Overview Of Authorisation Procedures For Medicinal Products

The Services Directive is one of
the cornerstones for the

Read Book Overview Of Authorisation Procedures For Medicinal Products

realization of the EU internal market and is fundamental to economic and legal experts, as well as to the general public. This book analyses in detail the different steps taken by each of the 27 EU Member States in the

Read Book Overview Of Authorisation Procedures For Medicinal Products

implementation process of the Services Directive. It provides not only detailed information about the changes in national law adopted by the Member States, but also facilitates a comparison of the different

Read Book Overview Of Authorisation Procedures For Medicinal Products

implementation strategies. It gives an insight in the heterogeneity or homogeneity of implementation concepts and shows how European legislation affects legislation that were originally nationally dominated,

Read Book Overview Of Authorisation Procedures For Medicinal Products

such as the law of national administration. Valuable for academics interested in European and administrative law and the transposition of European lawmaking into domestic law, as well as for civil

Read Book Overview Of Authorisation Procedures For Medicinal Products

servants in ministries, chambers of commerce, local governments and other comparable institutions having to implement the Directive.

In recent years public expectations for rapid

Read Book Overview Of Authorisation Procedures For Medicinal Products

identification and prompt management of emerging drug safety issues have grown swiftly. Over a similar timeframe, the move from paper-based adverse event reporting systems to electronic capture and rapid

Read Book Overview Of Authorisation Procedures For Medicinal Products

transmission of data has resulted in the accrual of substantial datasets capable of complex analysis and querying by industry, regulators and other public health organizations. These two drivers have created

Read Book Overview Of Authorisation Procedures For Medicinal Products

a fertile environment for pharmacovigilance scientists, information technologists and statistical experts, working together, to deliver novel approaches to detect signals from these extensive and quickly

Read Book Overview Of Authorisation Procedures For Medicinal Products

growing datasets, and to manage them appropriately. In following this exciting story, this report looks at the practical consequences of these developments for pharmacovigilance practitioners.

Read Book Overview Of Authorisation Procedures For Medicinal Products

The report provides a comprehensive resource for those considering how to strengthen their pharmacovigilance systems and practices, and to give practical advice. But the report does not

Read Book Overview Of Authorisation Procedures For Medicinal Products

specify instant solutions. These will inevitably be situation specific and require careful consideration taking into account local needs. However, the CIOMS Working Group VIII is convinced that the combination

Read Book Overview Of Authorisation Procedures For Medicinal Products

of methods and a clear policy on the management of signals will strengthen current systems.

Finally, in looking ahead, the report anticipates a number of ongoing developments, including techniques with wider

Read Book Overview Of Authorisation Procedures For Medicinal Products

applicability to other data forms than individual case reports. The ultimate test for pharmacovigilance systems is the demonstration of public health benefit and it is this test which signal detection

Summary Report

?Forecasts point out an exponential growth in the global population, which raises concerns over the ability of the

Read Book Overview Of Authorisation Procedures For Medicinal Products

current agri-food
production systems to
meet food demand in the
long term. Such a
prospect has led
international
organizations and the

Read Book Overview Of Authorisation Procedures For Medicinal Products

scientific community to raise awareness about, and call for, the need to identify additional sources of food to feed the world. From this perspective, insects

Read Book Overview Of Authorisation Procedures For Medicinal Products

qualify as a suitable
and more environmentally
friendly alternative to
meat and other foods
that are sourced from
animal proteins.

However, uptake of the

Read Book Overview Of Authorisation Procedures For Medicinal Products

production and commercialization of insects as food has been facing regulatory hurdles, consumer skepticism and rejection in many markets. This is

Read Book Overview Of Authorisation Procedures For Medicinal Products

particularly true in the context of western societies in which insects do not always constitute part of the local traditional diets.
Production and

the European Union
analyses and discusses
the regulatory state-of-

Read Book Overview Of Authorisation Procedures For Medicinal Products

the-art for the
production and
commercialization of
insects as food and feed
in the European Union.
The EU has been taking
concrete legislative

Read Book Overview Of Authorisation Procedures For Medicinal Products

steps with a view to opening up its market for insect foods, although some key regulatory constraints still exist today which ultimately prevent the

Read Book Overview Of Authorisation Procedures For Medicinal Products

industry sector from growing, consolidating and thriving. The main regulatory constraints in the EU for insects as food include the fragmentation of the EU

Read Book Overview Of Authorisation Procedures For Medicinal Products

market as a result of
the adoption of
different policy
solutions by EU Member
States for novel foods
and the lengthy and
complex authorization

Read Book Overview Of Authorisation Procedures For Medicinal Products

procedures. Also, ad hoc safety and quality requirements tailored to the needs and specificities of the insect food sector are currently missing. This

Read Book Overview Of Authorisation Procedures For Medicinal Products

work constitutes the first comprehensive overview of the evolution and current state-of-the-art of the regulatory framework for insect foods in the EU,

Read Book Overview Of Authorisation Procedures For Medicinal Products

based on a
multidisciplinary
approach that combines
science, policy and law.
It proposes a
legislative roadmap
which the EU should

