A new calf and a ranch's loyal herding dog disagree, but eventually they learn to get along together.

Fans of *Bridgerton* will love this "exuberant novel of manners for our own gilded age" (Stacy Schiff, author of *Cleopatra*) as we follow the Wilcox family's journey through riches and ruin. Among New York City's Gilded Age elite, one family will defy convention. Helen Wilcox has one desire: to successfully launch her daughters into society. From the upper crust herself, Helen's unconventional--if happy--marriage has made the girls' social position precarious. Then her husband gambles the family fortunes on an elevated railroad that he claims will transform the face of the city and the way the people of New York live, but will it ruin the Wilcoxs first? As daughters Jemima and Alice navigate the rise and fall of their family--each is forced to re-examine who she is, and even who she is meant to love. From the author of *To Marry an English Lord*, an inspiration for *Downton Abbey*, comes a charming and cutthroat tale of a world in which an invitation or an avoided glance can be the difference between fortune and ruin.

But then Mum suggests they volunteer for Helper Dogs and train puppies to help people in need. Joe has always wanted a dog and when he meets golden Labrador Patch he knows he's found him. With Joe's love and training, can Patch go from playful puppy to heroic helper - and mend Joe's broken heart along the way? 'If you love Michael Morpurgo, you will enjoy this' Sunday Express 'A moving tale told with warmth, kindness and lashings of good sense that lovers of Dick King-Smith will especially appreciate' The Times 'Every now and then a writer comes along with a unique way of storytelling . . . Meet Megan Rix . . . her novels are deeply moving and will strike a chord with animal lovers.' LoveReading 'A perfect story for animal lovers and lovers of adventure stories' Travelling Book Company About the author: Megan Rix is the recent winner of the Stockton and Shrewsbury Children's Book Awards, and has been shortlisted for numerous other children's book awards. She lives with her husband by a river in England. When she's not writing she can be found walking her two golden retrievers, Traffy and Bella, who are often in the river. Also available by Megan Rix: The Great Escape, The Victory Dogs, The Bomber Dog and A Soldier's Friend The first three books in the Sydney Rye Mysteries: Unleashed, Death in the Dark, and Insatiable. My dog once took a bullet that was intended for me. A bullet that ripped through his chest, narrowly missing his heart, and exited through his shoulder blade, effectively shattering it. This left him unconscious on the floor of my home. Amazingly, this bullet did not kill him. Ten years ago I adopted Blue as a present to myself after I broke up with my boyfriend one hot, early summer night with the windows open and the neighborhood listening. The next morning I went straight to the pound in Bushwick, Brooklyn. Articles on buying your first dog tell you never to buy a dog on impulse. They want you to be prepared for this new member of your family, to understand the responsibilities and challenges of owning a dog. Going to the pound because you need something in your life that's worth holding onto is rarely, if ever, mentioned. I asked the man at the pound to show me the biggest dogs they had. He showed me some seven-week-old Rottweiler-German shepherd puppies that he said would grow to be quite large. Then he showed me a six-month-old shepherd that would get pretty big. Then he showed me Blue, the largest dog they had. The man called him a Collie mix and he was stuffed into the biggest cage they had, but he didn't fit. He was as tall as a Great Dane but much skinnier, with the snout of a collie, the markings of a Siberian husky, the ears and tail of a shepherd and the body of a wolf, with one blue eye and one brown. Crouched in a sitting position, unable to lie down, unable to sit all the way up, he looked at me from between the bars, and I fell in love. "He's still underweight," the man in the blue scrubs told me as we looked at Blue. "I'll tell you, lady, he's pretty but he's skittish. He sheds, and I mean sheds. I don't think you want this dog." But I knew I wanted him. I knew I had to have him. He was the most beautiful thing I had ever seen. Blue cost me \$108. I brought him home, and we lived together for years. He was, for most of our relationship, my only companion.

But when I first met Blue, a lifetime ago now, I had family and friends. I worked at a crappy coffeehouse. I was young and lost; I was normal. Back then, at the beginning of this story, before I'd ever seen a corpse, before Blue saved my life, before I felt what it was like to kill someone in cold blood, I was still Joy Humbolt. I'd never even heard the name Sydney Rye. P.S. The dog does not die. **Beware: If you can't handle a few f-bombs, you can't handle this series.**

This is a book that takes us inside the Hoovers' wilderness home during those sixteen Years of the Forest and lets us experience not only the joys and the techniques but also the challenges and travails of going it alone in the beautiful but not always accommodating wilderness, far from the technology and services that city people take for granted. It is a book of wilderness adventure, it is an education in the ingenuities of wilderness housekeeping, filled with practical details about making do, building and rebuilding, gardening for fun and for food, even advice about getting away from getting-away-from-it-all. Good times and Hard times, good neighbors and bad neighbors, the strains engendered by conflicting views—and passions—about the use of the environment: Mrs. Hoover shares her experience without stint. But above all—over, under, and all around her straightforward and practical approach to life in the wilderness—there is, as always, the sensitive and moving awareness of nature (especially of the animals with whom she and her husband shared the forest, often helping them through starving winters) that is the special quality of her writing and her life.

