Basic Sea Survival Course

Monthly Catalog of United States Government Publications

Retired Navy SEAL Chris Hagerman will take you inside the Basic Underwater Demolition/SEAL Training program to teach prospective Navy SEALs the ins and outs of the most rigorous military selection program in the world. Hagerman, along with the team at SOFREP, is uniquely suited to write a program of instruction which walks would-be Special Operations troops through the course and tells them how to get from A to B and achieve their goals in the Special Operations community. Filled with entertaining anecdotes and an insider's knowledge, Navy SEALs BUD/S Preparation Guide is a must-read for prospective SEALs and armchair military enthusiasts everywhere.

Transistors and Printed Circuits : Instructor's Guide for Maintenance Technician Training

This manual is part of the following series of manuals. (1) NAVEDTRA 130, Task Based Curriculum Development Manual; (2) NAVEDTRA 131, Personnel Performance Profile Based Curriculum Development Manual; (3) NAVEDTRA 134, Navy Instructor Manual; (4) NAVEDTRA 135, Navy School Management Manual. The NAVEDTRA 130 series of manuals provides fundamental guidance within the Naval Education and Training Command (NAVEDTRACOM) for the development of curricula, the delivery of instruction, and the management and evaluation of training programs. Each of the manuals is designed as a stand alone document to serve a specific user group such as curriculum developers, instructors, course managers or training managers. The manuals are, however, interrelated and appropriately cross referenced to one another. The NAVEDTRA 135, Navy School Management Manual, amplifies the policies set forth in Chief of Naval Education and Training (CNET) instructions; defines the processes and procedures used in Navy training; and provides guidelines and documentation for the implementation of policies and the management of NAVEDTRACOM schools.

Instructor's Guide for Class

This analysis of survival films is the result of numerous inquiries received from operational units and survival training instructors concerning films available for use in survival indoctrination programs. There are no indications that films in the Air Force inventory have ever been analyzed to determine their applicability to survival programs and specific courses within those programs, hence the decision was made to undertake such an analysis and publish the results along with recommendations on the use of films in support of survival training programs. In the course of this study, all Air Force and many Army and Navy films pertaining to survival were reviewed. Those deemed of particular value to survival training instructors were reviewed a second time, evaluated, and analyzed for area and subject matter coverage. Then followed the classification of the films by environmental and subject matter areas. The films were then ranked on the basis of coverage, accuracy, and method of presentation. (Author).
