Already on the margins of an agrarian society, the marine fisherfolk of the South Indian state of Kerala are faced with a severe environmental problem: overfishing.

The actions of

## Where To Download On The Beach

trawlers and industrial fishing ships, it seems, have caused the resources on which they depend to dwindle rapidly. Yet what may appear to be a clear-cut case of cause, effect and responsibility turns out to be a complex issue. Local perceptions of the environment are

# Where To Download On The Beach

deeply enmeshed with notions of morality, the self and people's understanding of their place in society. Overfishing is one of several environmental issues that bring into focus parallel knowledges, giving rise to contradictory views on what the problems are,

# Where To Download On The Beach

whether changes are good or bad, and how they are to be remedied. As the fisherfolk confront the state, a discourse develops on what is innate to the environment, or "natural", and on what its malleability entails. Based on ethnographic fieldwork among

in a coastal village,  
this book explores the  
fisherfolk's  
environmental  
knowledge, its  
transformation in a

economic and  
political change as  
well as its role in  
dealing with the state  
and the science -  
putatively universal

Around the world,  
when people think of  
vacation it's the beach  
they want--even when  
long distances must be  
traversed, the seashore  
is the place to escape  
the rigors of modern  
life. How did this come  
to be, and what does  
our ongoing love affair  
with the beach mean?

# Where To Download On The Beach

How do shore vacations differ from traditional tourism, and what does this tell us about our fears and dreams? In *At the Beach*, Jean-Didier Urbain offers witty and insightful answers to these questions. Urbain traces the transformation of the beach from a place of mythological threats

transgressive side of beach culture--from nudism to hedonism to various "scandals" about costume, behavior, and sexuality that make the beach the site of social spectacle as well as leisure. Urbain's ultimate focus is the paradoxical enterprise of the residential seaside vacationer,

who travels in order to stay in one place and who leaves the everyday world behind to reconstruct an idealized version of it at the shore. He argues that unlike tourists, who move from place to place, beach vacationers are not seeking to explore nature, to discover other cultures, or even
