surely everyone would want to do it? We know that to succeed as a pianist requires practice and lots of it. But how do we practice? What exactly do we need to do day by day to reach our goals? There are many books on piano playing, but surprisingly few that deal with the art of practicing. Given the amount of time an aspiring pianist needs to spend at the instrument on a regular basis, it is surely very important to know exactly what to do, and how to make the best use of this time. This book will show you how to do that.

wants to speed up the learning process and learn to play in a fun and interesting way, not the traditional, boring method.

This book of pieces aims to establish good practice and provide an early introduction to the essential skill of sight-reading. In Part 1 the basic keys of C, G, F and D major and A and D minor are explored while keeping the movement limited to steps, skips and repeated notes in a 5-note range. In Part 2 students are encouraged to identify the key for themselves. Accidentals, dotted notes, simple ties and syncopations occur in the exercises. Intervals of 4ths and 5ths are also included.
