Statistics show

that black males are disproportionately getting in trouble and being suspended from the nation's school systems. Based on three years of participant observation research at an

Get Free Ohlone Placement Test Study Guide

elementary
school, *Bad Boys*
offers a richly
textured account
of daily
interactions
between teachers
and students to
understand this
serious problem.

Ann Arnett
Ferguson

demonstrates how a group of eleven- and twelve-year-old males are identified by school personnel as "bound for jail" and how the youth construct a sense of self under such

circumstances.

The author

focuses on the

perspective and

voices of pre-

adolescent

African American

boys. How does it

feel to be labeled

"unsalvageable"

by your teacher?

Get Free Ohlone Placement Test Study Guide

How does one endure school when the educators predict one's future as "a jail cell with your name on it?"

Through interviews and participation with these youth in classrooms,

Get Free Ohlone Placement Test Study Guide

playgrounds,
movie theaters,
and video
arcades, the
author explores
what "getting into
trouble" means
for the boys
themselves. She
argues that rather
than simply
internalizing

these labels, the boys look critically at schooling as they dispute and evaluate the meaning and motivation behind the labels that have been attached to them.

Supplementing

Get Free Ohlone Placement Test Study Guide

the perspectives of the boys with interviews with teachers, principals, truant officers, and relatives of the students, the author constructs a disturbing picture of how educators' beliefs

in a "natural
difference" of
black children
and the "criminal
inclination" of
black males
shapes decisions
that disproportionately
single out
black males as

Bad Boys is a powerful challenge to prevailing views on the problem of black males in our schools today. It will be of interest to educators, parents, and

youth, and to all professionals and students in the fields of African-American studies, childhood studies, gender studies, juvenile studies, social work, and sociology, as

well as anyone who is concerned about the way our schools are shaping the next generation of African American boys.
