

Nero Essential 7 User Guide

The Rough Guide to Venice & the Veneto is long established as the most thorough and reliable guide to the city and its surroundings. Unrivaled in its coverage of the Doge's Palace, the Basilica di San Marco, and other major sights, The Rough Guide to Venice & the Veneto also reveals the treasures to be found in the districts that lie off the usual tourist trails--and has plenty of maps to make sure you find them easily. It will tell you the best places to stay, eat, and drink, in all price ranges, from backwater bars to gourmet restaurants, from cozy B&Bs to spectacular Grand Canal hotels. In addition to being packed with stories that illuminate the city's history, The Rough Guide to Venice & the Veneto tells you more about the city as it is today than any other guidebook, with features on everything from flood-prevention projects to the travails of Venice's football team. Make the most of your time with The Rough Guide to Venice & the Veneto.
Series Overview: For more than thirty years, adventurous travelers have turned to Rough Guides for up-to-date and intuitive information from expert authors. With opinionated and lively writing, honest reviews, and a strong cultural background, Rough Guides travel books bring more than 200 destinations to life. Visit RoughGuides.com to learn more.

Noted pastor/teacher John MacArthur takes you through the key aspects of the Bible in this guide for students. For all 66 books, key doctrines, highlighted people, geographic, historical, and cultural background, cross references, how Christ is pictured, character/attributes of God, explanations of key words and interpretive challenges will be examined.In addition, the guide will include: "Why I Believe the Bible" How to interpret each type of literature Charts, timelines, maps "Where to Find It" index of favorite passages and key Bible events, stories, and teachings Doctrinal studies (concise, with references and brief explanations) Index of people in the Bible Topical Index "How to Study the Bible" article

& • Simple, easy to follow step-by-step guide for the beginner on adding data, audio and digital video to CDs and DVDs. & & • While the book as a whole is general, with many how-to tips and hints, it focuses on major software programs to illustrate these concepts. & & • Includes coverage of audio and video CD creation as well as authoring and outputting DVDs.

The User's Guide to Nutritional Supplements focuses on the most popular nutritional supplements, those that consistently attract the most attention - and are the ones most likely to benefit the majority of people. In describing the most popular nutritional supplements, this book explains:
* Vitamin E can reduce the risk of heart disease - and the best types to take.
* Selenium can slash the chances of developing some types of cancer.
* Ginkgo can improve memory and recall.
* Chromium can help oromote weigth loss and lower the risk of diabetes.
* Glucosamine and chondroitin can prevent osteoarthritis.
* Calcium and magnesium work together to build strong bones.
* Coenzyme Q10 can boost your energy levels and strengthenyour heart.
* Ginseng and other supplements boost your exercise stamina.

If you thought hacking was just about mischief-makers hunched over computers in the basement, think again. As seasoned author Wallace Wang explains, hacking can also mean questioning the status quo, looking for your own truths and never accepting at face value anything authorities say or do. The completely revised fourth edition of this offbeat, non-technical book examines what hackers do, how they do it, and how you can protect yourself. Written in the same informative, irreverent, and entertaining style that made the first three editions hugely successful, Steal This Computer Book 4.0 will expand your mind and raise your eyebrows. New chapters discuss the hacker mentality, social engineering and lock picking, exploiting P2P file-sharing networks, and how people manipulate search engines and pop-up ads to obtain and use personal information. Wang also takes issue with the media for "hacking" the news and presenting the public with self-serving stories of questionable accuracy. Inside, you'll discover:
-How to manage and fight spam and spyware
-How Trojan horse programs and rootkits work and how to defend against them
-How hackers steal software and defeat copy-protection mechanisms
-How to tell if your machine is being attacked and what you can do to protect it
-Where the hackers are, how they probe a target and sneak into a computer, and what they do once they get inside
-How corporations use hacker techniques to infect your computer and invade your privacy
-How you can lock down your computer to protect your data and your personal information using free programs included on the book's CD
If you've ever logged onto a website, conducted an online transaction, sent or received email, used a networked computer or even watched the evening news, you may have already been tricked, tracked, hacked, and manipulated. As the saying goes, just because you're paranoid doesn't mean they aren't after you. And, as Wallace Wang reveals, they probably are. The companion CD contains hundreds of megabytes of 100% FREE hacking and security related programs, like keyloggers, spyware stoppers, port blockers, IP scanners, Trojan horse detectors, and much, much more. CD compatible with Windows, Mac, and Linux.

Nero was negligent, not tyrannical. This allowed others to rule, remarkably well, in his name until his negligence became insupportable.

Leisured Resistance examines the varied ways in which cultured Roman aristocrats, of very different periods, used their country estates as a political and literary tool. While for some the villas were retreats in which to compose literature and to escape from politics, others adapted this same tradition of cultured otium (or deliberate retirement from everyday politics) to present radical and competing visions of society and literature alike. Examining in-depth sources from both prose and verse from the time of Cicero to the last centuries of the Roman Empire in the west, the title demonstrates how the traditional image of the Roman aristocrat on his country estate was politically and socially very flexible: allowing authors, as times and circumstances changed, to present themselves or their patrons and friends as being in retreat from politics, or alternatively, as providing a focus for political opposition through the deliberate embracing of cultural values and schools of philosophy that offered resistance to prevailing political orthodoxy. The title ends by exploring how this tradition was adapted in the greatly changed world of the barbarian-ruled kingdoms that replaced direct Roman rule in Gaul in the fifth and sixth centuries.

The best introductory book on wine to come along in years” (The Washington Post) from the creators of the award-winning Wine Folly website Red or white? Cabernet or merlot? Light or bold? What to pair with food? Drinking great wine isn’t hard, but finding great wine does require a deeper understanding of the fundamentals. Wine Folly: The Essential Guide to Wine will help you make sense of it all in a unique infographic wine book. Designed by the creators of the Wine Folly website, which has won Wine Blogger of the Year from the International Wine & Spirits Competition, this book combines sleek, modern information design with data visualization and gives readers pragmatic answers to all their wine questions, including: • Detailed taste profiles of popular and under-the-radar wines. • A guide to pairing food and wine. •

A wine-region section with detailed maps. • Practical tips and tricks for serving wine. • Methods for tasting wine and identifying flavors. Packed with information and encouragement, Wine Folly: The Essential Guide to Wine will empower your decision-making with practical knowledge and give you confidence at the table.

THE EURO-WESTERN BEYOND LEONE The full, vibrant history of the Euro-Western, offering everything any fan of Euro-Westerns could ever want to know. The success of Sergio Leone's Dollars trilogy in the 60s sparked a gold rush, as a legion of European film-makers, many of them sharing the get-rich-quick mentality of Leone's mercenary anti-heroes followed the master's lead to create some of the wildest Westerns ever made. Cynical and stylish, bloody and baroque, Euro-Westerns replaced straight-shooting sheriffs and courageous cowboys with amoral adventurers, whose murderous methods would shock the heroes of Hollywood Westerns. Any Gun Can Play explores the films' wider reaches, their recurrent themes, characters, quirks and motifs. It examines the American models and explores the mechanics of the Italian film industry. - Features the genre's leading lights, including Franco Nero, Giuliano Gemma and Gianni Garko, writer Sergio Donati, and directors Sergio Sollima and Giuliano Carnimeo - Foreword by Euro-Western legend Franco Nero This stunningly illustrated reference guide demonstrates why these films became box-office sensations around the world, and their influence can still be felt today.

A lively and accessible guide to the rich literary, philosophical and artistic achievements of the notorious age of Nero.
