The Petty Officer's Guide is written and edited by petty officers for petty officers. It is designed to ensure Navy Petty Officers are ready to fight and win wars at sea, under the sea, in the air, on land, and in outer space and cyberspace by exposing junior Petty Officers to innovative and modern leadership methodologies. Serving as the premiere leadership guide to junior Navy Petty Officers, it enhances development processes and tools such as the Navy Leader Development Framework, Education for Sea Power, Sailor 360, and Enlisted Leader Development courses. Furthermore, it reinforces modern lines of effort identified in the Chief of Naval Operations' Design for Maritime Superiority and promotes the development of innovative leaders and strategic thinkers. This guide provides unique insights into the values, beliefs, attitudes, and skills that enable the success of naval leaders, how Petty Officers can use power bases, influence tactics, and managerial skills to achieve

objectives, and how to influence their peers in support of organizational objectives to achieve the mission accomplishment.

Cardiac Biomarkers describes the most recent developments in the field of biomarkers, providing best practice and current guidelines. It also discusses how these guidelines may alter in the future. With contributions from internationally-based clinicians and scientists, this book includes almost 100 detailed images and illustrations.

Topics covered include: *Markers of Cardiac Arrest, Markers of Cardiac Ischemia, Natriuretic Peptides for Heart Failure, Biomarkers in Cardio Renal Disease and Future Developments.*

In a world of constant change and complexity, how can we achieve lasting transformation in our lives? Using the wisdom of the Enneagram, expert teacher Suzanne Stabile opens the concept of three Centers of Intelligence:

thinking, feeling, and doing. When we learn to manage these centers in relation to our Enneagram number, we open a path to reducing fear, improving relationships, and finding wholeness.

Grace Secures What Striving Cannot In this hustling, image-forward age of opportunity, we feel more anxious than ever. Despite all the affirming memes and self-reflections that dominate social media feeds, approval and worth often seem assigned to what we do rather than who we are. And we end up constantly feeling like we're behind, lacking, and failing—at home, at work, with friends, with God. Ruth Chou Simons knows something about feeling measured by achievement, performance, and the approval of others. As a Taiwanese immigrant growing up between two cultures, Ruth was always on a mission to prove her worth, until she came to truly

understand the one thing that changes everything: the extravagant, undeserved gift of grace from a merciful God. In *When Strivings Cease*, Ruth guides you on a journey to find freedom from the never-ending quest for self-improvement. She shows you how to confront the ways you look to superficial means of acceptance and belonging; find relief in realizing self-help isn't the answer because you can't be so amazing that you won't need grace; stop seeing God as someone to perform for and start finding delight in responding to his welcome; and let go of trying to rely on your own strength, your own abilities, and your own savvy by truly understanding the freedom Jesus purchased for you. With personal stories, biblical insights, practical applications, and touches of original artwork by Ruth, this transformational book helps you see the beautiful truth that God's favor is the only currency you need—because in Christ you are enough.

Only the best prepared are chosen to start the highly competitive multimillion-dollar training programs that transform aspiring candidates into U.S. military aviators. This fully updated edition of *Barron's Military Flight Aptitude Tests* provides would-be aviators in all five U.S. armed services with the competitive edge

they will need to score their best and maximize their chances of being selected! This book is an effective, full-spectrum resource for officer candidates, ROTC cadets from all services, and current military members. Six full-length practice tests (two per service) with answers and explanations for every question get readers ready for the Air Force Officer Qualifying Test (AFOQT), the Selection Instrument for Flight Training (SIFT), and the Navy/Marine Corps/Coast Guard Aviation Selection Test Battery (ASTB-E). Test overviews and detailed review sections give potential pilots the boost they need to rise to the top of the selection list, and most of the review subjects apply to all three tests. Successful aviation applicants strongly recommend working through every valuable review section, and the other services' tests are great for extra practice to reinforce your learning. Written by a veteran, joint qualified military officer and instructor, this book's review sections cover language skills, reading comprehension, math knowledge, arithmetic reasoning, mechanical comprehension, aviation and nautical technical information, science, and specific mental skills such as block counting, finding hidden figures, and spatial apperception. The author also coaches

readers on effective study techniques, provides expanded information resources, and gives pilot candidates a thorough preview of how each test is structured and conducted. Introduces the author's step-by-step plan for identifying core desires and acting upon them to create successful, satisfying, and more fulfilling lives.

