emphasizes formative assessment and includes more in-depth coverage of self-assessment, the impact of standards-based accountability testing, 21st century knowledge, dispositions and skills, technology-enhanced items, and assessment of culturally diverse students. Each chapter provides aids to help readers learn and practice the skills of that chapter, including new Teacher Corners features illustrating actual teachers' thinking about classroom assessment, introductory case studies, chapter concept maps, new figures, suggestions for action research, self-instructional review exercises, and links to digital resources. Also available

with MyLab Education Designed to bring learners more directly into the world of K-12 classrooms and to help them see the real and powerful impact of the assessment concepts covered in this book, MyLab™ Education provides practice using classroom assessment concepts in teaching situations, helps students and instructors see how well students understand the content, and helps students more deeply process assessment concepts and strategies and also better understand how to use those concepts as a teacher. The online resources in this MyLab include: Video Examples. Throughout the eText, embedded

videos provide illustrations of sound assessment practices in action. Self-Check Assessments. Throughout the chapters, students will find self-check quizzes that help assess how well students have mastered chapter learning outcomes. The quizzes consist of self-grading multiple choice items that provide rationales, both for questions answered correctly and for questions answered incorrectly. Application Exercises. These scaffolded exercises, tied to learning outcomes, challenge learners to reflect on assessment and to apply what they have learned to real classroom assessment work. Experts and novices shape a journey through foundational content toward

professionalism. With a bright and engaging writing style that enlists the voices from experts as well as novices, Becoming a Teacher explores what it means to be a professional teacher in today's climate of accountability, high-stakes testing, and changing legislation. Fully revised, the Tenth Edition explores the changing field of education, outlining ways to be an agent of change in the profession, pinpointing meaningful uses of technology in education, clarifying realities of school and classroom diversity, and clearly outlining past, present, and future thoughts on curriculum, instruction, management, philosophy, and issues in

education. This straightforward approach provides students with the tools and information necessary to answer the questions, "What does it take to become a high quality teacher?" and "Do I want to teach?" Along the way, the author provides practical perspectives for meeting the challenges of teaching. Organized into four parts, the book addresses both functional and foundational topics to give readers a well-rounded view of the teaching profession. A powerful and poetic immigration story. A girl learns words in a new language to prepare for her move to a new country. But when her family arrives, everyone speaks so fast and "all her words fly away like birds." The girl waits, and watches, and listens, trying to figure things out. Only, it's hard. Then one day the girl meets someone who needs her help. And as she makes a new friend, the new words start to come easier – becoming her words, at last. A perfect read-aloud, this poignant story offers a powerful lesson in empathy for children everywhere.

Educational Research

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. The seventh edition of this widely-adopted text for special educators

addresses the full-range of curriculum and instructional topics involved in educating individuals with moderate, severe, and multiple disabilities. Evidence-based practices are presented in clearly-defined ways so that teachers can easily understand the research presented and apply it in the real classroom. All chapters in the book are unique, written by leaders in the field known for their research and writing on the specific topics. Case studies of students are applied to chapter content in vignettes, tables, and figures found throughout the chapters, and the textbook rests on a solid

evidence-base with research citations provided. The new edition features many new updates including: a greater emphasis on teaching students with autism; six new chapters authored by experts in the field; more information on teaching methods supported by research, peer support, teaching academic skills, the process for planning and implementing instruction within general education classrooms, transition planning, and alternate assessment. All core chapters have been strengthened and expanded, and PowerPoint slides are now available for course instructors.

“This very readable book is what every graduate student needs as they start their program. I wish my own MA and PhD students, during my 40 years of supervising, could have been demystified by having Casanave's 'textual mentor' as a companion.” --Merrill Swain, Professor Emerita, OISE, University of Toronto

“Before the Dissertation is an insightful, relevant, and accessible resource for doctoral students at any stage. Full of reflections and advice not found in other books, it serves as an indispensable guide for students and their supervisors. And the dispelling of myths is a

superb idea!" --Robert Kohls, PhD candidate, University of Toronto Unlike other books on doctoral dissertation writing, Before the Dissertation is designed for students in the social sciences who are still in the early stages of doctoral study or for master's-level students considering entering doctoral programs. It addresses concerns pertinent to both first and second language users of English. It focuses on purposes for doctoral dissertation writing, topic choice and development, choosing and working with advisers, reading and informal writing, and quality-of-life issues. Faculty advisers who wish

to reduce student attrition are also urged to read this book and to work with students at early stages of dissertation projects. Each of the nine chapters begins with a common myth about advanced academic work that is then dispelled. The chapters also pose questions that connect issues directly with individual readers so as to help them make sensible decisions about their doctoral work. The book could be used in graduate classes on issues in doctoral study or dissertation planning, and it can be a companion (textual mentor) to individual students who wish to reflect on their decision to pursue doctoral

study/doctoral project. This book may also help instructors and advisers understand the kinds of obstacles faced by students that tend to impede or halt progress.

