"...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad – the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

*Karl Pilkington's third book, follow-up to bestselling *The World of Karl Pilkington and Happyslapped by a Jellyfish*, is a voyage through some of the most curious facts and fictions about our world. Drawing on what little he learned during his days of education, Karl explores the world of knowledge through a school curriculum, with chapters devoted to biology, history, art, and English, among others, each topic approached with Karl's inimitable combination of innocent wonder and down-to-earth wisdom. Full color throughout, the book is illustrated with Karl's hand-drawn cartoons and comic strips and it features e-mail contributions from a host of celebrities and experts who Karl has quizzed to further his knowledge. Randiana, or Excitable Tales is an anonymously written erotic novel originally published by William Lazenby in 1884. The book depicts a variety of sexual activities, including incest, defloration and lesbianism.

In the late eleventh century, Sicily - originally part of the Islamic world - was captured by Norman, French and Italian adventurers, led by Roger de Hauteville. For the next 150 years, Roger and his descendants ruled the island and its predominantly Arabic-speaking Muslim population. Jeremy Johns' 2002 book represents a comprehensive account of the Arabic administration of Norman Sicily. While it has generally been assumed that the Normans simply inherited their Arabic administration from the Muslim governors of the island, the author uses the unique Sicilian Arabic documents to demonstrate that the Norman kings restructured their administration on the model of the contemporary administration of Fatimid Egypt. Controversially, he also suggests that, in doing so, their intention was not administrative efficiency but the projection of their royal image. This is a compelling and accessible account of the Norman rulers and how they related to their counterparts in the Muslim Mediterranean.

Rip Van Goofy was a friendly fellow who lived in a sleepy town. He was always chatting with his friends and loved to go fishing. But when his friends were busy one sunny afternoon, Rip Van Goofy set out alone to fish at his favorite fishing hole. Then, with his line in the water, Goofy fell asleep...and woke up forty years later! Don't miss this retelling of the classic tale of Rip Van Winkle—with a Disney twist!

Contains photo essays on the music and cultural scenes of many different places including Philadelphia, Israel, Trinidad, and Asia.

The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, *Blue Legalities* explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, *Blue Legalities* illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, *Blue Legalities* questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors: Stacy Alaimo, Amy Braun, Irus Braverman, Holly Jean Buck, Jennifer L. Gaynor, Stefan Helmreich, Elizabeth R. Veneration of the Cross plays a major role in Hispanic popular religion. But for the Mozarabs, a Catholic community that traces its roots to the Visigoths and Hispano-Romans of seventh-century Spain, veneration of the Cross--particularly the Lignum Crucis, a relic of the "True Cross"--has served to join devotion to Christ with a powerful symbol of religio-ethnic identity and survival in the face of persecution. The Mozarabs (the term may mean "Arabized") of Toledo maintained their Catholic identity through the period of Islamic rule. After the Christian reconquest of Spain and the imposition of uniform Roman liturgical rites, they clung tightly to their own Mozarabic

Rite, which is still recognized and celebrated today. Now you can choose between thread and yarn! Not everyone enjoys crocheting with thread. This book includes 101 doilies crocheted using size 10 crochet cotton thread or Omega Emilia worsted-weight yarn. The thread creates a small doily, perfect for coasters for glassware, to grace the table under a bud vase or candlestick and more. The doilies made using worsted-weight yarn create a larger doily to be used on tables and dressers. Size: Small - range in diameter from 3 1/2" to 6" Large - range in diameter from 7 1/2" to 14". Skill Level: Easy.

Growing Up Cajun

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this

book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant. The setting of this volume is the Iberian Peninsula during the Middle Ages, where Christianity and Islam co-existed side by side as the official religions of Muslim al-Andalus on the one hand, and the Christian kingdoms in the north of the peninsula on the other. Its purpose is to examine the meaning of the word 'Mozarab' and the history and nature of the people called by that name; it represents a synthesis of the author's many years of research and publication in this field. Richard Hitchcock first sets out to explain what being a non-Muslim meant in al-Andalus, both in the higher echelons of society and at a humbler level. The terms used by Arab chroniclers, when examined carefully, suggest a lesser preoccupation with purely religious values than hitherto appreciated. Mozarabism in León and Toledo, two notably distinct phenomena, are then considered at length, and there are two chapters exploring the issues that arose, firstly when Mozarabs were relocated in twelfth-century Aragón, and secondly, in sixteenth-century Toledo, when they were striving to retain their identity.

