Felicia Pearson, who starred of the acclaimed television series 'The Wire', reveals her incredible, hard-knock life story, one that dramatically parallels her television character. While Felicia is a brilliant actor who played a truly chilling role, what's most remarkable about "Snoop" is what she has overcome in her life. Snoop was born a three-pound cross-eyed crack baby in East Baltimore. Those streets are among the toughest in the world, but Snoop was tougher. The runt of the ghetto showed an early aptitude for drug slinging and violence and thrived as a baby gangsta until she landed in Jessup state penitentiary after killing a woman in self-defense. There she rebelled violently against the

system, and it was only through the cosmic intervention of her mentor, Uncle Loney, that she turned her life around. Eventually, Snoop was discovered in a nightclub by one of *The Wire*'s cast members and quickly recruited to be one of television's most frightening and intriguing villains. While the story of coming up from the hood has been told by Antwone Fisher and Chris Gardner, among others, Snoop's tale goes far deeper into *The Life* than any previous books. And like Mary Karr's story, Snoop's is a woman's story from a fresh point of view. She defied traditional conventions of gender and sexual preference on the hardest streets in America and in front of millions of viewers on TV.
