AQA A-level Economics

The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape.

Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time. Written for the WJEC/Eduqas A/AS Level Computer Science specifications for first teaching from 2015, this print student book helps students build their knowledge and master underlying computing principles and concepts. The student book develops computational thinking, programming and problem-solving skills. Suitable for all abilities, it puts computing into context and gives students a real-life view on professional applications of computing skills. Answers to end-of-chapter questions are located in the free online teacher's resource. A Cambridge Elevate enhanced edition is also available.

Created for the new 2015 OCR AS and A level specifications, our new Student Books cover the topics comprehensively, developing scientific thinking in your students, providing them with a deep understanding of the subject and creating confident, independent scientists.

This work maintains the approach of the US text, Principles of Economics by Case and Fair, but with the main focus on Europe. This is reflected in the use of the open economy approach, the use of the Euro as the standard currency, as well as providing numerous European examples and applications. Maths Boxes enable the lecturer to decide on the amount of calculus they wish to include. End-of-chapter problems with selected answers at the end of the book allow students to assess their progress.

Everything you need for AQA A-level Economics rewritten and restructured into one book from Ray Powell and James Powell for A-level teaching and learning, revised and up-to-date with new material including case studies, features and practice questions. - Ensures students are fully prepared for all the topics on the AQA A-level Economics specification, now all topics in one book - Features up-to-date case studies with more questions to help students engage with and explain the latest economic developments, including the effects of Brexit - Improves students' assessment and qualitative skills with detailed practice style questions, designed to address challenge students have faced in recent A-level exams - Gets students ready for success with new content including regular content summaries, more knowledge check questions and synoptic links - Increase student confidence in understanding and explaining key economic issues with relevant examples and information in context

Written by senior examiners, John Hearn and Tony Westaway, this OCR AS Economics Student Unit Guide is the essential study companion for Unit F581: Markets in Action. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade

Our updated approach to revision will help you learn, practise and apply your skills and understanding. Coverage of key content is combined with practical study tips and effective revision strategies to create a guide you can rely on to build both knowledge and confidence. My Revision Notes: OCR A-level Economics will help you: - Plan and manage your revision with our topic-by-topic planner and exam breakdown introduction - Develop your subject knowledge by making links between topics for more in-depth exam answers - Improve subject-specific skills with an exam skills checkbox at the end of each chapter - Avoid common mistakes and enhance your exam answers with examiner tips - Practise and apply your skills and knowledge with exam-style questions and frequent questions with answer guidance online - Understand key terms you will need for the exam with user-friendly definitions and a glossary - Build quick recall with bullet-pointed summaries at the end of each chapter

Ethics for A-Level

A/AS Level Computer Science for WJEC/Eduqas Student Book

Ocr A Level Economics

OCR AS Economics Student Unit Guide New Edition: Unit F581 Markets in Action

What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

GCSE Economics has been specifically written to meet the requirements of the National Criteria and covers the new GCSE syllabuses completely. The book is a stand-alone course companion and includes everything needed for GCSE Economics courses - knowledge, course-work, exam guidance and homework activities. It is written in a straightforward style and, wherever possible, theory and knowledge are supported with visual material. Case studies based on a fictional village, as it progresses through various stages of economic development, are used throughout the text and are tiered according to the degree of difficulty.
