The Whole Damn

Dynasty

This collection of 19 essays is the first one devoted to function-oriented analyses of intermedial interrelationships in literature, art, music, and film. The

# Download File PDF Popcorn Ben Elton

contributors — among others, Werner Wolf, James Heffernan, Walter Bernhart, Siglind Bruhn, Claus Clüver, Valerie Robillard, and Tamar Yacobi — are leading international scholars in the field of intermediality. The common basis of the essays in this volume — ranging from

intermedial studies of medieval liturgical practices, early cinema, modernist art, ekphrasis, music and literature, art and literature, film and literature, hymns, and pop music, to the musical and technological aspects of Concrete poetry — is the ambition to pay attention to the

cultural contexts that enhance the significance of these intermedial works and trends under examination. Since the contributions cover different types of intermedial endeavours from various periods and times, a kind of historicizing perspective is outlined.

So, in pursuit of a still lacking coherent historical survey of cultural functions of intermediality, this volume might be recognized as a step towards such a Funktionsgeschichte for intermedial exploration.
