"The best mysteries--whether detective, historical, police procedural, cozy, or comedy--have one thing in common: a memorable perpetrator. For every Sherlock Holmes or Sam Spade in noble pursuit, there's a Count Dracula, a Lester Leith, or Jimmy Valentine. These are the rogues and villains who haunt our imaginations--who often have more in common with their heroic counterparts than we might think. Now, for the first time ever, Otto Penzler gathers the iconic traitors, thieves, con men, sociopaths, and killers who have crept through the mystery canon over the past 100 years"--Amazon.com.

The sixth installment of Bernard Cornwell's New York Times bestselling series chronicling the epic saga of the making of England, "like Game of Thrones, but real" (The Observer, London)—the basis for The Last Kingdom, the hit television series. As the ninth century wanes, Alfred the Great lies dying, his lifelong goal of a unified England in peril, his kingdom on the brink of chaos. Though his son, Edward, has been

named his successor, there are other Saxon claimants to the throne—as well as ambitious pagan Vikings to the north. Torn between his vows to Alfred and the desire to reclaim his long-lost ancestral lands in the north, Uhtred, Saxon-born and Viking-raised, remains the king's warrior but has sworn no oath to the crown prince. Now he must make a momentous decision that will forever transform his life and the course of history: to take up arms—and Alfred's mantle—or lay down his sword and let his liege's dream of a unified kingdom die along with him.

Master the terrifyingly effective Phoenix Eye Fist style of Chinese Kung Fu with this illustrated martial arts guide. The Secrets of Phoenix-Eye Fist Kung-Fu depicts an enormously potent art, also known as Chuka Shaolin, that does not depend on strength or size. Instead, it utilizes a special striking technique, the phoenix-eye fist, aimed at vital points on the opponent's body. Phoenix-Eye Fist Kung-Fu excels at close-range fighting—an area neglected in many other martial arts—and employs a variety of lightning-fast strikes and kicks. Due to its deadly efficacy, there is no sparring in Chuka Shaolin, but instead complex two-person practice forms

are employed—both for empty-handed fighting and for fighting with weapons—in which the practitioners fight all-out, and are protected only by a precise knowledge of the form. With hundreds of clear photographs, *The Secrets of Phoenix-Eye Fist Kung-Fu* reveals: The fundamental techniques of the empty-handed art A complete breakdown of the two-person empty-hand practice forms Detailed instruction in Chuka Shaolin pole fighting, including the practice forms An overview of the other weapons used in Chuka Shaolin, including the sai, the twin knives, the spear, and the farmer's hoe Special forms of Chi Kung designed to increase striking power, increase vitality, and aid in resisting and healing injuries

Once upon a time, there were five crazy people. And they poisoned the 21st Century. From the creators of *Moon Knight: From the Dead*, collecting issues 1-5 of *INJECTION*, the story of five mad geniuses trying to save us all from themselves.

Drawing on the vast body of styles practiced around the world, including ancient and obscure styles from every continent on the planet, *The Way of the Warrior* is an indispensable, one-stop reference work for anyone interested in the martial-arts canon.

Widely practiced but not always understood, the Filipino martial arts have a rich history and distinctive character that have not fully been documented until now. Written in the context of Philippine history and culture, *Filipino Martial Culture* uncovers the esoteric components of the Filipino martial arts and the life histories of the men who perpetuate them. Included are: the history of turbulence and war in the Philippines from prehistoric times to the present day; the culture of the Filipino martial arts, including warrior ethos and worldview, spirituality, folklore, and weaponry; biographical sketches of eighteen Filipino masters and descriptions of their respective fighting styles; and a comparative study of the ethos, ideology, and development of

the Filipino martial arts in relation to the considerable martial traditions of India, China, and Japan. In the course of his research, internationally renowned martial arts master and scholar Mark V. Wiley traveled the globe, interviewing top masters and recording their life histories, thoughts, and anecdotes. In addition, he collected 320 historical photographs and illustrations, including step-by-step sequences of the masters demonstrating the distinctive techniques of their particular martial styles. A classic reference for practitioners and researchers alike, this Filipino martial arts book is as much a definitive anthropological textbook as it is a practical guide to Arnis, Kali, Eskrima, and the other martial arts of the Philippines.

To many people, J.G. Ballard will always be the schoolboy in Steven Spielberg's movie *Empire of the Sun*, struggling to survive as an internee of the Japanese during World War II. Others remember him as the author of *Crash*, a meditation on the eroticism of the automobile and the liebstod of the car crash. The book he styled 'the first pornographic novel about science' dramatised the reality behind his formula for the twenty-first century - 'Technology x sex = the future'. It too became a film, and a cause celebre for its frank depiction of a fetish which, as this book reveals, was no literary conceit but a lifelong preoccupation. Uniquely among his contemporaries, Ballard understood and exploited the language of advertising and promotion. Because of him, the term 'inner space' and phrases like 'the only alien planet is Earth' passed into the language. So did the adjective 'Ballardian' - 'resembling or suggestive of the conditions described in Ballard's novels and stories, esp. dystopian modernity, bleak man-made landscapes and the psychological effects of technological, social or environmental

developments'. In this first biography, John Baxter draws on an admiration of and acquaintance with Ballard that began when they were writers for the same 1960s science fiction magazines. With the help of the few people whom he admitted to his often hermit-like existence, it illuminates the troubled reality behind the urbane and amiable facade of a man who was proud to describe himself as 'psychopathic'.
