Pastoral Care of the Sick (Bilingual Edition)Catholic Book Publishing Corporation

This pocket-sized edition of a pastoral staple will include official new rites of the Episcopal Church. Included are prayers, litanies, and other material that address medical conditions that were either unknown or not publicly talked about when the Prayer Book was revised in the 1970s. Some of these include the termination of life support, difficult treatment choices, loss of memory, and survivors of abuse and violence.

Structure your ministry to start with patients'sneeds, hopes, and resources and to be clear what difference your ministry can make! Hospital chaplains value who they are and what they do as contributions to patients'sand families'shealing and well-being. And they are continually stretching to enhance their ministries. Hospital administrators and other professionals on the care teams, however, often need help to grasp those same values in outcome oriented, observable, documentable, changes-for-the-better terms. The Discipline for Pastoral Care Giving: Foundations for Outcome Oriented Chaplaincy offers a powerful new paradigm for enhancing supportive, effective spiritual care for patients and families as well as communicating substantive outcomes to leaders and clinicians alike. This is all the more important in these times when every possible resource must be well used for the good of our patients and their families. By evaluating the pastoral care you offer, you can become more aware of the discrete skills you exercise in the assessment, planning, intervention, and reflection process. Such evaluation efforts highlight the discrete differences excellent spiritual care makes. This can help you track contributions you are making in terms of the patient's healing and well-being. Having a sound, replicable way to make the process more conscious also helps you communicate your assessment, strategies, and contributions more clearly to other care team members. Furthermore, consistently using The Discipline over time will enable you to discover patterns of spiritual dynamics in how people live with different health care challenges in their lives. These patterns translate into valuable insights as your care for others. The process discussed in The Discipline for Pastoral Care Giving calls on the chaplain to: identify the patient's spiritual needs, hopes, and resources construct a patient profile through identifying the individual's sense of the holy, sense of meaning, sense of hope, and sense of community design the desired outcome(s) you hope your care will contribute--for example, a person who has suffered a spinal cord injury integrates the effects of their injury in their sense of identity and meaning, a person living with cystic fibrosis healthfully grieves the loss of others in the CF community, a patient 'disabled'by the absence of her support community regains use of her personal resources for coping and self-care develop and share a plan for the patient's spiritual care choose interventions (which may range from facilitating a life review, to compassionate confrontation, to reading Scripture, to active listening, to arranging a family care conference) measure outcomes, identifying and communicating the difference your care has made in terms of the patient's healing and well-being The Discipline for Pastoral Care Giving offers case studies, personal experiences, helpful figures and charts, and suggestions for dealing with patients experiencing unique, complex health care challenges, including adults living with cystic fibrosis and violent victims of violence. The wise advice and practical suggestions in this book will help you recognize and document the solid value of your hospital ministry.

Suffering and illness have always been among the greatest problems that trouble the human spirit. Christians feel and experience pain as do all other people; yet their faith helps them to grasp more deeply the mystery of suffering and to bear their pain with greater courage. The Catholic Church has a long-standing and worthy tradition of taking care of her sick members. Indeed, this ministry is rooted in the ministry of Jesus himself who told his disciples that he did not come to heal those who are well, but those who are sick. This resource provides pastoral guidance for preparing the various rites found in Pastoral Care of the Sick: Rites of Anointing and Viaticum with particular attention to preparing communal celebrations, environment, music, and selecting from among the options in the ritual text. As part of the Preparing Parish Worship™ series, this book includes: • Theological reflections on illness and Christianity • A historical overview of the development of the Rite of Anointing • A walk-through the various rites for the ordained and lay ministers • Answers to frequently asked questions with responses to difficult pastoral situations • Assistance with best liturgical practices • Inspirational and informative quotations from Scripture and Church documents

A Ritual for Laypersons

The essentials of pastoral care involve the pastor's distinctive task of caring for those who are estranged--the lost sheep. Taken from the biblical image of the shepherd, the pastor by virtue of his or her professional calling cultivates wise judgment in order to hear the hurting and offer guidance, reconciliation, healing, sustaining presence, and empowerment to those in need. This book will outline the quintessential elements pastors need to wisely minister in today's context by discussing four major kinds of lostness: grief, illness, abuse, and family challenges. The purpose of the Abingdon Essential Guides is to fulfill the need for brief, substantive, yet highly accessible introductions to the core disciples in biblical, theological, and religious studies. Drawing on the best in current scholarship, written with the need of students foremost in mind, addressed to learners in a number of contexts. Essential Guides will be the first choice of those who wish to acquaint themselves or their students with the broad scope of issues, perspectives, and subject matters within biblical and religious studies.

This beautiful yet portable ritual book is a valuable resource for every priest, minister of the sick, and chaplain. It has the convenience of English and Spanish in one book as well as two-color type for easy reading and a ribbon. It contains the rituals for visits to the sick, communion to the sick in ordinary circumstances, hospitals, or institutions.

Communion of the Sick the special rite for communion calls in a hospital or institution. Each has its particular instruction and format, which appear immediately before the rite itself.

Ministering God's Grace in Times of Illness

Rites for Holy Communion and the Pastoral Care of the Sick and Dying

All lay ministers who provide care to those who are sick, homebound, isolated, or suffering in some way will benefit from the contents of this book. It includes the official rites they will need from the Book of Blessings and Pastoral Care of the Sick: Rites of Anointing and Viaticum to bring Holy Communion to and pray and share the Gospel with those who cannot regularly worship with their parish community on Sunday.

Much has been written about marriage from the sociological and psychological point of view and as an object of civil and canon law. But in terms of systematic theology this treatment of marriage as a sacrament may very well be unique. Every effort has been made to keep the text from becoming too academic while at the same time providing the average educated reader with a wealth of original insights into the "mystery" of marriage: in creation and as transformed by Christ. Chapters cover sacramental consent, bond, and covenant as well as the quest for the sign. Such thorny problems as the role of faith in the sacrament, marriage with an unbaptized person, the most pressing ecumenical questions and the relationship between the sacrament and contraception are studied in depth. Finally, the "sacrament of family" is treated at some length with an eye to its social and redemptive dimensions.

The author offers unusually rich descriptions of care-giving as it is displayed in these three congregations, integrating both well-explained theory and moving personal stories.--Will Willimon, Bishop, the North Alabama Conference of the United Methodist Church and Author of Worship as Pastoral Care "Pneuma 32"
