"Through a seeming act of providence, an old couple receives a day-old female goat kid as a gift from the cosmos. Thus begins the story of Poonachi, the little orphan goat, who survives against the odds and carries the burden of being different all her life long. As you follow her story from forest to habitation, independence to motherhood, you recognise in its significant moments the depth and magnitude of your own fears and longings, fuelled by instinct for survival that animates all life."--Provided by publisher.

Languages and Literary Cultures in Hyderabad

This book criticises literary and cultural representations of the Indian family to explore the manner in which the family and its structure are in transition. The papers explore (and expose) how the Indian family, whether in India or in diaspora, needs to be redefined in the current context-in this age of rapid industrialization, globalization (both cultural and economic), and the emergence of new technologies. The family is viewed from a variety of perspectives, as represented in film, theatre, and literature-both English and vernacular. Including reflective pieces by several well-known scholars, this volume offers a holistic understanding of local and global shifts and fissures that shape the family today.

Novel set against the contemporary political situation in India.

The classical tradition in Telugu, the mellifluous language of Andhra Pradesh in southern India, is one of the richest yet least explored of all South Asian literatures. In this volume, Velcheru Narayana Rao and David Shulman have brought together mythological, religious, and secular texts by twenty major poets who wrote between the eleventh and nineteenth centuries, providing an authoritative volume overview of one of the world’s most creative poetic traditions. An informative, engaging introduction fleshes out the history of Telugu literature, situating its poets in relation to significant literary themes and historical developments and discussing the relationship between Telugu and the classical literature and poetry of Sanskrit.

India is a vast country of continental size. Despite increasing literacy, English continues to be the link language for want of acceptable language within the country. However, Hindi still remains the language of the masses, spoken by more than half the population and understood by nearly three-fourths. Although Hindi is taught in school syllabi, its purpose is purely academic that hardly serves to promote national unity through ease in conversation. Understanding this need in filling this disjointed gap, V&S Publishers has taken the first fledging step by deciding to bring out a conversational Indian Language series, beginning with Telugu-to-Hindi module, in the name of "e:sampurna vyakaran sahit....."e:After years of research and hard work and supported by knowledgeable persons of literary taste, we have come out with this unique volume that is significantly different from all the other language learning courses out there. The major difference: this module format also provides the basics of grammar which are absent from all the other titles in the market. These basics of grammar not only provide knowledge base of the language, but also enable an individual to learn the language while speaking it.

This court epic describes events leading up to but not including the birth of Kumara (also known as Skanda or Karttikeya), the war god destined to defeat the demon Taraka. The gods attempt to deploy Kama, the Indian Cupid, to set the ascetic supreme deity Shiva on fire with love for Uma (also known as Parvati), the daughter of the god of the Himalayan mountain range. Kama's mission fails, and Shiva, roused from his meditative trance, turns his flaming third eye on the love god, burning him to ashes. Next, Parvati herself turns to intense asceticism in order to win spiritual power and thereby the husband for whom she longs. She succeeds, and the climax of the poem is Shiva and Parvati's marriage and cosmic lovemaking, and Kumara's divine conception.

The charged emotional politics of language and identity in India

There is great interest in recent scholarship in the study of metropolitan cultures in India as evident from the number of books that have appeared on cities such as Delhi, Mumbai, Chennai and Kolkata. Though Hyderabad has a rich archive of history scattered in many languages, very few attempts have been made to bring this scholarship together. The papers in this volume bring together this scholarship at one place. They trace the contribution of different languages and literary cultures to the multicultural mosaic that is the city of Hyderabad How it has acquired this uniqueness and how it has been sustained is the subject matter of literary cultures in Hyderabad. This work attempts to trace some aspects of the history of major languages practiced in the city. It also reviews the contribution of the various linguistic groups that have added to the development not just of varied literary cultures, but also to the evolution of an inclusive Hyderabadabi culture. The present volume, it is hoped, will enthuse both younger and senior scholars and students to take a fresh look at the study of languages and literary cultures as they have evolved in India's cities and add to the growing scholarship of metropolitan cultures in India.

Here is the first translation into English of the Basava Purana, a fascinating collection of tales that sums up and characterizes one of the most important and most radical religious groups of South India. The ideas of the Virasaivas, or militant Saivas, are represented in those tales by an intriguing mix of outrageous excess and traditional conservatism. Written in Telugu in the thirteenth century, the Basava Purana is an anthology of legends of Virasaiva saints and a hagiography of Basavesvara, the twelfth-century Virasaiva leader. This translation makes accessible a completely new perspective on this significant religious group. Although Telugu is one of the major cultural traditions of India, with a classical literature reaching back to the eleventh century, until now there has been no translation or exposition of any of the Telugu Virasaiva works in English. The introduction orients the reader to the text and helps in an understanding of the poet's point of view. The author of the Basava Purana, Palkuriki Somanatha, is revered as a saint by Virasaivas in Andhra and Karnataka. His books are regarded as sacred texts, and he is also considered to be a major poet in Telugu and Kannada. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

1001 Quotations To Inspire You Before You Die is full of smart remarks - not just sassy one-liners (although there are plenty of those), but also more considered, philosophical epigrams that make us pause and reflect on a range of profound topics. Each quotation is accompanied by an insightful account of its meaning and the historical context in which it was first uttered or written. Some famous quotations are straightforward, but many need contextualising - it's often not exact what was said, but who said it, and in what context, that is more important. Many oft-quoted remarks open up whole new worlds of thought and interpretation. What, for example, did Voltaire mean when he wrote 'If God did not exist, it would be necessary to invent him?' - was he hinting at his own atheism (unlikely, given the age in which he lived) or making a more subtle point about the difficulty of apprehending the Almighty? This book looks into these and a host of other such quotations, and takes the reader from the source material into illuminating discussions of its wider significance. We all love quotations - we use them to make our points, to plead our cases and to justify our opinions, as well as to honour, glorify, motivate, incite, besmirch, bewitch and beguile. 1001 Quotations To Inspire You Before You Die will help you do all that and more.

Beyond Open Distance Learning is not about the advances made in distance education through the use of modern communication technologies and educational pedagogies (OECs, MOOCs, web, YouTube, Twitter, etc). The book is more about the discussion on the need for new thinking (disruptive innovations) for a more holistic development or Kuhonian revolution. It discusses ways to try to escape from the cocoon we created in ODL and higher education and to move towards new horizons of a sustainable and balanced development of the society.
