contemporary artists to the fore, whose work addresses aspects of the neurological sciences. Curated by BFA Fine Arts Department Chair of the School of Visual Arts in New York Suzanne Anker, the exhibition included works by the artists Suzanne Anker, Andrew Carnie, Rona Pondick, Michael

Joaquin Grey, Michael Rees, Frank Gillette and Leonel Moura. Each interdisciplinary artist essentially employed new technologies ranging from robotics, 3-D scanning, Photoshop, rapid prototyping, microscopy and computational video. All were concerned with the mysteries and unity of nature and

its processes, the transmission of knowledge and beliefs, and the reveries of human metaphors of being in time.

The Canon EOS 70D is the latest of Canon's full-sized DSLR cameras. Its impressive array of advanced capabilities allows the photographer more influence over the final image. This book's exploration of the EOS 70D goes beyond that of the user's manual. It provides

illustrations, step-by-step setting adjustments, helpful suggestions for setup, and detailed explanations for each of the camera's many features and menu configurations. The text is illustrated with easy-to-follow screenshots and example images. This book will also

introduce intermediate-level camera users to DSLR model-differentiating features such as Wi-Fi and Dual Pixel autofocus. The content covers effective use of the camera's hardware (and some software) as well as certain related accessories, with little emphasis on general

photography. Author James Johnson covers everything from basic camera features to advanced photographic options. With this book as your guide, you'll learn to successfully use this powerful camera.
