The author of the world wide best-seller, Small Is Beautiful, now tackles the subject of Man, the World, and the Meaning of Living. Schumacher writes about man's relation to the world, man has obligations -- to other men, to the earth, to progress and technology, but most importantly himself. If man can fulfill these obligations, then and only then can he enjoy a real relationship with the world, then and only then can he know the meaning of living. Schumacher says we need maps: a "map of knowledge" and a "map of living." The concern of the mapmaker -in this instance, Schumacher- is to find for everything it's proper place. Things out of place tend to get lost; they become invisible and their proper places end to be filled by other things that ought not be there at all and therefore serve to mislead. A Guide for the Perplexed teaches us to be our own map makers. This constantly surprising, always stimulating and always well-received by a large audience, including the many new fans who believe strongly in what Schumacher has to say. Everything you need to know about Spinoza's Ethics in one volume.The Ethics presents a complete metaphysical, epistemological and ethical world-view that is immensely inspiring. However, it is also an extremely difficult text to read. This book takes readers through the text, stopping at the most perplexing passages to explain key terms, unfold arguments, offer concrete examples and raise questions for further thought. It is designed to be read alongside the Ethics, enabling students to think critically about Spinoza's views and build an understanding of his complex system. An Unusual Guide

The prize-winning author of Edinburgh Twilight returns to the darkening shadows of nineteenth-century Scotland to track a killer on a profane mission of revenge. A wicked Scottish winter has just begun when pioneering female physician Sophia Jex-Blake calls on Detective Inspector Ian Hamilton to investigate the suspicious death of one of her patients—a railroad lineman who she believes succumbed to the horrific effects of arsenic poisoning. The most provocative aspect of the case doesn't escape Hamilton: the married victim's numerous sexual transgressions. Now, for the first time since the unexplained fire that killed his parents, Hamilton enters the Royal Infirmary to gain the insights of brilliant medical student Arthur Conan Doyle. Then a second poisoning occurs—this time, a prominent banker who died in the bed of a prostitute. It appears that someone is making Edinburgh's more promiscuous citizens pay for their sins. As the body count rises and public panic takes hold, Hamilton and Doyle delve into the seedy underbelly of the city, where nothing is as it seems, no one is immune to murder, and even trusted friends can be enemies in disguise.

"Matt is possibly the most well-traveled person I know...His knowledge and passion for understanding the world is unrivaled, and never fails to amaze me."—Mark Manson, New York Times bestselling author of The Subtle Art of Not Giving a F*ck Ten Years a Nomad is New York Times bestselling author Matt Kepnes' poignant exploration of wanderlust and what it truly means to be a nomad. Part travel memoir and part philosophical look at why we travel, it is filled with aspirational stories of Kepnes' many adventures. New York Times bestselling author of How to Travel the World on \$50 a Day, Matthew Kepnes knows what it feels like to get the travel bug. After meeting some travelers on a trip to Thailand in 2005, he realized that living life meant more than simply meeting society's traditional milestones, such as buying a car, paying a mortgage, and moving up the career ladder. Inspired by them, he set off for a year-long trip around the world before he started his career. He finally came home after ten years. Over 500,000 miles, 1,000 hotels, and 90 different countries later, Matt has compiled his favorite stories, experiences, and insights into this travel manifesto. Filled with the color and perspective that only hindsight and self-reflection can offer, these stories get to the real questions at the heart of wanderlust. Travel questions that transcend the basic "how-to," and plumb the depths of what drives us to travel—and what extended travel around the world can teach us about life, ourselves, and our place in the world. Ten Years a Nomad is for travel junkies, the travel-curious, and anyone interested in what you can learn about the world when you don't have a cable bill for a decade or spend a month not wearing shoes living on the beach in Thailand.*

Britain has often been labeled a nation of eccentrics, as Benedict Le Vay's guide to his fellow Britons' bizarre behavior seems to prove! This extraordinarily readable guide explores all that is odd, way-out, or downright mad in England, Scotland, and Wales. This is the only working travel guide to British eccentric trivia, so this is the book for those who have ever fancied staying in an English folly, touring around eccentric British stately homes and pubs, visiting amazing museums, or taking part in bizarre events, such as the World Black Pudding Throwing Championships or the Lawnmower Grand Prix! This guide features:

When Pat rents a room in Edinburgh, she acquires some interesting neighbors—including a pushy Stockbridge mother and her talented, sax-playing, five-year-old son. Her job at an art gallery hardly keeps her busy until she suspects one painting in the collection may be an undiscovered work by a Scottish master.

