The books in this series contain short texts from the original stories from Viking Age. These new translations unlock the treasures of the Classical texts and will make a valued gift for friends, relatives or business associates. A little guide to understanding the ancient rune letters.

Where-ever the Vikings went, they took the language of the runes with them. Runes have been found from the Black Sea and Russia in the East, all over Europe and Scandinavia and in Greenland. There are runes on memorial stones, weapons and tools. They were used to send messages, mark possessions, make calendars and other writings. Each letter is explained with the help of a runic verse dating from the Viking Age.

Since they are ancient symbols, the runes mean little to the untrained eye. But with practice and a little experience with them, you can

activate their magical energies to create positive, impactful change in your life. Even so, what are runes exactly? Runes were considered magical symbols used by spirits to communicate with humanity. Not only are runes considered a writing system, but they are engraved stones used to perform magical spells, cast divination, and even add power to conventional writing. The runic alphabet is referred to as the Futhark and

The knowledge of runes has been passed down through the centuries, and it is an important form of divination for modern pagans. In Runes for

Everything You Need to Know About Reading, Interpreting, and Casting Rune Stones The nature of runes is obscure. This is because the term rune derives from the Old Norse word Runa, which means "secret," and is likely derived from the Proto-Germanic "runo," which means "secret" or "whisper." Because they are old symbols, the runes have little meaning to the untrained eye. However, with

effort and a little expertise, you may use their magical powers to bring about tremendous, lasting change in your life. Nonetheless, what precisely are runes? Nordic Runes were thought to be magical symbols that spirits used to communicate with humans. Runes are not simply a writing system but also inscribed stones used to cast magical spells, cast divination, and even lend power to ordinary writing. Runic knowledge has been handed down through the ages, and it is an essential type of divination for contemporary pagans. Norse symbols. The runes are the written letters that were used by the Norse and other Germanic peoples before the adoption of the Latin alphabet in the later Middle Ages. Unlike the Latin alphabet, which is an essentially utilitarian script, the runes are pictographs of some of the most powerful forces in the cosmos. In fact, the word "rune" and its cognates across past and present Germanic languages mean both "letter" and "secret/mystery." The letters called "runes" allow one to access, interact with, and influence the world-shaping forces they symbolize. Thus, when Odin sought the runes, he

To people unfamiliar with divination tools, it may seem like some kind of spooky magic trick, witchcraft or even something demonic. None of those descriptions are accurate, and actually, runes encourage a person to explore their own mind and gain self-introspection. runes and interpret them instantly. Once the sacred alphabet of the Germanic people of Northern Europe, runes are more than 2,000 years old. Runes (meaning a secret or mystery) were words of power, once carved on amulets, rings and weapons, and found as inscriptions on tombstones. The 1st rune, Fehu, is connected with cattle, and since wealth was measured in the number of cows a person owned, it has an underlying meaning of material wealth. The 11th rune, Isa, literally means 'ice', signifying

In this insightful book, each of the runes is fully described, together with the symbolic images and celestial phenomena associated with them. Methods of laying out, or 'casting' the runes are described in order to give a full and comprehensive reading to answer any question. There are six spreads to choose from,

But the mysterious traveler One-Eye sees Maddy's mark not as a defect, but as a destiny. And Maddy will need every scrap of forbidden magic One-Eye can teach her if she is to survive that destiny. Everything You Need to Know to Begin Working With Runes The enigmatic nature of the runes is undeniable. In fact, the English word "rune" comes to us from the Norse word runa, which means "a secret," or "to whisper." As symbols, the runes mean little to the untrained eye, yet the magical energies they activate can be used for positive, impactful change in your everyday life. But what are

level, runes are the characters in
a writing system used by the
ancient Germanic peoples of
Europe. But unlike our modern
letters, the runic symbols had
been used for magical purposes
long before they were fashioned
into an alphabet. This is known
from runic inscriptions found on
ancient artifacts as well as
Germanic myth and lore handed
down over the centuries. Indeed,
those who work with the runes
today are taking part in an age-
old magical tradition established
by our Northern European pagan
ancestors. In *Runes for

Lisa Chamberlain shines the light
on these ancient symbols,

utilize their unique magical energies. With both an eye toward tradition and a multicultural spirit, Lisa combines an appreciation for the Germanic roots of the runes with a more eclectic Neopagan approach. Unlike many other books on the topic, Runes for Beginners is completely accessible to those with no experience in Northern European magical traditions, yet it doesn't ignore those traditions altogether. You will emerge from this guide with a basic understanding of the runes' role in ancient Germanic paganism, as well as a solid foundation of knowledge to build your own runic practice, regardless of your religious or spiritual path.