search Writer - in their own words, at anytime, from anywhere - and get accurate, easy-to-understand help. For each topic, students see the Core Concept, a video, text, examples, content from Purdue OWL, and can complete Quick Check quizzes to ensure understanding. Students today are "Googling" their way through writing and become overwhelmed by thousands of results and inaccurate, out-of-date content. Writer's powerful search gets them the right answer the first time. - My Projects allows students to keep track of writing assignments for all their courses in one place, with due dates, a progress bar that monitors where they are in the process, help at each stage, a place to manage sources, notes, and their bibliography, as well as a bibliography evaluation and tracker. - Cite Sources provides

students with tools for citing any kind of source in a variety of documentation styles including MLA, APA, and Chicago. A simple search engine helps students find sources and auto-cite and simple forms allow students to input information and the citation is created for them. Students can use the camera on their phone to scan book and journal barcodes to create citations. - Find Sources gives access to thousands of academically credible, full-text sources that can be easily searched, viewed and cited. - Writing Review offers students the opportunity to polish their writing by automatically assessing writing for grammar and style issues. Students paste their writing into the Review, which automatically highlights possible errors and provides students with an analysis of their writing. What advantages does Writer

offer? - All-in-One Nowhere else will you find a solution that offers trusted content with powerful search and a suite of research and writing project management tools all in one place. - Student First In developing this new kind of resource, Pearson worked with hundreds of students to understand their writing and research processes, where they go for help, and the kinds of features and functionality they value. We combined what students want with what our discipline experts know they need to produce Writer. - Mobile First For the first time in higher education, the mobile version of the product was designed first to ensure robustness and that the mobile version is as usable and effective as the desktop version. - Always Accessible Students register for the desktop version of Writer, which allows them to

download the Writer app onto their smartphone and tablet. Whether they are working on their laptop at home, or in a computer lab on campus, or using their smartphone or tablet anywhere, they can access guidance and tools for writing, grammar and research whenever they want. - Curated Content Writer features the best of Pearson's premium multimedia assets for writing, grammar and research, as well as content from The Scott, Foresman Handbook. In an exclusive partnership, Writer also integrates content from Purdue OWL, the most respected online resource for writing. - Usability Tested Students in usability tests conducted by an outside research institute gave Writer an 8.1 on the usability scale, the highest score they have seen on a higher education product.

With the view that children are capable young scientists, authors encourage science teaching in ways that nurture students' curiosity about how the natural world works including research-based approaches to support all K-5 children constructing scientific explanations via talk and writing.

Grounded in NSF-funded research, this book/DVD provides K-5 teachers with a

framework for explanation (Claim, Evidence, Reasoning) that they can use to organize everything from planning to instructional strategies and from scaffolds to assessment. Because the framework addresses not only having students learn scientific explanations but also construct them from evidence and evaluate them, it is considered to build upon the new NRC framework for K-12 science education, the national standards, and reform documents in

science education, as well as national standards in literacy around argumentation and persuasion, including the Common Core Standards for English Language Arts (Common Core State Standards Initiative, 2010). The chapters guide teachers step by step through presenting the framework for students, identifying opportunities to incorporate scientific explanation into lessons, providing curricular scaffolds (that fade over time) to support all

students including ELLs and students with special needs, developing scientific explanation assessment tasks, and using the information from assessment tasks to inform instruction. For courses in strategic compensation. This ISBN is for the Pearson eText combo card, which includes the Pearson eText and loose-leaf print edition (delivered by mail). Connecting art and science in compensation practices Strategic Compensation: A Human

Resource Management Approach demonstrates the art and science of compensation practice and its role in a company's competitive advantage. Through focused activities and supporting course material, students build a solid foundation to become proficient compensation professionals. The 10th Edition focuses on the context of compensation practice, the criteria used to compensate employees, compensation system design issues,

and review key vocabulary all in one place, even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily customize the table of contents, schedule readings and share their own notes with students so they see the connection between their eText and what they learn in class -- motivating them to keep reading, and keep learning. And,

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework.

Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students
