This text uses a conceptual framework involving three types of claims (fact, value, policy) that are advanced by forms of reasoning (definition, example, cause, sign, etc.). This framework describes a wider variety of arguments. Upon completing this book, readers will be able to understand basic concepts in argumentation theory, criticism, and practice as well as make good arguments as well as evaluate the arguments they encounter.

The story behind the podcast Crimetown, as told by the notorious Buddy Cianci himself. An election is a war and "to the victor belongs the spoils." That's the real democratic process. After all, you'll never see a victorious politician tell his supporters, "I want to thank all of you who worked so hard for my election. However, in the interest of good government, I've decided to give all the jobs to those people who voted against me." This belief became Buddy Cianci's mantra. Following his own rules, Cianci spent almost three decades as mayor of Providence, RI... before leaving for an enforced vacation in a federally funded gated community. Providence was a dying industrial city when he first took office, but he helped turn it into one of the most desirable places to live in America. He did it by playing the game of hardball politics as well as it has ever

been played, living up to his favorite Sinatra lyric "I did it my way"—because that's the only way a mayor can run a city. If you want to know the truth about how politics is played, you picked the right book. This is the behind-the-locked-door story of how politics in America really works. Here is a man who has been called many things: "America's Most Innovative Mayor," a "colorful character," and a convicted felon. But no one has ever called him shy. Here, he serves it all up.

A Down-to-Earth Approach James Henslin shares the excitement of sociology in Essentials of Sociology: A Down-to-Earth Approach, 11/e. With his acclaimed "down-to-earth" approach and personal writing style, the author highlights the sociology of everyday life and its relevance to students' lives. With wit, personal reflection, and illuminating examples,

Henslin stimulates students' sociological imagination so they can better perceive how the pieces of society fit together. In addition to this trademark down-to-earth approach, other distinctive features include: comparative perspectives, the globalization of capitalism, and visual presentations of sociology. MySocLab is an integral part of the Henslin learning program. Engaging activities and assessments provide a teaching a learning system that helps students see the world through a sociological lens. What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman."

-CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of

television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. “A brilliant, powerful, and important book. Simon Critchley's *Very Short Introduction* shows that Continental philosophy encompasses a distinct set of philosophical traditions and practices, with a compelling range of problems all too often ignored by the analytic tradition. He discusses the ideas and approaches of philosophers such as Kant, Hegel, Nietzsche, Husserl, Heidegger, Sartre, Habermas, Foucault, and Derrida, and introduces key concepts such as existentialism, nihilism,

and phenomenology by explaining their place in the Continental tradition. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. Since 2013, an organization called the Nonhuman Rights Project has brought before the New York State courts an unusual request—asking for habeas corpus hearings to determine whether Kiko and Tommy, two captive chimpanzees, should be considered legal persons with the fundamental right to bodily liberty. While the courts

Acces PDF Philosophers Way John Chaffee

have agreed that chimpanzees share emotional, behavioural, and cognitive similarities with humans, they have denied that chimpanzees are persons on superficial and sometimes conflicting grounds. Consequently, Kiko and Tommy remain confined as legal "things" with no rights. The major moral and legal question remains unanswered: are chimpanzees mere "things", as the law currently sees them, or can they be "persons" possessing fundamental rights? In Chimpanzee Rights: The Philosophers' Brief, a group of renowned philosophers considers these questions. Carefully and clearly, they examine the four lines of reasoning the courts have used to deny chimpanzee personhood:

species, contract, community, and capacities. None of these, they argue, merits disqualifying chimpanzees from personhood. The authors conclude that when judges face the choice between seeing Kiko and Tommy as things and seeing them as persons—the only options under current law—they should conclude that Kiko and Tommy are persons who should therefore be protected from unlawful confinement "in keeping with the best philosophical standards of rational judgment and ethical standards of justice." Chimpanzee Rights: The Philosophers' Brief—an extended version of the amicus brief submitted to the New York Court of Appeals in Kiko's and Tommy's cases—goes to the heart of

fundamental issues concerning animal rights, personhood, and the question of human and nonhuman nature. It is essential reading for anyone interested in these issues.

Shao-yun Yang challenges assumptions that the cultural and socioeconomic watershed of the Tang-Song transition (800-1127 CE) was marked by a xenophobic or nationalist hardening of ethnocultural boundaries in response to growing foreign threats. In that period, reinterpretations of Chineseness and its supposed antithesis, “barbarism,” were not straightforward products of political change but had their own developmental logic based in two interrelated intellectual shifts among the

literati elite: the emergence of Confucian ideological and intellectual orthodoxy and the rise of neo-Confucian (daoxue) philosophy. New discourses emphasized the fluidity of the Chinese-barbarian dichotomy, subverting the centrality of cultural or ritual practices to Chinese identity and redefining the essence of Chinese civilization and its purported superiority. The key issues at stake concerned the acceptability of intellectual pluralism in a Chinese society and the importance of Confucian moral values to the integrity and continuity of the Chinese state. Through close reading of the contexts and changing geopolitical realities in which new interpretations of identity emerged, this intellectual

CRITICAL THINKING, THOUGHTFUL WRITING begins with the premise that thinking well involves using language well, and vice versa. This rhetoric with readings--written by critical-thinking scholar John Chaffee and English professors Christine McMahon and Barbara Stout--provides thorough coverage of the writing process, going beyond the traditional rhetoric to teach

students how to evaluate sources, images, and arguments. Each chapter focuses on a critical-thinking skill--such as problem solving or analysis of complex issues--that is explored through "Thinking-Writing Activities" and thematically linked readings. The text helps students develop these skills through carefully sequenced pedagogy and a cross-disciplinary approach that asks them to complete writing assignments and critically evaluate readings drawn from a variety of disciplines. The Fifth Edition offers new readings, a new "Thinking Critically About New Media" feature in each chapter, and more photos, which emphasize visual rhetoric.

and is addressed primarily to those who waver rather than to Christians who are firmly established in their beliefs. However, as the author writes in the preface, there is not much in this book on moral evil and sin. Teilhard de Chardin assumes that he is dealing here with souls who have already turned away from such errors. The subject to be treated in these pages is actual, supernaturalized human beings, seen in the restricted realm of conscious psychology.

*The Sung Dynasty (960–1278) was a time of vast changes and new challenges in China. The growth of the urban and rural economics, population increase, the emergence of an educated elite, political and intellectual ferment, and threats from hostile neighbors are some of the forces that shaped the age. How did Sung statesmen and thinkers view the relation of state and society and the role of political action in solving society's ills? The essays in *Ordering the World* explore contemporary ideas underlying policies, programs, and institutions of the period and examine attitudes toward history and sources of authority. Their findings have important implications for our understanding of the neo-Confucian movement in Sung history and of the Sung in the history of Chinese ideas about politics*

and social action. Contents: Introduction by Conrad Schirokauer and Robert P.
