Wings to Fly beautifully illustrates that instead of constantly climbing the ladders of success, sometimes we need to descend into the valley of truth and reality. Especially for those facing the acute heat of poverty, insecurity, suffering, disabilities and inabilities. There is always an opportunity around us to sow the right seeds for the less beneficial people and weed out the superficial, false and futile possessions. All the compromises and sacrifices can be easily forgotten; like a mother, who bears all the pain while giving birth and raising her children. Deepak found the true meaning and purpose of his life while serving the underprivileged children at Udayan Care. He devoted his heart, mind, soul, wealth and body to them as a full-time volunteer and a guardian. The book convinces one that each child is a lotus waiting to blossom. They just need someone's support, guidance, care, handholding, and above all, quality time. The book intends to inspire one to make significant contributions to society, nature and the universe in multiple ways. Anyone can extend a hand of hope, become eyes for the blind, a voice for the mute, clutches for the crippled, destiny for the destitute and a lamp (Deepak) of light and hope for someone else. True exuberance and contentment are found when we rise above ourselves and learn to live for others.

They never knew that their string of Emails and messages will obligate them to become a special part of each other's lives and in the way a part of their family too. They never expected that their relationship will flip soon from few kisses on the forehead to one night stay together in one blanket. They had a dream in their eyes for their relationship and career. Ansh moved to Spain to join his first ship for six months after completing his marine engineering; Shrutika got the admission in NIFT Delhi after nailing 15th rank in All India Ranking. But will they be able to turn up their foreseen future into a reality? Will they be able to keep those promises? Maybe YES or Maybe NO because whatever happens, happens for a reason. So let's see what their fate has written in the destiny of their relationship. This saga is an upshot of hiccups of Love, the hangover of Friendship and wheel of Fortune which will surely nudge you if you are in a relationship or looking to get into it...

This book showcases cutting-edge research papers from the 7th International Conference on Research into Design (ICoRD 2019) - the largest in India in this area - written by eminent researchers from across the world on design processes, technologies, methods and tools, and their impact on innovation, for supporting design for a connected world. The theme of ICoRD'19 has been "Design for a Connected World". While Design traditionally focused on developing products that worked on their own, an emerging trend is to have products with a smart layer that makes them context aware and responsive, individually and collectively, through collaboration with other physical and digital objects with which these are connected. The papers in this volume explore these themes, and their key focus is connectivity: how do products and their development change in a connected world? The volume will be of interest to researchers, professionals and entrepreneurs working in the areas on industrial design, manufacturing, consumer goods, and industrial management who are interested in the use of emerging technologies such as IOT, IIOT, Digital Twins, I4.0 etc. as well as new and emerging methods and tools to design new products, systems and services.