Paul Bambrick-Santoyo (Managing Director of Uncommon Schools) shows leaders how they can raise their schools to greatness by following a core set of principles. These seven principles, or "levers," allow for consistent, transformational, and replicable

growth. With intentional focus on these areas, leaders will leverage much more learning from the same amount of time investment. Fundamentally, each of these seven levers answers the core questions of school leadership: What should an effective leader do, and how and when should they do it. Aimed at all levels of school leadership, the book is for any principal, superintendent, or educator who wants to be a transformational leader. The book includes 30 video clips of top-tier leaders in action. These videos bring great schools to you, and support a deeper understanding of both the components of success and how it looks as a whole. There are also many helpful rubrics, extensive professional development tools, calendars, and templates. Explores the core principles of effective leadership Author's charter school, North Star Academy in Newark, New Jersey, received the highest possible award given by the U.S. Department of Education; the National Blue Ribbon Print version includes an instructive DVD with 30 video clips to show how it looks in real life. E-book customers: please note that details on how to access the content from the DVD may be found in the e-book Table of Contents. Please see the section: "How to Access DVD

Engaging Employees through Strategic Communication provides a detailed overview of employee communication and its evolution as a tool to drive employee engagement and successful change management. Approaching the subject with the philosophy that internal audiences are essential to the success of any strategic communication plan and business strategy—particularly as they relate to driving change—Mark Dollins and Jon Stemmler give readers a working knowledge of employee communication strategies, skills, and tactics in ways that prepare students for careers in this rapidly expanding field. Providing the tools necessary to evaluate the impact of successful employee communication campaigns, they put theory and cutting-edge research into action with practical examples and case studies sourced from award-

winning entries judged as best-in-class by the International Association of Business Communicators (IABC), the Public Relations Society of America (PRSA), PRWeek, and PRNews. The book is ideal for undergraduate and graduate students in internal, corporate, or employee communication courses and will be a useful reference for practitioners who want to understand how to carry out effective employee communication engagement and change-management campaigns.

Before GPS, before the compass, and even before cartography, humankind was navigating. Now this singular guide helps us rediscover what our ancestors long understood—that a windswept tree, the depth of a puddle, or a trill of birdsong can help us find our way, if we know what to look and listen for. Adventurer and navigation expert Tristan Gooley unlocks the directional clues hidden in the sun, moon, stars, clouds, weather patterns, lengthening shadows, changing tides, plant growth, and the habits of wildlife. Rich with navigational anecdotes collected across ages, continents, and cultures, *The Natural Navigator* will help keep you on course and open your eyes to the wonders, large and small, of the natural world.

How librarians can be radical positive change agents in their communities, dedicated to learning and making a difference. This book offers a guide for librarians who see their profession as a chance to make a positive difference in their communities—librarians who recognize that it is no longer enough to stand behind a desk waiting to serve. R. David Lankes, author of *The Atlas of New Librarianship*, reminds librarians of their mission: to improve society by facilitating knowledge creation in their communities. In this book, he provides tools, arguments, resources, and ideas for fulfilling this mission. Librarians will be prepared to become radical positive change agents in their communities, and other readers will learn to understand libraries in a new way. The librarians of Ferguson, Missouri, famously became positive change agents in August 2014 when they opened library doors when schools were closed because of civil unrest after the shooting of an unarmed teen by police. Working with other local organizations, they provided children and their parents a space for learning, lunch, and peace. But other libraries serve other communities—students, faculty, scholars, law firms—in other ways. All libraries are about community, writes Lankes; that is just librarianship. In concise chapters, Lankes addresses the mission of libraries and explains what constitutes a library. He offers practical advice for librarian training; provides teaching notes for each

chapter; and answers “Frequently Argued Questions” about the new librarianship.

Offers a practical guide for improving schools dramatically that will enable all students from all backgrounds to achieve at high levels. Includes assessment forms, an index, and a DVD.

In *The Reason to Sing*, renowned composer-lyricist and teacher Craig Carnelia provides musical actors with a step-by-step guide to making their singing performances more truthful, vivid, and full of life. Using a technique developed over decades of teaching the professional community of Broadway actors and students alike, *The Reason to Sing* utilizes detailed descriptions of sessions the author has had with his notable students and lays out a new and proven approach to help you build your skills, your confidence, and your career. This book is intended for musical theater acting students as well as working professionals and teachers of the craft.
