

Porsche 911 Price Guide

America's love affair with cars is on the fast track. Here is the current market value for every model from every major manufacturer in the United States and abroad through the mid-1970s, including Ford, Buick, Cadillac, Chevrolet, Chrysler, Rolls-Royce, and Mercedes-Benz. Clearly organized from A to Z, each listing is broken down by date, engine specifications, model types, and body styles -- with three condition categories from fair to excellent. Essential references include a list of classic car museums around the country, a directory of car collector clubs, and a glossary that contains all the terms you need to know to negotiate the deal. In addition, there are handy hints from the professionals about buying at auction and for investment, theft prevention, and selling classic cars. Plus special sections on trucks and motorcycles cover a wide range of vehicles from Humpbacks and Pickups to Flatheads and Knuckleheads. Dozens of photographs help you identify special models.

The Porsche 911 Buyer's Guide takes a year-by-year approach to what a prospective buyer should look for when evaluating a used 911. For each year, from 1965 to the present, the author examines the problematic areas of each model, what to ask the seller, and much more.

A guide for collectors discusses the history of die-cast toy cars of the 1950s and 1960s and surveys the companies that manufactured the

toys around the world, including such major names as Dinky Toys, Corgi Toys, Solido, Tekno, and Tootsietoy.
