IFRSs, the standards set by the International Accounting Standards Board (IASB), are

complex and sometimes obscure. Understanding their implications and applying them appropriately requires something special; and that is why International GAAP® 2015 is the essential tool for anyone applying, auditing, interpreting, regulating, studying and teaching international financial reporting. It provides

expert interpretation and practical guidance for busy professionals, and includes, in every chapter, detailed analysis of how complex financial reporting problems can be resolved appropriately and effectively. The International Financial Reporting Group of Ernst & Young includes financial reporting

specialists from  
throughout the world.  
Complex technical  
accounting issues are  
explained clearly in a  
practical working  
context that enables  
immediate  
understanding of the  
point at issue.

International GAAP®
