*This volume brings together a collection of papers presented at the 2014 World Congress of the International Association of Applied Linguistics (AILA), held in Brisbane, Australia, and represents current research and practice from across the globe related to reading, writing and visual literacy. Given that globalisation has resulted in an increase in the pursuit of second language (often English) literacy for those who want to enhance their access to better education and employment options, the development of literacy skills cannot be left to chance. This book explores current efforts to tease out the variables involved in the development of literacies, and will inform educators and teacher trainers of ways to improve classroom pedagogies and increase learner literacy competencies. The volume will be of use to both new and seasoned researchers wishing to enhance their understanding of current and emerging perspectives in the development of literacies. It will also be of interest to language teachers and language policy makers as the papers address current issues in language education.*

This brief rhetoric helps students develop strategies for critical reading, critical thinking, research, and writing that will help them argue clearly and convincingly. It teaches them to identify and develop arguments, to read and form reactions and opinions of their own, to analyze an audience, to seek common ground, and to use a wide, realistic range of techniques to write argument papers that express their individual views and original perspectives on modern issues. It includes clear explanations and examples of argument theory, reading and writing processes, research and documentation skills, and offers engaging, class-tested writing assignments and activities. 49 Essays for Analysis cover several broad issue and sub-issue areas, all of contemporary concern. Unique chapters discuss student argument styles, Rogerian argument, and argument and literature.

Help your students hone their critical thinking and refine their rational and argumentative discussion skills with the seventh edition of Damer’s ATTACKING FAULTY REASONING: A PRACTICAL GUIDE TO FALLACY-FREE ARGUMENTS. This theoretically sound handbook addresses more than 60 common fallacies with the help of over 200 memorable, timely examples. Students learn to construct, deliver, and logically evaluate arguments with more than 350 proven exercises and practice opportunities. However,

ATTACKING FAULTY REASONING goes beyond most critical thinking books, providing students with not just a definition and examples for each fallacy, but also hints and tips on how to attack (or respond) when faced with a fallacious argument of each type. This unique feature along with the book’s brevity making it an ideal resource on its own or as a complement to another critical thinking or introduction to philosophy texts. From the bestselling author of The Bomber Mafia: discover Malcolm Gladwell’s breakthrough debut and explore the science behind viral trends in business, marketing, and human behavior. The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about the world that shapes their products and their decisions. “ A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world. ” —Michael Lewis

‘Lazere’s [book] is heaven-sent and will provide a crucial link in the chain of understanding how conflicts are structured and, most importantly, how they can be rationally addressed- a healthy antidote to the scepticism that has become so pervasive in academic life.’ Alan Hausman, Hunter College This innovative book addresses the need for college students to develop critical reading, writing, and thinking skills for self-defence in the contentious arena of American civic rhetoric. In a groundbreaking reconception of

composition theory, it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis. Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies - such as the growing inequality of wealth in America and its impact on the finances of college students - as expressed in paired sets of readings from the political left and right. Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media, as well as in education itself, are foregrounded as topics for rhetorical analysis.

Broadening the traditional notion of undergraduate research, WRITING, READING, AND RESEARCH thoroughly covers the essential skills for developing a research paper: analytical reading, synthesizing, paraphrasing, and summarizing. Presenting the process of research in a practical sequence, including separate chapters on finding, analyzing, and integrating sources, the authors illustrate each stage of the process with examples of student and professional writing. Using a flexible and goal-oriented approach, the authors have created a text that blends the best features of a theoretically informed rhetoric, an interdisciplinary reading anthology, and a research guide. WRITING, READING, AND RESEARCH, Ninth Edition, provides helpful and engaging exercises, frequent opportunities to write, and many occasions for discussion and critical response. A central theme throughout the impressive series of philosophical books and articles Stephen Toulmin has published since 1948 is the way in which assertions and opinions concerning all sorts of topics, brought up in everyday life or in academic research, can be rationally justified. Is there one universal system of norms, by which all sorts of arguments in all sorts of fields must be judged, or must each sort of argument be judged according to its own norms? In The Uses of Argument (1958) Toulmin sets out his views on these questions for the first time. In spite of initial criticisms from logicians and fellow philosophers, The Uses of Argument has been an enduring source of inspiration and discussion to students of argumentation from all kinds of disciplinary background for more than forty years.

Argumentative Essay

Developing strong academic writing skills often requires years of experience and training within a discipline. When novice writers are asked to write an argumentative essay, they are usually required to draft a thesis statement presenting their position on an issue. In argumentative writing, a thesis statement addresses the writer’s main argument and is the foundation of the entire essay. Features of thesis statements are often defined with respect to their location and length within the essay (e.g., Petric, 2005), or functions. As a result, further research exploring characteristics of argumentative thesis statements could expand understanding about the distinctive features that operationalize the quality of thesis statements. Results of such research would have strong practical implications for instructors regarding what to teach about writing thesis statements. In the present study, four major features of thesis statements were identified (context, positionality, reasoning, and specificity). Two raters were asked to assess the presence of each feature for the 78 thesis statements, extracted from the argumentative essay outlines of an education course. A set of multiple regression analyses were conducted to investigate whether each feature, and a composite of the four, contributes to the quality of the introduction and the argumentative essay outline. Key findings indicated that the context feature and the positionality feature are of importance in predicting the quality of introduction and the essay outline. Based on the findings, a revised version of Ken Hyland’s model of argumentation is proposed and several important implications for teaching writing are recommended.

