*A ten-year-old orphan comes to live in a lonely house on the Yorkshire moors where she discovers an invalid cousin and the mysteries of a locked garden, in a volume that is complemented by annotations and illustrations.*

*An in-depth examination of the novel ways young people support and learn from each other though participation in online fanfiction communities. Over the past twenty years, amateur fanfiction writers have published an astonishing amount of fiction in online repositories. More than 1.5 million enthusiastic fanfiction writers—primarily young people in their teens and twenties—have contributed nearly seven million stories and more than 176 million reviews to a single online site, Fanfiction.net. In this book, Cecilia Aragon and Katie Davis provide an in-depth examination of fanfiction writers and fanfiction repositories, finding that these sites are not shallow agglomerations and regurgitations of pop culture but rather online spaces for sophisticated and informal learning. Through their participation in online fanfiction communities, young people find ways to support and learn from one another. Aragon and Davis term this novel system of interactive advice and instruction distributed mentoring, and describe its seven attributes, each of which is supported by an aspect of networked technologies: aggregation, accretion, acceleration, abundance, availability, asynchronicity, and affect. Employing an innovative combination of qualitative and quantitative analyses, they provide an in-depth ethnography, reporting on a nine-month study of three fanfiction sites, and offer a quantitative analysis of lexical diversity in the 61.5 billion words on the Fanfiction.net site. Going beyond fandom, Aragon and Davis consider how distributed mentoring could improve not only other online learning platforms but also formal writing instruction in schools.*

*This is a book about men who love women. But it is not a collection of love stories. It is a study of the secret, erotic fantasies that men have always kept hidden, a taboo-shattering investigation that reveals the deepest, most conflicting feelings that men have about women, men and their own sexuality. Men in Love goes beyond the socio-sexual cliché of woman seen as either madonna or whore to reveal the conflict of love and rage at the centre of men's emotions and erotic desires. Based on thousands of candid responses from men ranging from their teens to their sixties, Men in Love - startling and shocking - will change men's deepest feelings about their sexuality and make the women who care about them understand them as never before.*

"The Narrative of Arthur Gordon Pym of Nantucket" is the only complete novel written by American writer Edgar Allan Poe. The story was inspired by a newspaper account of the shipwreck and subsequent rescue of the two men on board. Poe developed the story into a tale of the young Arthur Gordon Pym, who stows away aboard a whaling ship called the Grampus. Yet, it's not the mere adventures that make this book a literary masterpiece. Poe imbued his tale with allegorical richness, biblical imagery, and psychological insights. This novel has influenced numerous writers, including Melville, James, Verne, and Nabokov.

Marta McDowell returns with a beautiful, gift-worthy account of how plants and gardening deepy inspired Frances Hodgson Burnett, author of the beloved children's classic The Secret Garden.

"One of th' gardens is locked up. No one has been in it for ten years." When orphaned Mary Lennox comes to live at her uncle's great house on the Yorkshire Moors, she finds it full of mysterious secrets. There are nearly one hundred rooms, most of which are locked, and the house is filled with creepy old portraits and suits of armor. Mary rarely sees her uncle, and perhaps most unsettling of all is that at night she hears the sound of someone crying down one of the long corridors. The gardens surrounding the odd property are Mary's escape and she explores every inch of them—all except for the mysterious walled-in, locked garden. Then one day, Mary discovers a key. Could it open the door to the garden?

A treasury of wit and wisdom – this book contains poetry and accompanying art depicting many facets of human life and the gamut of experiences and emotions contained within it. Tales of struggle, joy, hope, sorrow, love, addiction, chivalry, beauty, art etc. all presented in verse format partnered with striking art that enhances the reader experience. In the Author’s own words: "I've never actually read a poetry book myself (or gone past the first few pages at least), simply because the most popular poets use highbrow language and their works have deep, subtle meanings which I could never totally comprehend. What I've tried to write here is simple, mostly straight forward stories with hints of irony and humor. I hope you enjoy this book!"

A Modern Graphic Retelling of The Secret Garden

Unearthing The Secret Garden

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely – on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

The definitive and revealing biography of the author of The Secret Garden. Frances Hodgson Burnett's favourite theme in her fiction was the reversal of fortune, and she herself knew extremes of poverty and wealth. Born in Manchester in 1849, she emigrated with her family to Tennessee because of the financial problems caused by the cotton famine. From a young age she published her stories to help the family make ends meet. Only after she married did she publish Little Lord Fauntleroy that shot her into literary stardom. On the surface, Frances' life was extremely successful: hosting regular literary salons in her home and travelling frequently between properties in the UK and America. But behind the colourful personal and social life, she was a complex and contradictory character. She lost both parents by her twenty-first birthday, Henry James called her "the most heavenly of women" although avoided her; prominent people admired her and there were many friendships as well as an ill-advised marriage to a much younger man that ended in heartache. Her success was punctuated by periods of depression, in one instance brought on by the tragic loss of her eldest son to consumption. Ann Thwaite creates a sympathetic but balanced and eye-opening biography of the woman who has enchanted numerous generations of children.

The #1 New York Times–bestselling author's "groundbreaking" work on women's sexual fantasies (Publishers Weekly). First published in 1973, My Secret Garden ignited a firestorm of reactions across the nation—from outrage to enthusiastic support. Collected from detailed personal interviews with hundreds of women from diverse backgrounds, this book presents a bracingly honest account of women's inner sexual fantasy lives. In its time, this book shattered taboos and opened up a conversation about the landscape of feminine desire in a way that was unprecedented. Today, My Secret Garden remains one of the most iconic works of feminist literature of our time—and is still relevant to millions of women throughout the world. "The author whose books about gender politics helped redefine American women's sexuality." —The New York Times

**Green-growing secrets and powerful magic await you at Misselthwaite Manor, now reimaged in this bewitching graphic novel adaptation of Frances Hodgson Burnett's beloved tale. From Mariah Marsden, author of the critically acclaimed Anne of Green Gables: A Graphic Novel, comes the second installment in this series of retold children's classics. Ten-year-old Mary Lennox arrives at a secluded estate on the Yorkshire moors with a scowl and a chip on her shoulder. First, there's Martha Sowerby: the too-cheery maid with bothersome questions who seems out of place in the dreary manor. Then there's the elusive Uncle Craven, Mary's only remaining family—whom she's not permitted to see. And finally, there are the mysteries that seem to haunt the run-down place: rumors of a lost garden with a tragic past, and a midnight wail that echoes across the moors at night. As Mary begins to explore this new world alongside her ragtag companions—a cocky robin redbreast, a sour-faced gardener, and a boy who can talk to animals—she learns that even the loneliest of hearts can grow roots in rocky soil. Given new life as a graphic novel in illustrator Hanna Luechtefeld's whimsical style, The Secret Garden is more enchanting and relevant than ever before. At the back of the book, readers can learn about the life of Frances Hodgson Burnett and the history of British colonialism that contextualizes the original novel.**