From New York Times & USA Today Bestseller, Vi Keeland, comes a steamy new romance novel. The rules: No dating. No sex outside of the game. No disclosing the terms of the contract. Rules were made to be broken, right? Eight weeks ago I signed a contract. One that seemed like a good idea at the time. A handsome bachelor, luxury accommodations, and a chance to win a prize my family desperately needed. There were some rules though. Lots of them actually. Follow the script, no dating, sex, or disclosing the terms of the deal. After my self-imposed moratorium on men the last year, it wouldn't be hard to live up to my end of the bargain...so I thought. Until I realized the deal I'd made was with the devil...and I was in love with his dirty-talking brother. Author's note – Throb is a full-length standalone novel. Due to strong language and sexual content, this book is not intended for readers under the age of 18.

"This volume fills a major desideratum in historical scholarship on the religious history of the Holy Land. It presents a synthesis of our knowledge of the history of Christianity and the various churches that coexisted there from the beginnings of Christianity to the fall of the Crusader Kingdoms. It also offers analytical studies of major topics and problems. While the first part is organized chronologically, the second follows a thematic plan, dealing with the major themes pertaining to the topic, from various points of view and covering several disciplinary fields: history, theology, archaeology, and art history. The volume represents the outcome of an international project initiated by Yad Izhak Ben-Zvi of Jerusalem, and the contributors are experts in their fields."--BOOK JACKET.

Max & Bodhi's Wardrobe: modern baby patterns by Tin Can Knits Inspired by our two newest darlings, this collection is filled with modern and unisex wardrobe staples. Nothing says love like a baby covered in woolies, so grab your needles, and cast on for a little cutie today! In the wake of Jerusalem's fall in 1099, the crusading armies of western Christians known as the Franks found themselves governing not only Muslims and Jews but also local Christians, whose culture and traditions were a world apart from their own. The crusader-occupied swaths of Syria and Palestine were home to many separate Christian communities: Greek and Syrian Orthodox, Armenians, and other sects with sharp doctrinal differences. How did these disparate groups live together under Frankish rule? In *The Crusades and the Christian World of the East*, Christopher MacEvitt marshals an impressive array of literary, legal, artistic, and archeological evidence to demonstrate how crusader ideology and religious difference gave rise to a mode of coexistence he calls "rough tolerance." The twelfth-century Frankish rulers of the Levant and their Christian subjects were separated by language, religious practices, and beliefs. Yet western Christians showed little interest in such differences. Franks intermarried with local Christians and shared shrines and churches, but they did not hesitate to use military force against Christian communities. Rough tolerance was unlike other medieval modes of dealing with religious difference, and MacEvitt illuminates the factors that led to this striking divergence. "It is commonplace to discuss the diversity of the Middle East in terms of Muslims, Jews, and Christians," MacEvitt writes, "yet even this simplifies its religious complexity." While most crusade history has focused on Christian-Muslim encounters, MacEvitt offers an often surprising account by examining the intersection of the Middle Eastern and Frankish Christian worlds during the century of the First Crusade.

An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or

two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Now available in a new format, this book features stunning 3D photographs that make skateboarding come to life. Put on the 3D glasses and immerse yourself in a hyper-real world of vibrating color, extreme tricks, and professional skateboarders. Featuring the European Carhartt skate team and inspired by virtual spaces, this award-winning volume brings the culture of skateboarding to life while exploring the thrilling possibilities of 3D photography. Skater and photographer Sebastian Denz spent three years travelling across Europe photographing some of the best skateboarders within its borders. Long before 3D became popular in current cinema, Denz used its effect to capture these striking images, including portraits of skateboarders as well as action shots in various locations from DIY spots to skate bowls situated in barns and backyards. Denz built his own large-format camera to take the 3D pictures in a never-before-seen quality and produced unique images which come to life in three dimensions and pay tribute to skateboarding culture.

Adventure, Risk & Triumph on the Path Less Traveled

Travels of Ibn Jubayr - Scholar's Choice Edition

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.
