The authors of VOYAGES IN WORLD HISTORY never forget that history is made up of the stories of people. Each chapter of the text centers on a story -- a traveler ' s account that highlights the book ' s main theme, the constant movement of people, goods, and ideas. The travelers include merchants, poets, rulers, explorers, soldiers, missionaries, and scholars, and their voyages provide a framework for each chapter that will capture students ' interest and draw them into the stories of the people, places, and events crucial to understanding world history. Special features highlight connections across chapters, societies, and periods, helping students understand historical events in a global context. Available in the following split options: VOYAGES IN WORLD HISTORY, Third Edition Complete, Volume 1: To 1600, and Volume 2: Since 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Even if you think of your eBay selling as a hobby rather than a business, the fact is that if you're making money, you are in business, and therefore subject to the same taxes and regulations as other real world retail businesses. Simply written and packed with stories of actual eBay sellers, The eBay Seller's Tax and Legal Answer Book takes you through the most common eBay transactions, pointing out all the legal and tax issues you're likely to encounter. Complete with sample contracts, forms, checklists, and disclaimers, this is a book no eBay seller should be without.

African History Books have been written and rewritten thousands of times. But what is bizarre about all these African History Books is that they are divided into three groups: one that deals with Colonial History, one that deals with Mediterranean History, and one that deals with Pre-history. The first one tells us about the Europeans all over the African continent. The second one tells us about the Kemets, the Persians and the Greeks in North Africa. And the last one tells us about primitive Negroes who did not themselves have any idea of the notion of History; so someone else has had to write their History in their place. There is no wonder that Basil Davidson has had to come to the embittering conclusion that what is referred to as African History today is nothing but "African History Without Africans" (1999). This is the book in which the true face of what may be referred to as African History is shown in full beam to a world that has cessed to believe in it.

Treasure Island is an adventure classic written by Robert Louis Stevenson, narrating a tale of "buccaneers and buried gold". Its influence is enormous on our own perception of pirates, including treasure maps marked with an "X", schooners, the Black Spot, tropical islands, and one-legged seamen bearing parrots on their shoulders. Stevenson stated "Treasure Island came out of the great Captain Johnson's History of the Notorious Pirates.", which is included in this edition in its entirety with all the incredible life stories of the notorious world famous pirates that inspired Stevenson and are also mentioned in the novel.

James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retelling of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: an up-to-date assessment of the potential and pitfalls of U.S. and world history education; information to help teachers expect, and get good performance from students of all racial, ethnic, and socioeconomic backgrounds; strategies for incorporating project-oriented self-learning, having students conduct online historical reserch, and teaching historiography; ideas from teachers across the country.

Revisit a world of conquest, exploration, and imperial adventure with this Modern Library eBook bundle that includes Edward Gibbon's The Decline and Fall of the Roman Empire, Francis Parkman's Montcalm and Wolfe, William H. Prescott's History of the Conquest of Mexico, and Theodore Roosevelt's The Naval War of 1812. THE DECLINE AND FALL OF THE ROMAN EMPIRE (ABRIDGED) Edward Gibbon's masterpiece, which narrates the history of the Roman Empire from the second to the fifteenth centuries, is widely considered the greatest work of history ever written. This abridgment retains the full scope of the original, while emphasizing elements ignored in all other abridgments—in particular the role of religion in the empire and the rise of Islam. MONTCALM AND WOLFE The result of more than forty years of passionate research, Montcalm and Wolfe is the epic story of Europe's struggle for dominance of the New World. Thought by many to be Francis Parkman's greatest work, it is a riveting read and an essential part of any military history collection. HISTORY OF THE CONQUEST OF MEXICO William H. Prescott's sweeping account of Cortés's subjugation of the Aztec people has endured as a landmark work of scholarship and dramatic storytelling. This pioneering study presents a compelling view of the clash of civilizations that reverberates in Latin America to this day. THE NAVAL WAR OF 1812 Published when its author, Theodore Roosevelt, was only twenty-three years old, The Naval War of 1812 was immediately hailed as a literary and scholarly triumph, and it is still considered the definitive book on the subject. Roosevelt's inimitable style and robust narrative make The Naval War of 1812 enthralling, illuminating, and utterly essential to every armchair historian.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Ed Ward covers the first half of the social history of rock & roll in this definitive book. Beginning in the 1920s when blues, country, and black popular music played over the air waves and the first independent record labels were born, this first volume of a two-part series finishes in December 1963, just as an immense sea-change begins to take hold and the Beatles prepare for their first American tour. Ward introduces you to the musicians, DJs, record executives, and producers who were at the forefront of the genre. Sharing story after story of some of the most unforgettable and groundbreaking moments in rock history, Ward reveals how different sounds, harmonies, and trends came together to create the music we all know and love today. Ed Ward has been NPR's Fresh Air rock & roll historian for the last thirty-five years reaching 14 million listeners. In these pages he shares his endless depth of knowledge and through engrossing storytelling hops seamlessly from Memphis to Chicago, Detroit, England, New York, and everywhere in between covering all the big-name acts everyone is already familiar with, from Elvis and Buddy Holly to Chuck Berry, while filling in gaps of knowledge with the more obscure and forgotten names of music's past like T-Bone Walker and The Ventures. For all music lovers and rock & roll fans, this sweeping history will shine a light on the corners of the genre to reveal some of the less well-known yet hugely influential artists who changed the musical landscape forever. "In this book journals are seen in every situation and from every angle, as if mounted on a slow turntable under a spotlight. The conclusion of most of the teachers and students using them is that they get people thinking, they help them test their own experience against the ideas of many others-- the authorities they're studying, their teachers, their fellow students ... The payoffs from using journals in classrooms are here shown to be astounding. Students learn from making mistakes and half-forming ideas. They learn to think, not by doing exercises in a faddish "critical thinking" textbook, but by working their way through real questions, with real interest and real intent"--Back cover.
