*Working with Young People offers a new outlook on social, cultural, and educational work with young people. It utilizes the perspective of social pedagogy—a theoretical and practical perspective that has been developing in continental Europe over the last 150 years—in placing young people at the center of socio-educational work and giving value to their decisions and actions. The text supports youths' process of personal construction within the framework of the community in which they live. The book is organized into three large blocks of chapters. The introduction aims to prepare readers for the social pedagogy approach to work with young people. It briefly outlines its current situation in the world and, relate it to the main professions in which it is embodied in different socio-cultural contexts: social pedagogy, social education, and social work. The first block presents the framework and socio-pedagogical, theoretical, and practical parameters in which work with young people takes place in Europe and Latin America. The second block of chapters deals with youth policies and the training and professionalization of educators and those who work with young people. The last block focuses on some socio-educational practices with young people that include youth justice, social inclusion process, youth participation in digital life or transition to adult life. The book is based on a wide perspective of young people from cultural diversity.*

The new patterns and policies for fostering and adoption which have been phased in since the Children Act was passed in 1989, have brought a number of important changes to the fore. Here, the authors examine and assess many of the complex issues facing social workers when planning and implementing these new initiatives.

After a hard life of constant disappointment, Perro Viejo, an old slave on a Cuban sugar plantation, has given up, until an encounter with a fellow slave and an escape to freedom make him open his heart to the world once again.

Everything changes for Kate, Moya and Romy when they receive word that Maeve Dillon, their mother, is critically ill. It is time to return from Dublin, London and New York to Rossmore and the old stone house overlooking the Irish Sea where they grew up. But ancient jealousies surface as each sister confronts the past and the decisions they have made. For work-driven Kate it is time to take stock of her role as a high-flying ambitious lawyer and single parent; life is a battle between work and looking after Molly with little time for a proper relationship. Even Patrick, the man she once fell for, has ended up marrying her sister. Beautiful and intense Moya must take a hard look at her marriage to the charming but unfaithful Patrick and consider her own worth. For wild child Romy who has travelled the world and hasn't put a foot on Irish soil for years, it is time to finally stop running and find the courage to confront her family. A good and caring mother, Maeve Dillon has somehow over the years labelled each of her three daughters: Moya the beautiful, Kate the brains, and Romy, the bold and wild one. Now it is finally time for all three to break out of the box.

A unique work of fiction from the troubled streets of Ukraine, giving invaluable testimony to the new history unfolding in the nation's post-independence years "One of the most astounding novels to come out of modern Ukraine. Mesopotamia is seductive, twisted, brilliant, and fierce."--Gary Shteyngart, author of Little Failure and Absurdistan This captivating book is Serhiy Zhadan's ode to Kharkiv, the traditionally Russian-speaking city in Eastern Ukraine where he makes his home. A leader among Ukrainian post-independence authors, Zhadan employs both prose and poetry to address the disillusionment, complications, and complexities that have marked Ukrainian life

in the decades following the Soviet Union's collapse. His novel provides an extraordinary depiction of the lives of working-class Ukrainians struggling against an implacable fate: the road forward seems blocked at every turn by demagogic forces and remnants of the Russian past. Zhadan's nine interconnected stories and accompanying poems are set in a city both representative and unusual, and his characters are simultaneously familiar and strange. Following a kind of magical-realist logic, his stories expose the grit and burden of stilled lives, the universal desire for intimacy, and a wistful realization of the off-kilter and even perverse nature of love.

A funny, transporting, surprising, and poignant novel that was one of the highest-selling debuts of recent years in Korea. Love in the Big City tells the story of a young gay man searching for happiness in the lonely city of Seoul Love in the Big City is the English-language debut of Sang Young Park, one of Korea's most exciting young writers. A runaway bestseller, the novel hit the top five lists of all the major bookstores, and was praised for its unique literary voice and perspective. It is now poised to capture a worldwide readership. Young is a cynical yet fun-loving Korean student who pinballs from home to class to the beds of recent Tinder matches. He and Jaehae, his female best friend and roommate, frequent nearby bars where they push away their anxieties about their love lives, families, and money with rounds of soju and ice-cold Marlboro Reds that they keep in their freezer. Yet over time, even Jaehae leaves Young to settle down, leaving him alone to care for his ailing mother and to find companionship in his relationships with a series of men, including one whose handsomeness is matched by his coldness, and another who might end up being the great love of his life. A brilliantly written novel that takes us into the glittering nighttime of Seoul and the biary-eyed morning after with both humor and emotion, Love in the Big City is a wry portrait of millennial loneliness as well as the abundant joys of queer life.

A wise, affecting novel from the beloved, award-winning author of Funny Girl, High Fidelity, and About A Boy. New York Times-bestselling author Nick Hornby mines the hearts and psyches of four lost souls who connect just when they've reached the end of the line. A Long Way Down is now a major motion picture from Magnolia Pictures starring Pierce Brosnan, Toni Collette, Aaron Paul, and Imogen Poots. Meet Martin, JJ, Jess, and Maureen. Four people who come together on New Year's Eve: a former TV talk show host, a musician, a teenage girl, and a mother. Three are British, one is American. They encounter one another on the roof of Topper's House, a London destination famous as the last stop for those ready to end their lives. In four distinct and riveting first-person voices, Nick Hornby tells a story of four individuals confronting the limits of choice, circumstance, and their own mortality. This is a tale of connections made and missed, punishing regrets, and the grace of second chances. Intense, hilarious, provocative, and moving, A Long Way Down is a novel about suicide that is, surprisingly, full of life.

Think! Different is a different kind of self-help book: the author, Andreas Boskugel, is well-known in Europe and appreciated for his clear and direct manner. Boskugel has taken the law of attraction to its systematic and logical conclusion! This book is completely free of otherwise typical references to moral or religious "standards" because the law of attraction – like all natural laws – isn't based on morality or religion. Consequently the author has a very different take than do others on success: For example, he doesn't idolize hard work, honesty and gratitude ad absurdum, for these are only religious and cultural based opinions and actually contradict the law of attraction. The author also forgoes otherwise typical teachings about what is right or wrong: after all, what is "right" is individually defined. Feigned pity or morality sermons are also not included in this work. This work is for those who love the integrity of the law of attraction and prefer clarity over political correctness. And it's for those who really want to get somewhere in life and who therefore question existing opinions. It's for people who are able to think on their own

Instead of going with the flow. For many, it was not until reading this book that they finally understood the law of attraction, for the topics in this book are more logically organized than in other popular works, and insights are offered that can dramatically improve the lives of readers. Completely new insights about the existing laws of life can help readers become invincible masters

of their own destiny. Keywords: Law of Attraction, Self-Help, Success, Wealth, Dream, Wish Fulfillment, Love, Relationship, Money