Read Book Overview Of Authorisation Procedures For Medicinal Products

follow in order to make
its regulatory framework
fit for insect foods in
the long term by
providing a detailed
comparison between the
current EU legal

Read Book Overview Of Authorisation Procedures For Medicinal Products

framework and other regulatory systems of western countries with a view to singling out the markets which are better equipped to address the production and the

commercialization of
insect foods. The text
provides an updated
overview of the overall
market and of European
consumers' perspectives
on the use of insect

Read Book Overview Of Authorisation Procedures For Medicinal Products

foods. With the proper legislative steps and consolidation, the EU can be a global leader for insects as food and feed both as a market and as a standard-

Read Book Overview Of Authorisation Procedures For Medicinal Products

setting body.

This report provides an overview of the outcome of a series of audits carried out by the Food and Veterinary Office (FVO) in 19 Member

Read Book Overview Of Authorisation Procedures For Medicinal Products

States (MSs) of the European Union (EU) between January 2012 and June 2014. This was the fourth series of FVO audits in this area. The objective of the audits

Read Book Overview Of Authorisation Procedures For Medicinal Products

was to evaluate the control systems in place for pesticides, in particular, the implementation of requirements for the authorisation of plant

Read Book Overview Of Authorisation Procedures For Medicinal Products

protection products
(PPPs) and official
controls on the
marketing and use of
PPPs under Regulation
(EC) No 1107/2009 and
Directive 2009/128/EC,

Read Book Overview Of Authorisation Procedures For Medicinal Products

and the implementation of the requirements for official controls of PPPs at growers, as specified in Regulation (EC) No 882/2004. While there were systems and

Read Book Overview Of Authorisation Procedures For Medicinal Products

procedures for the authorisation of PPPs in place in all Member States, related shortcomings were identified in two areas:
(a) Delays with re-

Read Book Overview Of Authorisation Procedures For Medicinal Products

authorisations of PPPs
under Directive
91/414/EEC, and with
mutual recognitions
under Regulation (EC) No
1107/2009: Many
authorised PPP had not

Read Book Overview Of Authorisation Procedures For Medicinal Products

been evaluated to EU standards, more than 15 years after the principles for evaluation had been established. Similarly, delays and problems with

Read Book Overview Of Authorisation Procedures For Medicinal Products

cooperation between
Member States were
identified for the zonal
authorisation system
under Regulation (EC) No
1107/2009. This
highlights the

Read Book Overview Of Authorisation Procedures For Medicinal Products

difficulty of MSs to
implement authorisation
systems based on EU
legislation; (b)
Emergency authorisations
of PPPs under Regulation
(EC) No 1107/2009: The

Read Book Overview Of Authorisation Procedures For Medicinal Products

report identifies problems with misuse of emergency authorisations for minor uses of PPPs, but also for other use extensions of approved PPPs. ^In addition,

Read Book Overview Of Authorisation Procedures For Medicinal Products

emergency authorisations for the same products have been granted for consecutive years, thus undermining the effectiveness of the strict criteria for

Read Book Overview Of Authorisation Procedures For Medicinal Products

regular authorisations established by EU legislation. Systems were in place for official controls on the marketing and use of PPPs. One common

Read Book Overview Of Authorisation Procedures For Medicinal Products

weakness in controls at both market and user level, was the coverage of operators. With regard to official controls on the marketing of PPPs, there

Read Book Overview Of Authorisation Procedures For Medicinal Products

were further weaknesses related to unsatisfactory labelling checks and unsatisfactory quality controls of pesticides. As a consequence, there

Read Book Overview Of Authorisation Procedures For Medicinal Products

was insufficient assurance that counterfeit and illegal pesticides would be detected. In general, official controls on the use of PPPs were more

Read Book Overview Of Authorisation Procedures For Medicinal Products

effective than controls on the marketing of PPPs. ^In most of the MSs visited, all relevant aspects were covered during inspections and comprehensive checks of

Read Book Overview Of Authorisation Procedures For Medicinal Products

records kept by professional users were taking place, which provided guarantees that PPPs are applied in accordance with the conditions specified on

Read Book Overview Of Authorisation Procedures For Medicinal Products

the labels. Weaknesses were identified with regard to prioritisation of official controls. Co-ordination and co-operation between and, in some cases, within

Read Book Overview Of Authorisation Procedures For Medicinal Products

CAs was considered to be weak. Initial measures were adequately put into place for the implementation of Directive 2009/128/EC, in particular, training

Read Book Overview Of Authorisation Procedures For Medicinal Products

and certification of
professional users, safe
handling and storage of
PPPs, their containers
and remnants, Integrated
Pest Management (IPM)
and application

Read Book Overview Of Authorisation Procedures For Medicinal Products

equipment. This is a step forward to ensure the sustainable use of pesticides. Good practices were found with regard to systems for official controls as

Read Book Overview Of Authorisation Procedures For Medicinal Products

a whole, or certain aspects. These are described in the relevant chapters of the report.
