So that's what I did.

I made changes as I read the book - some as simple as the trying three-part breath sitting at the airport gate and increasing my flexibility while sitting in the plane. I really like concrete examples and this book is full of them." Contents Introduction. Conclusion - Go Mindful. Summarizes the practices and discusses practical approaches to obstacles and the value of taking the first step; summarizes the importance of being in the moment, with intention, and without judgment. Anne and Chris Altizer's unique capabilities in performance and wellness come from their professional and personal experiences and expertise. They have each been "road warriors" in their time and together have earned over five million lifetime frequent flyer miles globally. Each possesses an diverse set of experiences - small-business owner/global corporate executive, certified personal trainer/senior human resources leader, equestrian /scuba instructor. They share passions and accomplishments, including both becoming RYT 200 yoga teachers and both being martial arts instructors for over a decade. As working parents and caregivers, they have learned, sometimes repeatedly, the importance of taking care of mind, body and spirit when life requires travel and coach class is as good as it gets.