This book provides a comprehensive guide on the basics of essay writing. The first part goes through some of the fundamentals: what an essay actually is, different essay writing styles, the core elements of an essay, organizing, and planning. Going through these basics is integral to any essay writer; it will help establish the tone and structure of your writing, as well as provide for a more cohesive piece. The remainder of the book will outline the specifics of each essay genre. Firstly, we will explain the reason for the genre. Next, explain the elements of the genre. Common language and grammar associated with that particular essay will be explained. Finally, a complete essay example is included, which draws from all of the elements discussed in this guide.

*How does one help undergraduate students learn quickly how to produce effectively organized, persuasive, well-reasoned essays? This book offers a straightforward, systematic introduction to some of the key elements of the construction of arguments in essay form. The focus here is on practical advice that will prove immediately useful to students—recommended procedures are emphasized, and detailed examples of academic and student writing are provided throughout. The book introduces the basics of argumentation before moving on to the structure and organization of essays. Planning and outlining the essay, writing strong thesis statements, organizing coherent paragraphs, and writing effective introductions and conclusions are among the subjects discussed. A separate section concisely explores issue specific to essays about literary works.*

*From the best-selling authors of the most successful reader in America comes Practical Argument. No one writes for the introductory composition student like Kirszner and Mandell, and Practical Argument simplifies the study of argument. A straightforward, full-color, accessible introduction to argumentative writing, it employs an exercise-driven, thematically focused, step-by-step approach to get to the heart of what students need to understand argument. In clear, concise, no-nonsense language, Practical Argument focuses on basic principles of classical argument and introduces alternative methods of argumentation. Practical Argument forges the technical terminology that confuses students and instead explains concepts in understandable, everyday language, illustrating them with examples that are immediately relevant to students’ lives.*

*Richard A. (‘Red’) Watson has published fiction, general nonfiction, and scholarly books. His essay ‘On the Zeebrugge,’ about Descartes in Holland and first published in The Georgia Review, was the lead essay in The Pushcart Prize XV, 1990–1991: Best of the Small Presses. Red knows writing. He also knows academe and has written Writing Philosophy as a kind of survival manual for undergraduates, graduate students, and junior faculty members in philosophy. Also helpful to those in the humanities and the social sciences, the book is a guide to the professional writing and publishing that are essential to an active participation in the conversation and discussion that constitute these professional fields. To be certain that publication is the crucial factor in smart decisions, it will help the beginning scholar meet tenure criteria. Despite the importance of the oral tradition in philosophy and the influence of the dialogue, many philosophical points are so intricate and complex that they can be advanced, followed, and criticized only if they are written as persuasive arguments for study and contemplation at length and at leisure. Watson provides a set of basic principles and a plan for writing argumentative papers of 1,500 to 15,000 words (3 to 30 printed pages) and books containing a sequence of sustained arguments of 70,000 to 150,000 words (200 to 300 printed pages). Because the first book of most professional philosophers is a revised dissertation, Watson presents a plan for writing that dissertation in such a way that its chapters will serve as publishable articles and the dissertation itself will need very little revisiting on a book. His discussion of the principles of reason, clarity, and argument ranges from such topics as dangling participles and the proper usage of ellipses to matters of categorization and universality.*

*This brief spiral-bound booklet provides a portable, scannable, and simple guide to the basics of argumentative essay writing. Designed to complement in-depth classroom instruction, it serves as a portable resource that students can use on their own or in class for quick, step-by-step guidance on how to plan, research, write, and edit argumentative essays. Advice on avoiding plagiarism and documenting sources is included, along with up-to-date MLA and APA citation guidelines and a sample essay. Laminated for convenience and durability, the booklet is intended as a lasting reference tool that students can use throughout their academic studies. Additional resources, including an essay outline tool and grammar exercises, are provided on a free companion website.*

Americans have built an empire on the idea of ‘race,’ a falsehood that damages us all but falls most heavily on the bodies of black women and men/bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son and readers/the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, Between the World and Me clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a better forward.

This Parent/Teacher Guide to accompany the Put Some Pants on That Kid Student Book. (Student Book is sold separately.) Writing well is an outgrowth of thinking well. The book is of interest to scholars of multilingualism, language teachers, researchers, and administrators who are developing policies on teaching English and promoting multilingualism. Given its scope, this edited collection provides an overview of how multilingualism is transforming the practice of Teaching English to Speakers of Other Languages (TESOL) in diverse contexts around the world. It serves as a platform for discussions related to policy enactment where TESOL and multilingualism are viewed as collaborative endeavors and approaches the topic from three different angles. The first section of the book provides critical examinations of previous initiatives and accomplishments in the area of language policy development and implementation. The second section describes current projects and initiatives intended to expand and strengthen the field of TESOL while providing space for local and indigenous languages to develop. The third and last part of the book highlights policy development areas that need special consideration in order to develop a form of TESOL that builds on and contributes to multilingualism.

Voted America’s Best-Loved Novel in PBS’s The Great American Read Harper Lee’s Pulitzer Prize-winning masterpiece of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, To Kill a Mockingbird has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.
