This report sheds light on major labor market issues and challenges that Morocco faces. It is the first phase of the programmatic jobs program jointly undertaken with the government of Morocco. The report is a jobs diagnostic that analyzes microdata mainly from Labor Force Surveys and employs new analytical methods to identify the main trends in the labor market. The key challenges that emerge will provide the basis for a deeper analysis and policy formulation in the next phase of this program. "Morocco's Jobs Landscape" identifies four priorities: accelerate structural transformation to create more and better jobs in higher-productivity sectors, encourage formalization

and improve the quality of jobs, increase female labor force participation, and address youth inactivity and its long-term consequences. Morocco has made significant economic progress over the past 20 years, which has raised the living standards of its people. However, Morocco's economic growth has not been labor-intensive enough to absorb its growing working-age population. It has had a low capacity to generate jobs, and the rate of job creation slowed after the 2008 financial crisis. Morocco is trying to overcome the "middle-income trap," which has been preventing its convergence with more affluent middle-income countries. The government of Morocco has called for a new inclusive development model. The new model must address regional development imbalances, facilitate inclusion for youth and women, and continue to foster labor force skills upgrading. The COVID-19 pandemic and resultant safety measures have halted or slowed economic activity, which is worsening the labor market situation. The pandemic undoubtedly complicates prospects for jobs-led growth, and it will make the challenges highlighted in this report even more urgent and deserving of policy makers' attention.

- *NEET Chapter-wise + Topic-wise Solved Papers PHYSICS* is the thoroughly revised & updated 14th edition and it contains the past year papers of NEET 2019 to 1988 distributed in 28 Topics.
- The Questions have been arranged from 2019 to 1988 such that the students encounter the latest questions first. Further each chapter has been further divided into 3-4 topics each.
- The Topics have been arranged exactly in accordance to the NCERT books so as to make it 100% convenient to Class 11 & 12 students.
- The fully solved CBSE Mains papers of 2011 & 2012 (the only Objective CBSE Mains paper held) have also been incorporated in the book topic-wise.
- The book also contains NEET 2013 along with the Karnataka NEET 2013 paper.
- The detailed solutions of all questions are provided at the end of each chapter to bring conceptual clarity.
- The book contains around 1690+ MILESTONE PROBLEMS IN PHYSICS.
