

also address the return on investment (ROI) of such design interventions. This Special Issue will provide both the foundational knowledge and fundamentals for characterizing human health and wellbeing in the built environment, as well as the emerging trends and design methods for innovations in this field.

Construction of the Aesthetic intends to recuperate the sphere of the aesthetic from the dialectic of existence: 'not to forget in dreams the present world, but to change it by the strength of an image.'

This great resource presents dentistry and dental practice against the ever-changing backdrop of economic, technological, and demographic trends, as well as the distribution of the oral diseases that dental professionals treat and prevent. The text is logically divided into five parts. Dentistry and the Community deals with the development of the dental and dental hygiene professions, demographics of the public, its use of dental services, and the professional role. Dental Practice covers the structure and financing of dental care, the personnel involved in providing that care, and the emerging field of evidence-based dentistry. The Methods of Oral Epidemiology provides a comprehensive assessment of the epidemiology of oral diseases and the determinants of their distribution in society. The Distribution of Oral Diseases and Conditions gives a detailed presentation of how the common oral diseases are distributed in the community. Prevention of Oral Diseases in Public Health discusses methods of preventing oral diseases in dental practice and through public health action. Thorough explanations of how to read dental literature help readers understand how to draw their own conclusions from the latest studies. Coverage presents a number of complex problems facing practitioners today regarding access to dental care, and discusses how to solve them by working with public authorities and insurers. Comprehensive coverage of oral disease distribution helps readers to understand trends and risks they will encounter in the field. Material on prevention and control of oral diseases provides important information that all dental practitioners should have. Research designs used in oral epidemiology assess the pros and cons of dental indexes available, allowing readers to gain an understanding of the complexities of disease measurement and research. Detailed content on providing dental care to the American public presents a unique opportunity to learn the system of dental care delivery. State-of-the-art coverage of mercury issues offer a balanced view of issues like toxicity, potential hazards, review of evidence, and politics. Ethical guidelines provide a discussion of how ethical principles have evolved over time and the precipitating events that pushed ethical practice into the forefront of health care. Information on the development of dental professions gives readers insight into how these professions originated and their current state. · Content addresses evidence-based dentistry, and how it can and should become part of the everyday clinical life of the practitioner, since staying current is vital to providing excellent patient care. · Discussions of infection control procedures and the impact of HIV and Hepatitis B incorporate new, updated guidelines in dental health care settings released in 2003.

Julie Armbrust is a practicing attorney and a private mediator and facilitator. In her newest guide, *Divorce Mediation in Oregon*, Ms. Armbrust offers a handbook to persons or couples facing a divorce and the roller-coaster "year of chaos" that follows. In *Divorce Mediation in Oregon*, you'll be shown step-by-step methods for the valuing and dividing of assets and the handling of child and spousal support, as well as be given tips on addressing retirement accounts, the custody of children, and even the ways one can achieve a divorce in the first place. Ms. Armbrust also shares online tools to make calculations easier and advice for dealing with the aspects of a divorce that other manuals and other attorneys won't mention. When it comes to dealing with a divorce, the options are these: Choose the terms and the path of your new life, or have them imposed upon you by others. To get started making the best choices for you and your family, you'll want to read *Divorce Mediation in Oregon*. (Oh...and bring a cupcake.)

