Since the publication of the first edition in 1982, the goal of Simulation Modeling and Analysis has always

and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career

Online Library Operation Management Question Papers

Vtu

advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned

Online Library Operation

Vtu

with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and

other stakeholders.

Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is

Online Library Operation
Management Question Papers

Vtu

designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways. First, the book not only covers negotiation concepts,

Online Library Operation Management Question Papers

Vtu

but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in

Online Library Operation
Management Question Papers

Vtu

future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives

Online Library Operation
Management Question Papers

Vtu

if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your

Online Library Operation Management Question Papers

Vtu

reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding

Online Library Operation
Management Question Papers

Vtu

whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law

Online Library Operation Management Question Papers

Vtu

that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to

Online Library Operation Management Question Papers

Vtu

the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the

Online Library Operation
Management Question Papers

Vtu

bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than

Online Library Operation
Management Question Papers

Vtu

evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation

Online Library Operation Management Question Papers

Vtu

process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens

Online Library Operation
Management Question Papers

Vtu

during a negotiation has a profound impact on the contract and on the performance that follows. The contract's legal content should reflect the realities of what happened at the

Online Library Operation
Management Question Papers

Vtu

bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision

Online Library Operation
Management Question Papers

Vtu

to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a

Online Library Operation

University of Michigan professor summarized negotiation as follows: "Life is negotiation!" No one ever stated it better. As a mother with young children and as a company leader, the

Online Library Operation
