***Beat the Market and Grow Your Cash Flow Without Becoming a Full-time Investor Most investment strategies are just too complicated, too risky, or too subjective. Typical investment strategies completely ignore human emotions, and making emotional investment decisions is the most common cause of losses for investors. Risky trading strategies advertised with get-rich-quick hype may create big wins for a lucky few, but most people just end up with big losses and nothing to show for all their hard work and the emotional rollercoaster they endured. Creating and maintaining real wealth through stock***

*investing requires a long-term investment strategy that properly manages risk and prevents emotional decision-making so that you never suffer major losses. The FALCON Method is completely different than typical stock investing strategies. The reason it beats the market again and again is because it uses an evidence-based stock selection process that anyone can follow. You don't need to get lucky, take big risks, or fly by the seat of your pants in order to retire wealthy from stock investing. Successful investing requires structured decision-making based on a proven process, and that's exactly how The FALCON Method was created.*

*book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-*

*by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: \* Create profitable side hustles that you can turn into passive income streams or full-time businesses \* Save money without giving up what makes you happy \* Negotiate more out of your employer than you thought possible \* Travel the world for less \**

*Live for free--or better yet, make money on your living situation \* Create a simple, money-making portfolio that only needs minor adjustments \* Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get*

be 24 years old, or riding a  
booming economy, in order to  
start a successful online business.

The Six-Figure Second Income  
explains how to start or grow a  
business even when you think  
you have plenty of strikes against  
you. In the course of building an  
eight-figure real estate  
information marketing business,  
David Lindahl and Jonathan Rozek  
tested dozens of tools and  
techniques. This book is centered  
around principles they derived  
from all the tests they ran, tools  
they used, and money they spent.  
If you're tired of the gimmicks  
and skepticism that anyone can  
really succeed online, this book  
will give you the no-hype, no-  
nonsense advice you need.
