The American people depend on a free press to keep a close and impartial watch on the national security operations that are carried out in our name. But in many cases, this trust is sadly misplaced, as leading journalists are seduced and manipulated by the secretive agencies they cover. While the press remains silent about its corrupting relationship with the intelligence community—a relationship that dates back to the Cold War—Spooking the News will blow the lid off this unseemly arrangement. Schou will name names and shine a spotlight on flagrant examples of journalistic malfeasance. The book will also document how the CIA has embedded itself in “liberal” Hollywood to ensure that its fictional spies get the hero treatment on screen. Among the revelations in Spooking the News: • The CIA created a special public affairs unit to influence the production of Hollywood films and TV shows, allowing celebrities involved in pro-CIA projects—including Harrison Ford and Ben Affleck—unique access inside the agency’s headquarters. • The CIA vets articles on controversial topics like the drone assassination program and grants friendly reporters background interviews. • The CIA has planted reporters on the beats on damaging information.

**At the Chinese Communist Party's 16th Congress in November 2002, a group of new leaders took over the world's most populous country. Their accession as the "Fourth Generation" of rulers of the People's Republic—following the generations of Mao Zedong, Deng Xiaoping, and Jiang Zemin—signaled the end of a long, complex struggle for power. Yet little has been known outside high Party circles about either that struggle or the men who emerged victorious from it. China's New Rulers, based on confidential Party files leaked to a Chinese writer abroad, offers an unprecedented glimpse into the most orderly succession in the turbulent history of the People's Republic. At its center are detailed descriptions of the nine men who will rule China for the next five years—their backgrounds, their characters, and their visions for the future. Among the challenges they will face are economic reform and China's integration into a global economy, pressures for political liberalization and human rights, ethnic unrest in Tibet and Xinjiang, the status of Taiwan, and relations with the US. China's New Rulers is an extraordinary account of a high-level political drama that has largely taken place in secret. It portrays many key figures in the Party, government, and military, and provides new information on Jiang Zemin's thirteen years in office. **Most importantly, it contains the first insights into matters of great importance to the West: who will lead China, what changes they may bring to their country, and how they may act as international partners and competitors.****

Identity manifests in the way we lead, supervise, make decisions, persuade, form relationships, and negotiate responsibilities each day. Student affairs professionals, who are often at the center of transformative efforts for social justice, diversity, and educational equity on college and university campuses, must understand how their own identities impact the way they interpret, work with, and lead across differences. This book offers experienced and emerging leaders a window into understanding the deep intersection of identity and professional practice as well as guideposts for individual leadership development. Through personal narratives, the contributing authors discuss the significant impact of their identities in terms of race, ethnicity, culture, sexuality, gender, socioeconomic class, nationality, disability, spirituality, and religion on their roles as higher education leaders. A model of identity, leadership, and social justice with ways of being and doing is provided and illustrated through the author narratives. The book shows how student affairs professionals can use autobiographical writing to better understand how personal identities influence interactions with students and colleagues. The book begins by introducing frameworks of identity and leadership, current research, theory, and why attention to intersections of identity and leadership is important for student affairs professionals. The second part features a collection of essays written by higher education leaders who examine how specific identities emerge in their leadership practice and how they can be leveraged to create positive change. The book concludes with an Identity and Leadership Autobiography Assignment, which guides readers step-by-step through the process of reflecting on how their own identities and experiences impact their leadership practice. This assignment may also be used to facilitate self-reflection activities in group settings.

The Holocaust is the defining event of the twentieth century – and perhaps all of modern history. Yet for too long, we have ignored the vital question of how and why such a monstrous event could have happened at all. Now, in How Could This Happen, historian Dan McMillan distills the existing Holocaust research into a cogent explanation of the genocide's causes, revealing how a once progressive society like Germany could commit murder on such a massive scale. Countless barriers stand between stable societies and genocide, McMillan explains, but in Germany these buffers began to topple well before World War II. From Hitler's meteoric rise to deep-rooted European anti-Semitism to the dehumanizing effects of World War I, McMillan uncovers the many factors that made the Holocaust possible. Persuasive and compelling, How Could This Happen illustrates how a perfect storm of bleak circumstances, malevolent ideas, and societal upheaval unleashed history's most terrifying atrocity.

#### Explaining the Holocaust

***"Named a Most-Anticipated Book of 2022 by Entertainment Weekly, Lit Hub, and AV Club" Oscar-nominated screenwriter, director, and actor Sarah Polley's Run Towards the Danger explores memory and the dialogue between her past and her present These are the most dangerous stories of my life. The ones I have avoided, the ones I haven't told, the ones that have kept me awake on countless nights. As these stories found echoes in my adult life, and then went another, better way than they did in childhood, they became lighter and easier to carry. Sarah Polley's work as an actor, screenwriter, and director is celebrated for its honesty, complexity, and deep humanity. She brings all those qualities, along with her exquisite storytelling chops, to these six essays: Each one captures a piece of Polley's life as she remembers it, while at the same time examining the fallibility of memory, the mutability of reality in the mind, and the possibility of experiencing the past anew, as the person she is now but was not then. As Polley writes, the past and present are in a "reciprocal pressure dance." Polley contemplates stories from her own life ranging from stage fright to high-risk childbirth to endangerment and more. After struggling with the aftermath of a concussion, Polley met a specialist who gave her wholly new advice: to recover from a traumatic injury, she had to retrain her mind to strength by charging towards the very activities that triggered her symptoms. With riveting clarity, she shows the power of applying that same advice to other areas of her life in order to find a path forward, a way through. Rather than live in a protective crouch, she had to run towards the danger. In this extraordinary book, Polley explores what it is to live in one's body, in a constant state of becoming, learning, and changing.***
