This book presents a detailed analysis of the Soviet armed forces during the final days of the war, covering the soldiers that successfully turned the tide against the Nazi onslaught and pushed it back into Germany itself. This final part of the series documents the Red Army's push through Germany to Berlin, which eventually culminated in the surrender of the German forces to the Allies in 1945. It also offers a detailed breakdown of all the armed forces that conducted the offensive campaigns on the Eastern Front, including the army, air force, paratroopers, navy and NKVD troops. Motor Age

*William Ewart Gladstone (1809-98) was the outstanding statesman of the Victorian age. He was an MP for over sixty years, a long serving and exceptional Chancellor of the Exchequer and four times Prime Minister. As the leader of the Liberal party over three decades, he personified the values and policies of later Victorian Liberalism. Gladstone, however, was always more than just a politician. He was also a considerable scholar, a dedicated Churchman and had a range of interests and connections that made him, in many respects, the quintessential Victorian. Yet important aspects of Gladstone's life have received relatively little recent attention from historians. This study reappraises Gladstone by focusing on five themes: his reputation; his representation in visual and material culture; his personal life; his role as an official; and the ethical and political basis of his international policies. This collection of original, often multidisciplinary studies, provides new perspectives on Gladstone's public and private life. As such, it illustrates the many-sided nature of his career and the complexities of his personality.*

This is a concise history of the unique integrated commando-style brigade of US and Canadian volunteers formed in 1942. Hand picked, and trained in airborne, amphibious, mountain and winter warfare, demolitions and close-quarter tactics, they left a combat legacy still recognized amongst today's Special Forces. This book explores the remarkable results the FSSF achieved in Italy in the harsh mountain fighting on the Winter Line, in the trenches of Anzio, and in the breakthrough to Rome. Accompanied by unique combat photography and illustrations of their distinctive uniforms, this is an insight into a famous, but little explored unit.
