This best-selling text explores the meaning, necessity, and benefits of multicultural education-in a sociopolitical context-for students of all backgrounds. Sonia Nieto and Patty Bode look at how personal, social, political, cultural, and educational factors affect the success or failure of students in today's classroom. Expanding upon the popular case-study approach, *Affirming Diversity: The Sociopolitical Context of Multicultural Education* examines the lives of real students who are affected by multicultural education, or the lack of it. This social justice view of multicultural education encourages teachers to work for social change in their classrooms, schools, and communities.

A diverse approach to understanding and managing diversity. *Understanding and Managing Diversity* uses applications to clarify the complexity of a diverse workforce, and explains how it can be used as an organizational asset. This text also provides readers with a wide range of expertise--from the perspective of experienced interdisciplinary instructors (business, psychology, economics, theology, law, politics, history, etc.) to practitioners (diversity trainers, corporate managers, etc.). This edition has been substantially updated to reflect the changing diversity issues in today's workplace--including 18 new and 15 revised articles/cases/exercises.
