

# My First Oxford Dictionary

**My First Oxford Maths Dictionary is a lively and fun dictionary to introduce key mathematical words and ideas to children aged 5-7, in primary school. It contains over 200 mathematical words in alphabetical order, each with a simple meaning or example of use. Every word is illustrated with friendly artwork or clear diagrams to help make meanings clear. At the back of the book is an illustrated section which gives extra words that children will discover and use in their maths lessons - from time**

its coverage.

An updated edition of the bestselling trusted School Dictionary. Driven by the unique Oxford Children's Corpus, the largest bank of children's language in English, it provides entries in child-friendly language with age-appropriate examples.

This book tells the history of the Oxford English Dictionary from its beginnings in the middle of the nineteenth century to the present. The author, uniquely among historians of the OED, is also a practising lexicographer with nearly thirty years' experience of working on the Dictionary. He has drawn on a wide range of sources-including previously unexamined archival material and

## Bookmark File PDF My First Oxford Dictionary

eyewitness testimony-to create a detailed history of the project. The book explores the cultural background from which the idea of a comprehensive historical dictionary of English emerged, the lengthy struggles to bring this concept to fruition, and the development of the book from the appearance of the first printed fascicle in 1884 to the launching of the Dictionary as an online database in 2000 and beyond. It also examines the evolution of the lexicographers' working methods, and provides much information about the people-many of them remarkable individuals-who have contributed to the project over the last century and a half.

sentences included within the text. There are over 150 new entries that cover current terminology which has arisen since the publication of the first edition, and there are also new entries on the most important English grammars published since the start of the 20th century. Hundreds of new cross-references enhance the user-friendly nature of the text, and the list of works cited has been thoroughly updated to reflect the current state of the field. A short appendix of web links has been added. All in all, this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject, as well as all those with an informed interest in the English language.
