As Seen on Public Television EAT OR BE EATEN In turbulent markets you need to become an investment predator. Investment predators create a plan for capturing their prey (prime investment opportunities) while risk is fairly low, and spit the bones out (sell the investment) before they become prey themselves. Pounce describes a system that is neither frantic day trading nor passive buy-and-hold investing. You set up a three-pronged strategy based on quantitative measures of market value, economic direction, and market sentiment, and then choose stocks, exchange traded funds (ETFs), or mutual funds using easy-to-understand criteria. You tweak the system no more than once a month. You've now got the laws of probability in your favor. Recessions, disruptive periods, or bear markets become windows of opportunity. Pounce teaches you with dozens of specific examples how to run your investment life so as to never be the prey again! "Fierce investing advice." - Publishers Weekly

A force of mobile targets is subject to a long period of surveillance, followed by a sudden application of force (the 'pounce'). Some targets will escape the pounce because they have not been recently enough localized by the surveillance system. The problems considered are the division of a budget between surveillance and pounce, the allocation of pounce forces to targets, and the description of how the fraction of targets that survives the pounce depends on the budget. *Come with Pounce, the lion cub, as he learns what happens when a child needs surgery. Follow Pounce as he prepares for, and goes through his own surgery, living the life of a child, in a magical place called Tell Me Town. Follow Pounce as he meets his anesthesiologist (Dr. Dreamtime), and the other medical professionals who gently guide him every step of the way, with kindness and compassion. "This is a lovely book that explains many of the scariest aspects of going to the hospital and having surgery. While not all anesthesia practices are the same, this does a nice job going over some of the options. Always call your local Dr. "Dreamtime" if you have any questions about your anesthesia." Rita Agarwal MD, FAAP Clinical Professor of Anesthesiology, Stanford Children's Hospital " This book is a wonderful contribution to soothing the anxiety associated with surgery in the eyes of children. The authors are to be congratulated. I would encourage surgeons who operate on children to consider using it in their practice. I would "Pounce" on getting this for my patients." David B. Hoyt, MD, FACS Executive Director, American College of Surgeons " What a great idea. This book is a wonderful way to connect the surgical experience with young children and ease their fears. I highly endorse this book." Dr. Daniel Cole, MD. Past President, American Society of Anesthesiologists " The Tell Me Town Book, using Pounce and Beamer to tell the story of Dr. Dreamtime anesthetizing Pounce, is a wonderful story for children and parents about the technical details of an anesthetic, told in an enjoyable manner. As an anesthesiologist, parent and grandparent, I wish it was around when I was sending my children and grandchildren to the operating room." David L. Brown, MD, FACHE(R) Founder and CEO, Curadux, Former Chair, Anesthesiology Institute, Cleveland Clinic "Pounce helps anxious children prepare for surgery with colorful illustrations and an engaging text." Pounce is the son of the tiger-folk chieftain. When his honor is challenged, Pounce must prove he is worthy to take over for his father someday. He is given a grand quest to earn his name of maturity and the right of leadership, but it seems impossible. How could anyone find the lost Saber tribes of the Eastern Jungles? And if he doesn't, he'll be banished forever. With no other choice, Pounce begins his journey across the treacherous realm of Fire, but soon finds he is not alone. A human girl with a secret and two gazelle-folk trying to get to the city of Torch View decide to join him. Danger lurks around every bend and the four unlikely companions find themselves battling elemental monsters and Fire creatures. Unable to turn back, Pounce must rely on the help of his new friends to uncover the secret of the Riddle of Fire and continue his quest. When lives are on the line, will Pounce have the strength and courage to finish the quest or will he fail and be banished from the friends and family that he loves? This coming of age fantasy adventure is the second book in the Battlemental universe and combines action and humor to show that people from different backgrounds often make the best friends. Several interior illustrations depict the heroes and some of the strange creatures they meet. Pounce and the Riddle of Fire is a middle grade novel in the style of Brandon Mull (Fablehaven) and Rick Riordan (Percy Jackson and the Lightning Thief).

Life for Pounce is upside down. He is thrown away, cruelly treated; a housecat dishonored by people, chased by wild animals, and faced with strange adventures. Can he live up to his name and boldly pounce on life in spite of his fears? Will wild animals, loud people, and large farm animals intimidate him into cowering through life?
