The great ship Titanic sank in April 1912, and for almost seventy-five years lay unfound on the ocean floor. Scientist Robert Ballard dreamt of finding the lost ship, and this is the thrilling account of how he made this dream come true. Interspersed in the narrative is the story of the sinking itself, as told through the eyes of a twelve-year-old girl, one of the fortunate survivors. The you-are-there narrative, photos, and drawings add to the excitement, and help readers to understand the magnitude of this great tragedy.

The monarch butterfly, one of the most seemingly delicate of all of nature's animals, proves to be one of the toughest in this reader. Making the yearly trip from the Northern United States and Canada to the Oyamel forest of Mexico is no easy task, and it takes five generations of butterflies in order to do so. Battling cold temperatures and the threat of starvation, these beautiful insects complete an almost 3,000 mile journey over the course of two months, only to have to turn and around and head back home. It was 2:00 A.M. on April 15, 1912, in the middle of the icy Atlantic Ocean. Eventeen year- old Jack Thayer stood on the slanted deck of the RMS Titanic and weighed his options—Jump, or die, he thought. The huge ship had just struck an iceberg and was taking on water. Making matters worse, all the lifeboats were full. Jack closed his eyes for a moment. Suddenly, a noise like a train crash startled him. This was it—the Titanic was going down! Titanic's Passengers and Crew is a compilation of compelling stories about the people aboard the luxurious—and supposedly unsinkable—ship. From wealthy first-class passengers like Jack Thayer to third-class travelers and crew, readers will meet and learn the harrowing tales of some of the most noteworthy people on the ship. Large-format color images, maps, and fact boxes bring the fear and panic the passengers and crew faced into clear, terrifying focus. Titanic's Passengers and Crew is part of Bearport's Titanica series.

On the 100th anniversary of Titanic's sinking, National Geographic revisits the romance, glory, and tragedy of this tremendous ship and presents an insider's look at the new findings about the passengers and scientific study of the wreck site. For 100 years the great ship Titanic has rested in its final grave on the ocean floor, lost to deep ocean darkness until its 1985 discovery by National Geographic's Bob Ballard. Relive the spell-binding tragic final hours of the ship in a detailed retelling of the famous story and learn the personal stories of lesser-known passengers, including the "guarantees." For the first time since its discovery, Ballard travels to Belfast to interview descendants of the ship builders and the "guarantee group"—the ill-fated men who traveled on the ship's first voyage to assure its seaworthiness. Understand underwater mapping techniques that have brought Titanic's debris field into high resolution, and get a glimpse of current deep ocean scientific research on the wreck and the future of underwater exploration.
