As authors and professors, Mike Sullivan and George Woodbury are well aware of the challenges facing students in the introductory statistics course. Recognizing that students need to be more informed interpreters of data, they developed Interactive Statistics: Informed Decisions Using Data. Written entirely within MyStatLab(tm), Interactive Statistics engages students by combining text, videos, tutorials, and assessment into one seamless learning experience. Through a series of Interactive Assignments, students are encouraged to experience the material in new, dynamic, and engaging ways. Each assignment guides students through text and

authors Jim Stallard and Michelle Boué emphasize that learning statistics extends beyond the classroom to an essential life skill, and want Canadian students to develop a "data habit of mind." Regardless of their math backgrounds, students will learn how to think about data and how to reason using data. With a clear, unintimidating writing style and carefully chosen pedagogy, this text makes data analysis accessible to all students.
