers have played an essential role in helping students gain confidence with note reading skills. Notespeller Stories & Games Book 2 Travel Through Time , created by Karen Harrington, author of the Hal Leonard Student Piano Library Notespeller and The Piano Teacher's Resource Kit , has done it again with this new blockbuster resource for all music students! Students will love the colorful artwork, activities, games, and stories she has created to help students learn valuable note reading skills. As a bonus, both teachers and students alike will have fun discovering interesting historical facts along their musical journey through time! (Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber s My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at

the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here (Educational Piano Library). Piano Technique Book 2 is the second book in our series of five books focusing on technical skills. Emphasizing the inseparable link between technique and musical expression, Piano Technique Book 2 presents Warm-Ups and Etudes that take the "routine" out of technique! Students are encouraged to build solid technical confidence and skills through short, musical exercises that correlate page by page with Piano Lessons Book 2.

Accompaniment disks are available in both CD and GM formats.

(Educational Piano Library).