Living with Animals is a collection of imagined animal guides--a playful and accessible look at different human-animal relationships around the world. Anthropologists and their co-authors have

written accounts of how humans and animals interact in labs, in farms, in zoos, and in African forests, among other places. Modeled after the classic A World of Babies, an edited collection of imagined Dr. Spock manuals from around the world—With Animals focuses on human-animal relationships in their myriad forms. This is ethnographic fiction for those curious about how animals are used for a variety of different tasks around the world. To be sure, animal guides are not a universal genre, so Living with Animals offers an imaginative solution, doing justice to the ways details about animals are conveyed in culturally specific ways by adopting a range of voices and perspectives. How we capitalize on animals, how we live with them, and how humans attempt to control the untamable nature around them are all considered by the authors of this wild read. If you have ever experienced a moment of "what if" curiosity—what is it like to be a gorilla in a zoo, to work in a pig factory farm, to breed cows and horses, this book is for you. A light-handed and light-hearted approach to a fascinating and nuanced subject, Living with Animals suggests many ways in which we can and do coexist with our non-human partners on Earth.

Who doesn't want to spend more time playing?! Tricks and Games to Teach Your Dog is the how-to book for dog owners looking to improve their "fun factor" in their dogs' eyes. Author Sophie Collins, assisted by Suellen Dainty, promise that any owner of a dog;no matter what age, breed, activity level, size or personality;can transform his pooch into an accomplished performer in brief daily five-minute training sessions. In all, the book offers 80 tricks and games, from the tried-and-true rainy-day tricks like "roll over" and "play dead" to out-of-the-box surprises like "lion tamer" and the "commando crawl." Fully illustrated with color photographs and drawings, Tricks and Games to Teach Your Dog serves as a game plan for busy owners who wish to spend more quality time with their dogs, engaging them in educational games to improve their obedience skills while deepening the dogs' bonds with their owners. Readers can teach their dogs helpful household tasks, such as the "laundry service," "fetch my keys" and "answer the door,"

as well as games that expand their repertory of manners, such as "say please," "learning a 'stop' signal," and "dinner time." The authors emphasize the importance of safety in teaching tricks and games and caution owners to only work with safe objects when teaching fetching or finding games. The book is filled with practical training tips that owners can use throughout their dogs' lives. Once an owner is confident and aware of his own technique, he will be better prepared to give the dog specific direction and not confuse the dog by giving false cues or misusing body language, tone of voice or hand signals. The level of difficulty in the lessons range from the simplest ("high five" and "stand ten") to more challenging tricks like "shut the door," "push the ball" and "freeze." The unmistakable focus of the book is fun and activity, and no dog (or owner) ever wants to lead a dull, boring existence. To that end, the authors discuss some great fun outings to bring an owner's play sessions with his dog to an all-time high: camping, volleyball, biking and hiking for starters. And for really adventurous overachievers, the authors provide a brief introduction to the ever-popular obstacle-course sport known as dog agility.

Although they do not have super powers like the Easter Bunny, dogs Petey and Old Jack enlist the help of their animal friends to decorate and deliver colorful eggs to expectant children when the famed rabbit falls ill.

Despite the differences between people around the world, there are similarities that join humanity together, such as pain, joy, and love. On board pages.

Living with Animals

Bub, Snow, and the Burly Bear Scare

*In the summer of 1890, in the French town of Auvers-sur-Oise, Vincent van Gogh shot himself in the chest with a revolver. He died two days later, at the age of thirty-seven, largely unknown despite having completed over two thousand works of art that would go on to become some of the most important and valued in the world. In this riveting novel, Carol Wallace brilliantly navigates the mysteries surrounding the master artist's death, relying on meticulous research to paint an indelible portrait of Van Gogh's final days—and the friendship that may or may not have destroyed him. Telling Van Gogh's story from an utterly new perspective—that of his personal physician, Dr. Gachet, specialist in mental illness and great lover of the arts—Wallace allows us to view the legendary painter as we've never seen him before. In our narrator's eyes, Van Gogh is an irresistible puzzle, a man whose mind, plagued by demons, poses the most potentially rewarding challenge of Gachet's career. Wallace's narrative brims with suspense and rich psychological insight as it tackles haunting questions about Van Gogh's fate. A masterly, gripping novel that explores the price of creativity, *Leaving Van Gogh* is a luminous story about what it means to live authentically, and the power and limits of friendship.*