Scotland's most visitor-friendly city continues to attract tourists all year-round, and with good reason: its narrow streets and grand buildings combine to make it perhaps the most handsome city in the UK. However, it's more than merely a museum piece - with lively dining and shopping scenes, there's plenty happening both night and day, and August's various festivals combine to create the largest arts event in the world. The Edinburgh city guide includes: Full colour photography, using original imagery to give a real sense of the place Handy pull-out Edinburgh map Extensive area guides not only cover the sightseeing in Edinburgh, but also restaurants, bars and shops - all plotted on maps handily located within the chapter Top 20 list of the must-see highlights Itineraries to help you plan your visit. Critic's choices pick out the best Edinburgh sights, experiences and cultural highlights - at a glance All Edinburgh restaurants and bars have been visited and reviewed anonymously by critics who pay their own way Edinburgh hotels independently reviewed. The revamped Time Out Guides retain the independence and local expertise that the series is known for, while adding more features to help the visitor navigate the city. Whether you have an action-packed 24 hours or a leisurely week in which to take it all in, these guides are more essential than ever.

Discover hidden gardens and clandestine art that even the neighbours overlook, visit the strangest of museums, get water-boarded in a prototype Jacuzzi and traumatised by Rabelaisian rafters, decrypt mysterious Masonic markings, step inside an Icelandic lava grotto, travel to the Wild West of Morningside, learn the secrets of Mrs Coade's stone, sniff out the dogs more dazzling than Greyfriars Bobbie, track down traces of Edinburgh's Great Exhibition ... Far from the tourist traps and the crowded landmarks, you may have thought Edinburgh had no more to reveal, but the city still keeps many treasures hidden away in the most unexpected of places. An indispensable travel guide for those who thought they knew Edinburgh well, or who would like to explore the curiosities of this most secretive of cities. "Most visitors only scratch the surface of the cities they visit. Most residents accidentally take for granted the places they live. This book delves deep into Edinburgh's rich history and the stories its special places tell, nudging its reader to find delight in the esoteric details, and to go and explore our wonderful and beautiful city with fresh eyes, a spring in the step and song in the soul." From the best-selling author of How To Write an Autobiographical Novel, Alexander Chee's award-winning debut is "One of the great queer novels . . . of our time."—Brandon Taylor, GQ Twelve-year-old Fee is a shy Korean-American boy growing up in Maine whose powerful soprano voice wins him a place as section leader of the first sopranos in his local boys choir. But when, on a retreat, Fee discovers how the director treats the boys he makes section leader, he is so ashamed, he says nothing of the abuse, not even when Peter, Fee's best friend, is in line to be next. The director is eventually arrested, and Fee tries to forgive himself for his silence. But when Peter takes his own life, Fee blames only himself. Years later, after he has carefully pieced a new life together, Fee takes a job at a private school near his hometown.

There he meets a young student, Arden, who, to his shock, is the picture of Peter—and the son of his old choir director. Told with "the force of a dream and the heft of a life" (Annie Dillard), this is a haunting, lyrically written debut novel that marked Chee "as a major talent whose career will bear watching" (Publisher's Weekly).

A cheeky, no-nonsense elephant in the woods, the emporoz paddle steamer, and the first dark restaurant. There is obviously more to Zurich than banking, clean streets, and punctuality. Published by The Urban Explorer these city tales from new and unusual perspectives provide independent travelers with unforgettable memories. Ideal for those who want to escape the crowds and get beyond the well-known paths, as well as for those inhabitants who perhaps thought they already knew their city. The world's most optimistic view on why collective action is still possible—and how it can be realized. —The New York Times 'As far as heroic characters go, I'm not sure you could do better than Katharine Hayhoe.' —Scientific American 'It's not an exaggeration to say that Saving Us is one of the more important books about climate change to have been written.' —The Guardian United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future. Called 'one of the nation's best voices' by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In Saving Us, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. To connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at climate, faith, and human psychology, from an icon in her field—recently named chief scientist at the Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. Saving Us leaves us with the tools to enter a dialogue with your loved ones about how we all can play a role in pushing forward for change.

A year after an accidentally whirlwind grand tour with her brother Monty, Felicity Montague has returned to England with two goals in mind—avoid the marriage proposal of a lovestruck suitor from Eton and intellect and passion will never be enough in the eyes of the administrators, who see men as the sole guardians of science. This, in, the end, the story of the anatomy of the human heart." - Booklist (starred review) Dana Schwartz ' s Anatomy: A Love Story is a gothic tale full of mystery and romance. Hazel Sinnett is a lady who wants to be a surgeon more than she wants to marry. Jack Currer is a resurrection man who ' s just trying to survive in a city where it ' s too easy to die. When the two of them have a chance encounter outside the Edinburgh Anatomist ' s Society, Hazel thinks nothing of it at first. But after she gets kicked out of renowned surgeon Dr. Beecham ' s lectures for being the wrong gender, she realizes that her new acquaintance might be more helpful than she first thought. Because Hazel has made a deal with Dr. Beecham: if she can pass the medical examination on her own, Beecham will allow her to continue her medical career. Without official lessons, though, Hazel will need more than just her books—the ' ll need corpses to study. Lucky that she ' s made the acquaintance of someone who digs them up for a living. But Jack has his own problems: strange men have been seen skulking around cemeteries, his friends are disappearing off the streets, and the dreaded Roman Fever, which wiped out thousands a few years ago, is back with a vengeance. Nobody important cares—until Hazel. Now, Hazel and Jack must work together to uncover the secrets buried not just in unmarked graves, but in the very heart of Edinburgh society.