Learn about the challenges, current trends, and the positive role that you can play in improving the dental health of the community. Completely revised and updated by members of the American Association of Public Health Dentistry, Burt and Eklund's Dentistry, Dental Practice, and the Community, 7th Edition presents dentistry and dental practice against the ever-changing backdrop of economic, technological, and demographic trends, as well as the distribution of the oral diseases that dental professionals treat and prevent. Readers will learn the latest techniques of research and measurement, and how oral disease may be limited through control and prevention. This updated text also addresses the new educational competencies for predoctoral/ post-doctoral dental students and dental hygiene students with updated and new content on cultural competency, oral health literacy, social responsibility, motivational interviewing, and oral systemic associations. All in all, this text takes a comprehensive look at the social context of dental care and the difference you can make in improving the health of the community you serve. Logical four-part organization divides content into dentistry and the community; dental care delivery; methods and measurement of oral diseases and conditions; and health promotion and prevention of oral diseases. A focus on need-to-know content emphasizes the important core information while providing comprehensive coverage of dental public health. Comprehensive analysis of dentistry's social and professional role examines issues such as epidemiology of oral diseases, prevention, and the provision of care. Evidence-based recommendations reflect the latest literature on today's public health issues. Illustrations, tables, and graphics illustrate the key material and visually enhance discussions. NEW! Completely revised and updated content looks at populations oral health and dental care as well as how it fits into a changing world. NEW! Coverage of new educational competencies provides predoctoral/ post-doctoral dental students and dental hygiene students with updated and new content on cultural competency, oral health literacy, social responsibility, motivational interviewing, and oral systemic associations. NEW! New chapters cover the applications of epidemiology and biostatistics in dental public health, oral health as it related to quality of life, oral health education, health literacy, social determinants of health and health disparities, and delivery of oral healthcare in Canada. NEW! Newly revised competencies for the Dental Public Health specialty are incorporated throughout the book. This is a print on demand edition of a hard to find publication. Presents the annual estimates of rates and levels of violent crime (rape or sexual assault, robbery, aggravated assault, and simple assault), property crime (burglary, motor vehicle theft, and property theft), and personal theft (pocket picking and purse snatching). It describes the year-to-year change from 2008 and trends for the 10-year period from 2000 through 2009. The Nat. Criminal Victimization Survey collects information on non-fatal crimes, reported and not reported to the police, against persons age 12 or older from a nationally representative sample of U.S. households. This report also includes data on the characteristics of victims of crime; estimates of intimate partner violence; and use of firearms and other weapons during the crime. Illustrations.

...an ideal information source for those involved in managing waste and recovering waste for use in products to produce revenue... (Food Science and Technology - review of Volume 1) This is a most welcome addition to the literature, likely to be essential study material for both technologists and process engineers. (The Chemical Engineer - review of Volume 1) Food processors are under pressure, both from consumers and legislation, to reduce the amount of waste they produce and to consume water and energy more efficiently.

Handbook of waste management and co-product recovery in food processing provides essential information about the major issues and technologies involved in waste co-product valorisation, methods to reduce water and energy consumption, waste reduction in particular food industry sectors and end waste management. Opening chapters in Part one of Volume 2 cover economic and legislative drivers for waste management and co-product recovery. Part two discusses life cycle analysis and closed-loop production systems to minimise environmental impacts in food production. It also includes chapters on water and energy use as well as sustainable packaging. Part three reviews methods for exploiting co-products as food and feed ingredients, whilst the final part of the book discusses techniques for non-food exploitation of co-products from food processing. Provides essential information about the major issues and technologies involved in waste product valorisation Examines methods to reduce water and energy consumption in particular food industry sectors Discusses the economic and legislative drivers for waste management and co-product recovery

With an author team led by Bonnie S. Fisher, one of the preeminent scholars in the field, *Introduction to Victimology: Contemporary Theory, Research, and Practice* is ideal for victimology survey courses at any level. This unique volume employs an integrated approach that focuses on theory, research, and practice. It covers a wide range of issues and also addresses unique topics such as victim decision making, fear of crime, and preventing victimization. FEATURES Incorporates relevant theory into the coverage of each key topic and connects the topics through theories that have developed over the past several decades Offers theoretical explanations for the causes and correlates of victimization, the reoccurrence of victimization, and domains of victimization Examines research across the main topics by discussing both classic and current studies Provides case studies and examples of victimology in practice, linking theory to practice and highlighting programs that have successfully addressed issues like prevention, mitigation of harm, and responses to victims and victimization Introduces students to current research in theory testing, discussing how accurate various theories have been shown to be "Spotlight on Theory," "Spotlight on Research," and "Spotlight on Policy" boxes offer in-depth looks at timely topics

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.
