At times controversial and uncompromising, always intellectually honest, Alessandro Conti's book is - astonishingly - the only attempt to comprehensively chart in time, the changing impact of man's desire to preserve for future generations the materials, meaning and appearances of works of art. Remarkable in its meticulous research of source material and breadth of scope, History of the Restoration and Conservation of Works of Arts, translated by Helen Glanville, charts the practices and underlying philosophies of conservation and 'restored' works of art from the Middle Ages to the end of the nineteenth century. In English-speaking countries, a lack of foreign language skills leaves many unable to consult a wealth of both published and unpublished historical documentation. Developments in conservation have therefore tended toward the scientific and analytical. Access to such documentation leads to better understanding of the present appearance of works of art and of their changing aspect and perception over time. Recent publications indicate that there is a great need for people writing on the subject to be aware of material which is not in their mother tongue: approaches presented as 'new' are in fact merely 'contemporary', and have been discussed or practiced in other centuries and countries. Just as knowledge of practices and effects of art conservation and restoration should form an integral part of History of Art Degrees, the more theoretic, abstract and historical aspects, should also be part of the training. This book is an invaluable source for academic and public institutions, art historians as well as practicing conservators and lovers of art.

By the time ninth grade begins, Ishmael Leseur knows it won't be long before Barry Bagsley, the class bully, says, "Ishmael? What kind of wussy-crap name is that?" Ishmael's perfected the art of making himself virtually invisible. But all that changes when James Scobie joins the class. Unlike Ishmael, James has no sense of fear - he claims it was removed during an operation. Now nothing will stop James and Ishmael from taking on bullies, bugs and Moby Dick, in the toughest, weirdest, most embarrassingly awful - and the best - year of their lives.

Welcome to the Family

Everyone knows vampires don't really exist—so why are Carolyn and her sister haunted by the same nocturnal visits? Twin sisters Honey and Carolyn have a secret: Uncle Toddy must be a vampire. What else could explain the fact that his nightmarish nocturnal visits are sucking the life out of their family? Honey doesn't want to talk about it. She's a popular, pretty cheerleader with the perfect high school life. Why can't Carolyn pretend it isn't happening and concentrate on good things, instead of asking questions about what happens when he knocks at her door in the middle of the night? Both girls' grades are suffering under the strain of keeping their secret, threatening their school activities and plans for the future. Carolyn feels like she's going crazy, seeing things that no one else can.

How can she convince Honey that she's only trying to stop the vampire from killing them both? Her only option is to force Uncle Toddy into the one place he doesn't want to be: the light.

Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became friends: two worlds, one faith—and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Christianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

We learn more every year about the damaging effects of solitary confinement. This unquestionably cruel and unusual punishment leaves prisoners with no human contact, sometimes for years at a time, and it nearly always leads to lasting trauma. In Solitary, Maurizio Torchio takes on the daunting task of narrating this most isolating experience, one in which the captive is not only cut off from society in the walls of a prison, but from human contact itself. Within this closed world seemingly out of time, the prisoner still yearns for human contact. Ultimately, this desire is a form of hope, reminding us that ineluctable human qualities survive even in the most inhumane spaces.

They both loved the groovy rhythm of the city, but sometimes the bustling crowds and constant motion left them lonely, until one night ... A Neal Porter Book

"One of the most gifted graphic novelists of our time." —Wired Killing and Dying is a stunning showcase of the possibilities of the graphic novel medium and a wry exploration of loss, creative ambition, identity, and family dynamics. With this work, Adrian Tomine (Shortcomings, Scenes from an Impending Marriage) reaffirms his place not only as one of the most significant creators of contemporary comics but as one of the great voices of modern American literature. His gift for capturing emotion and intellect resonates here: the weight of love and its absence, the pride and disappointment of family, the anxiety and hopefulness of being alive in the twenty-first century. "Amber Sweet" shows the disastrous impact of mistaken identity in a hyper-connected world; "A Brief History of the Art Form Known as Hortisculpture" details the invention and destruction of a vital new art form in short comic strips; "Translated, from the Japanese" is a lush, full-color display of storytelling through still images; the title story, "Killing and Dying", centers on parenthood, mortality, and stand-up comedy. In six interconnected, darkly funny stories, Tomine forms a quietly moving portrait of contemporary life. Tomine is a master of the small gesture, equally deft at signaling emotion via a subtle change of expression or writ large across landscapes illustrated in full color. Killing and Dying is a fraught, realist masterpiece.

Reminiscent of Scheherazade and One Thousand and One Nights, Gianni Rodari's Telephone Tales is many stories within a story. Every night, a traveling father must finish a bedtime story in the time that a single coin will buy. One night, it's a carousel that adults cannot comprehend, but whose operator must be some sort of magician, the next, it's a land filled with butter men who melt in the sunshine Awarded the Hans Christian Anderson Award in 1970, Gianni Rodari is widely considered to be Italy's most important children's author of the 20th century. Newly re-illustrated by Italian artist Valerio Vidali (The Forest), Telephone Tales entertains, while questioning and imagining other worlds.
