It is sad but true that no one is ever pleased to see Cyril t cloud. He's always being blamed for ruining everyone's fun: casting shadows over everywhere he goes, and making things look dull and miserable. So, one day, Cyril drifts far, far away in search of a friendly face: over farmland, towns, and an ocean . . . Eventually he arrives in a new land whose ground is baking hot. Here everyone welcomes the shade Cyril gives. This makes Cyril so happy that he cries big glorious tears of joy. And his tears soak the land and everything seems to smile. And that is all Cyril ever wanted to look down on the world and see a happy smile. A beautiful story that taps right into what Tim Hopgood's books are all about: celebrating the natural world and promoting a positive outlook on life.

Kids see plants, flowers, and trees around them every day. In this lively and educational reader, they'll learn how those plants grow. Kids will take this magical journey from seed pollination to plant growth, learning about what plants need to thrive and grow with the same careful text, brilliant photographs, and the fun approach National Geographic Readers are known for.

"The genius of Hanson's fascinating, inspiring, and entertaining book stems from the fact that it is not about how all kinds of things grow from seeds; it is about the seeds themselves." --Mark Kurlansky, New York Times Book Review We live in a world of seeds. From our morning toast to the cotton in our clothes, they are quite literally the stuff and staff of life: supporting diets, economies, and civilizations around the globe. Just as the search for nutmeg and pepper drove the Age of Discovery, coffee beans fueled the Enlightenment and cottonseed sparked the Industrial Revolution. Seeds are fundamental objects of beauty, evolutionary wonders, and simple fascinations. Yet, despite their importance, seeds are often seen as commonplace, their extraordinary natural and human histories overlooked. Thanks to this stunning new book, they can be

How can someone so small create such a big change? Join Janie Grace, a spunky seven-year-old, on a big adventure as she learns the value of planting just few good seeds in the world around her. Janie Grace is excited to finally get to work on her Papa's apple orchard, but little does she know, she is about to learn a lesson that will change her life forever. Papa showed me the apple seeds again. "Oh, the seeds you can sow in this world, Janie Grace, if you just look for the opportunities. Every time you say or do something kind, you are planting good seeds in someone else's heart. You never know how far just one little seed will go." Janie Grace is determined to plant some good seeds and finds courage to choose kindness, even when the school bully makes it difficult. She watches as her positive seeds multiply and spread at home, at school, and even to the world, learning to never underestimate the power and growth of one tiny seed. One day at her dad ' s house, a young girl finds two old potatoes in the cupboard. “ Gross. ” But before she can throw them away, her dad suggests they try to grow new potatoes from the old ones, which have sprouted eyes. Told from May to September, the potato-growing season, the story includes all the basic steps for growing potatoes while subtly dealing with the parents ' recent divorce. Just like the new potatoes that emerged from ugly old potatoes, this dad and daughter move on and make a new life together in the face of unavoidable and unpleasant change. Carolyn Fisher ' s artwork will be instantly recognizable from her recent picture book debut, *A Twisted Tale*, and her trademark high-energy art and design infuse joy and humor into this heartwarming story.
