From a synchronic point of view, the various accentuation systems found in the Baltic and Slavic languages differ considerably from each other. We find languages with free accent and languages with fixed accent, languages with and without syllabic tones, and languages with and without a distinction between short and long vowels. Yet despite the apparent diversity in the attested Baltic and Slavic languages, the sources from which these languages have developed – the reconstructed languages referred to as Proto-Baltic and Proto-Slavic respectively – seem to have had very similar accentuation systems. The prehistory and development of the Baltic and Slavic accentuation systems is the main topic of this book, which contains sixteen articles on Baltic and Slavic accentology written by some of the world's leading specialists in this field.

Pass the LEED Green Associate Exam, Get Your Building LEED Certified, Fight Global Warming, and Save Money! The USGBC released LEED v4 at the GreenBuild International Conference and Expo in November 2013. The GBCI started to include the new LEED v4 content for all LEED exams in late Spring 2014. We have incorporated the new LEED v4 content in this book. Starting on December 1, 2011, GBCI began to draw LEED Green Associate Exam questions from the second edition of Green Building and LEED Core Concepts Guide. We have incorporated this information in our book. LEED (Leadership in Energy and Environmental Design) is one of the most important trends of development and is revolutionizing the construction industry. It has gained tremendous momentum and has a profound impact on our environment. From this book, you will learn how to do the following: 1. Pass the LEED Green Associate Exam. 2. Use LEED exam preparation strategies, study methods, tips, suggestions, mnemonics, and exam tactics to improve your exam performance. 3. Effectively understand, digest, and retain your LEED knowledge. 4. Understand the process of registering and certifying a building for LEED. 5. Understand the scope, main intent, core concepts and strategies, as well as identify the regulations, recognition, and incentives for each major LEED category. 6. Identify the strategies for case studies. 7. Identify the synergy in case studies. 8. Implement the most important LEED related codes and building standards. 9. Get points for categories not yet clearly defined by the USGBC. This book fills in the blanks and demystifies LEED. It uncovers the secrets, codes, and jargon for LEED as well as the true meaning of "going green." It provides a solid foundation and fundamental framework for LEED. It covers every major aspect of LEED in plain and concise language, and introduces it to ordinary people. This guide is small and easy to carry around. You can read it whenever you have a few extra minutes. It is an indispensable book for ordinary people, developers, brokers, contractors, administrators, architects, landscape architects, civil, structural, mechanical, electrical and plumbing engineers, interns, drafters, designers, and other design professionals. What others are saying about "LEED Green Associate Exam Guide"...(Part I) "Finally! A comprehensive study tool for LEED GA Prep!" "I took the one-day Green LEED Green Associate course and walked away with a power point binder printed in very small print--which was missing MUCH of the required information (although I didn't know it at the time). I studied my little heart out and took the test, only to fail it by 1 point. Turns out I did NOT study all the material I needed to in order to pass the test. I found this book, read it, marked it up, retook the test, and passed it with a 95%. Look, we all know the LEED Green Associate Exam is new and the resources for study are VERY limited. This one's the VERY best out there right now. I highly recommend it." --Consultant VA "Complete overview for the LEED Green Associate exam" "I studied this book for about three days and passed the exam ... if you are truly interested in learning about the LEED system and green building design, this is a great place to start." --K.A. Excerpt from Five Papers on the Past Proceedings and Experience of the Society of Friends, in Connection With the Education of Youth: Read at the Meetings of the Friends' Educational Society, at Ackworth, in the Years 1838, 1839, 1840, 1841, 1842 In the preface to this little book, it is stated that about six years since, a meeting of divers good friends took place concerning children's education, and teaching the languages; and what then was fully agreed on and writ down, was in substance, that they had agreed to lay aside the heathenish books, and the old corrupt grammars taken out of them, and set up the Scriptures of Truth, and what may be savoury, and good matter that may not corrupt children's minds. For the carrying out of this purpose they state that they had composed two books, instead of such grammars, as they had laid aside, because of the corrupt matter found in them. It is said, We deny nothing for children's learning that may be honest and useful for them to know, whether relating to divine principles, or that may be outwardly serviceable for them to learn in regard to the outward creation. We doubt much whether these elementary books were ever generally used in the other schools, which were doubtless soon Opened to meet the growing wants of the body. In the year 1671, by a memorandum found among the papers in Devonshire House, there appear to have been fifteen boarding schools. What others are saying about LEED AP O+M Mock Exam ... "These are TOUGH sample tests. You need this book!" "I used this book as a review in the day or two before my exam. The questions in this book could very well be found on the exam, but most actual exam questions will not be as complex as they are made here. Most of these questions on these mock exams have a twist or trick and many can only be answered if you know the materials backwards and forward. This makes for GREAT exam preparation because it makes you acutely aware of the types of tricks and the level of detail you MIGHT see on the exam..." — G. Patton "I highly recommend this book! "The book was extremely helpful for me passing the exam. The questions really challenged me to dig deeper into the details of each category. I felt this was one of several tools to help me be prepared for the exam. I highly recommend this book." — Edwin F Sierra "Such a great tool! "I passed the exam at the first attempt. These mock exams helped me to learn how to tackle the problems and which areas I should focus on! I worked with another book of the author also. It took 2-3 weeks for my preparation." — Chai

[Previously know as Advanced Level Audit Q&A] New 2018 edition based on the updated 2018 ICAEW Study Manual and including analysis of the audit and assurance elements of the 2014, 2015, 2016 and 2017 Advanced Level exam papers in both Corporate Reporting and Strategic Business Management. This Q&A uses a self-test methodology to reduce the very dense Advanced Level Audit and Assurance syllabus into over 700 active questions, making the topic more interesting and interactive to study. Questions are split into 13 different topic areas and also include relevant past paper questions from the old "Technical Integration" papers for further practice. The introduction to the book analyses the papers set for the first 8 sittings of this paper, which was introduced with effect from July 2014. We also include relevant questions and detailed analysis of the mark allocation from Technical Integration past papers over the 2009-2013 period, showing you which areas to prioritise - the Evolved ACA Audit syllabus is relatively unchanged from the previous Technical Integration syllabus so we believe that this analysis will remain valid for the Advanced Level. We also include extensive testing of the new "Audit Focus" sections which can be found hidden away at the end of the financial

Excerpt from Early Stages of Preparation for the Accountancy Papers of the Intermediate This little book is intended to help Articled Clerks during the early stages of their preparation for the Intermediate Examination Bookkeeping and Auditing Papers. In preparing it I have taken a number of subjects upon which questions have been frequently set in the past, and have endeavoured to give a short explanation of each, illustrated by simple examples. At the end of each chapter will be found a number of questions on each subject, taken from old examination papers, together with the dales of the examinations at which they were set. I hope that when the student has grasped the explanations given in these chapters, and worked out the questions set at the end of them, correcting his answers with the "Students' Telephone," or the "Accountants' Manual," he will be better able to continue his preparation, and improve his knowledge by a study of works such as Dicksee's "Bookkeeping for Accountant Students," Dicksee's "Auditing," Pixley's "Auditors," Dicksee's "Advanced Accounting," Ranking and Wiseman's "Executorship Law and Accounts," Pollock's "Partnership," and Dawson's "Compendium." This book may also be found to be of some use to those preparing for the examinations of the Incorporated Society of Accountants and Auditors and the Chartered Institute of Secretaries.
