

## Paper F3 Financial Strategy Cima

*This new edition of 'Financial Strategy' includes practice questions throughout, a complete revision section, topic summaries and a CBA-style mock exam.*

*CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper E3 'Enterprise Strategy' is a wide-ranging exam that includes aspects of strategic analysis, choice and implementation. To pass, candidates need both technical knowledge and the ability to apply their knowledge to specific scenarios. The syllabus is split into four areas: \* Interacting with the Competitive Environment (20%) \* Change Management (20%) \* Evaluation of Strategic Options (30%) \* Implementation of Strategic Plans (30%) The first section explores the impact and influence of an organisation's environment on its strategy. An organisation needs to take account of its environmental context as well as its own internal capabilities when assessing the strategic options available to it. Having identified these options, it then has to evaluate them to decide which is the most appropriate to pursue. The E3 syllabus recognises that implementing strategic plans involves managing change, and 20% of the syllabus is now devoted to issues involved in managing the change process. Change Management has not previously been examined at Strategic Level in the CIMA exams. The final section of the syllabus looks at the ways organisations control and measure the performance of the strategies they have implemented. The E3 Study Text provides you with comprehensive coverage of the principles of business strategy and how they can be applied to design and implement enterprise strategies. The Text also offers a range of short case studies which illustrate how business strategy ideas are applied in the real world. In the E3 exam, your ability to apply knowledge to a scenario is as important as pure knowledge, but it is still crucial to have a sound understanding of the key terms and ideas. The 'key terms' feature in the text will help you identify these key terms, while the 'section summaries' provide a convenient overview of each section of the text.&quot;*

*CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper P2 - Performance Management is the second paper in the Performance pillar. It builds on Paper P1 knowledge as well as introducing such new topics as transfer pricing. The paper focuses on the ability to discuss and evaluate results as well as use techniques to calculate the numbers. The syllabus is concerned with \* Analysis and discussion of pricing and product decisions \* Evaluation of techniques used to in cost planning and analysis for competitive advantage \* Evaluation of performance using budgets and discussion of issues in using budgets for this purpose \* Discussion of how to measure performance of responsibility centres and evaluation of the usefulness of these techniques P1 requires a good understanding of the underlying concepts and techniques in all five areas. P1 also needs you to be able to apply these concepts to practical situations, evaluate them critically and interpret the results. The P2 study text provides comprehensive coverage of the complete P2 syllabus. It features step-by-step guides to such topics as limiting factor analysis, multi-product breakeven analysis and budgeting. Each chapter includes numerous simple and comprehensive examples of how to apply various techniques. Areas that students traditionally find difficult - such as linear programming and transfer pricing - are dealt with in dedicated chapters that break these topics down into manageable sections and give students plenty of opportunities to practise techniques.*

**CIMA - F3: Financial Strategy**

CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. The P3 Performance Strategy exam covers how organisations respond to risks through systems and controls. The syllabus emphasises the wide-ranging risks organisations face, and particularly financial and information risks, because of the severe consequences these can have. It includes the methods organisations use to reduce risks, including: \* Management and accounting systems \* Corporate governance \* Control environment and procedures \* Internal audit Key skills are: \* Recognising risks \* Recommending appropriate actions to counter those risks. The syllabus also requires appreciation of how risks and control systems link with the strategies the organisation pursues. The Study Text provides all you need to know for P3. It gives many examples of the strategic and operational risks organisations face when they try to fulfil their objectives. It explains the frameworks organisations use for controlling risks. It demonstrates the importance of key elements of control systems including corporate governance, ethics support, control procedures and internal audit.

BPP Learning Media provides comprehensive materials that highlight the areas to focus on for your exams and complement the syllabus to increase your understanding.

Financial Strategy- Kaplan Cards

Interactive Passcards : for Exams in November 2011 and May 2012. Financial strategy. F3

CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper F3 is the strategic level paper in the Financial pillar. Material from papers F1 and F2 is relevant as well as information systems from E1 and investment appraisal from P1. The syllabus is concerned with: \* The identification of suitable financial objectives, and how these might be attained by use of appropriate financial strategies \* The management of finance to ensure that adequate short and long-term funds are available to meet the requirements of these financial strategies \* The evaluation of acquisition targets i.e. will the acquisition help in the achievement of a company's financial objectives? \* The evaluation and control of investment decisions This comprehensive Study Text contains all you need to know for F3, featuring step-by-step guides to financial management techniques such as calculating the cost of capital and business valuations, which many students find tricky. Exam

formulae are clearly identified and explained with plenty of examples and questions for essential practice. Key terms are highlighted throughout to help you to learn new terminology such as beta factor and synergy.

The Financial Strategy Practice & Revision Kit allows you to apply your knowledge by putting theory in to practice. It contains three complete mock exams and many past exam questions on every area of the syllabus. The questions are supported by detailed solutions and tips on how to approach questions and earn easy marks.

Through practice, you are equipped with the best techniques to face the exam and earn the maximum number of marks.
