instruction tool. It will help promote an understanding of diseases and operations described in casenotes by providing information on body systems, how they work together, and the terminology used to describe them. The intended result is that those responsible for clinical coding will be better able to translate

textbook written by C.

Robin Timmons and  
Leonard W. Hamilton.

The book was previously  
published by Prentice

Hall, Inc. in 1990 as  
"Principles of Behavioral

Pharmacology." The  
authors attempt to

develop an

understanding of the  
interpenetration of brain,
