Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as Weirdo, Wimmen's Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works.

During the Bears' search for a Christmas tree they are reminded of what Christmas is really about.

Family is arguably one of the most important influences in a

child's life. A family is there from the first moments of life, and children depend on parents to protect and provide for them. Parents and family form a child's first relationships. These relationships teach and prepare a child for the experiences the life ahead of them will bring. Some experiences, however inevitable they may be, can not be prepared for. It is in the face of these experiences that a family must rally together. Papa-Bear, the beloved patriarch of a bear family, is called to battle against an undefeated opponent. The pillars of faith, love, and family, must stand resilient against the immense weight of panic, fear, and loss as Papa-Bear prepares to fight for his life. Papa-Bear answers the challenge despite being untried, unprepared, and tragically outmatched. Though this challenger has never been slain, strong and weak alike have faced this destructive foe and forced its retreat. Will Papa-Bear be one of the victors? Sudden loss is painful for adults to understand and more so for the youngest in the family. When Cancer infects someone, it's not just the individual the desires attacks. It attacks every family member from the youngest leaves down to the oldest root of the family tree. Idealism is natural. Optimism surrounds every "What if...". The darker side of "What if..." may haunt the back of everyones mind, but it is seldom discussed. When a dark nightmare becomes a crushing reality, the strength to accept and understand losing one of life's purest loves is difficult to muster despite love and support all around. Papa-Bear was the self-claimed title of my late father, whose memory this book is both based on and dedicated to. After losing his three-month fight with aggressive Cancer in late July 2017, I wrote the enclosed story for my grief-stricken sister to help her have the much-needed conversation with her young children in the face of their first genuine loss. "Papa-Bear Isn't Feeling Well" not only helps open a dialogue between family elder and child, but also serves as a reminder to young and old alike, that as

difficult as life will be after a tragic loss, life will go on! Love will always persevere in the end. Love will forever remain, and memories will help sustain!

Mama, do you love me? Yes I do Dear One. How much? In this universal story, a child tests the limits of independence and comfortingly learns that a parent's love is unconditional and everlasting. The story is made all the more captivating by its unusual Arctic setting. The lyrical text introduces young readers to a distinctively different culture, while at the same time showing that the special love that exists between parent and child transcends all boundaries of time and place. The story is beautifully complemented by graphically stunning illustrations that are filled with such exciting animals as whales, wolves, puffins, and sled dogs, and a carefully researched glossary provides additional information on Arctic life. This tender and reassuring book is one that both parents and children will turn to again and again.

Collects three tales of Mama and the rest of the family.

The Berenstain Bears' Life with Papa

The first truly comprehensive biography on George Halas, the father of professional football The founder of the National Football League and father of the Chicago Bears, George Halas single-handedly changed the way Americans spend their Sundays. Papa Bear tells the incredible story of how one man grabbed an outlaw game by the throat, shook it up, and made it into the richest and most popular spectator sport on the planet. Nearly 20 years after his death, Halas remains one of the towering figures of professional sports--rivaling the legendary Vince Lombardi--yet there has never been an authoritative biography published about this great American success story. At last, Papa Bear fills that gap. Written with unprecedented access to Halas's family, his closest friends, and associates, this thoroughly researched account includes exclusive interviews and a treasure trove of never-published archival

materials on the Hall of Famer and his enduring legacy.

Poor Baby Bear is so exhausted from staying up too late in the fall, that now he can't wake up in the spring. Even his old friends, Moose, Owl, and Hare have no luck waking the tired little bear. A few well-placed pecks from Mother Robin does the trick and Baby Bear finally awakes just in time to do a little babysitting himself. This charming follow-up to Baby Bear's Not Hibernating explores themes of friendship, diversity, working as a team, and parenting; plus it concludes with fun facts and information about black bears.
